Comment Sought on Petition for Extension of Waiver of the Requirement for a Certified Professional Engineer To Certify Broadband Data Collection Availability Data

AGENCY: Federal Communications Commission.

ACTION: Petition for extension of waiver; request for comments.

SUMMARY: The Broadband Data Task Force, Wireless Telecommunications Bureau, Wireline Competition Bureau, and the Office of Economics and Analytics (Bureaus), seeks comment on a Petition for Extension of Waiver (Petition) requesting that the Bureaus renew for an additional three filing cycles the *BDC Limited Waiver*.

DATES: Comments are due on or before September 1, 2023, and reply comments are due on or before September 11, 2023.

ADDRESSES: You may submit comments, identified by WC Docket No. 19–195, by any of the following methods:

- *Electronic Filers:* Comments may be filed electronically using the internet by accessing ECFS: <https://www.fcc.gov/ecfs/>.
- *Paper Filers:* Parties who choose to file by paper must file an original and one copy of each filing.
- Filings can be sent by commercial overnight courier, or by first-class or overnight U.S.-Postal Service mail. All filings must be addressed to the Commission’s Secretary, Office of the Secretary, Federal Communications Commission.
- Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.

- U.S. Postal Service first-class, Express, and Priority mail must be addressed to 45 L Street NE, Washington, DC 20554.
- Effective March 19, 2020, and until further notice, the Commission no longer accepts any hand or messenger delivered filings. This is a temporary measure taken to help protect the health and safety of individuals, and to mitigate the transmission of COVID–19. See FCC Announces Closure of FCC Headquarters Open Window and Change in Hand-Delivery Policy, Public Notice, 35 FCC Rcd 2788, 2788–89 (OS 2020).

Ex Parte Rules. This proceeding shall be treated as a “permit-but-disclose” proceeding in accordance with the Commission’s *ex parte* rules. Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must: (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made; and (2)

summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenters written comments, memoranda, or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with § 1.1206(b) of the Commission’s rules. In proceedings governed by § 1.49(f) of the rules or for which the Commission has made available a method of electronic filing, written *ex parte* presentations and memoranda summarizing oral *ex parte* presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (e.g., .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize themselves with the Commission’s *ex parte* rules.

Synopsis

1. The Bureaus seek comment on a Petition filed by the Competitive Carriers Association (CCA) and USTelecom—The Broadband Association (USTelecom and, together with CCA, Petitioners). Petitioners request that the Bureaus renew for an additional three filing cycles the *BDC Limited Waiver*, which temporarily waives the requirement that Broadband Data Collections (BDC) filings be verified by a licensed Professional Engineer (PE), thus allowing BDC submissions to be certified by an otherwise qualified engineer who does not hold the PE credential.

2. The Commission’s rules require that a certified PE or a corporate engineering officer review and certify the accuracy of the broadband availability data submitted by mobile and fixed providers as part of the BDC. This requirement was adopted to ensure

that filers have engaged in the analysis necessary to meet Congress's objective of developing more accurate broadband coverage data. In particular, the Commission requires each mobile and fixed service provider to include certifications as to the accuracy of its data submissions by a certified PE or corporate engineering officer, in which the engineer certifies "that he or she has examined the information contained in the submission and that, to the best of the engineer's actual knowledge, information, and belief, all statements of fact contained in the submission are true and correct and in accordance with the service provider's ordinary course of network design and engineering." This certification is in addition to the corporate officer certification required by the Broadband DATA Act and the Commission's *Second Order and Third Further Notice*, 86 FR 18124, April 7, 2021.

3. In the July 2022 *BDC Limited Waiver*, the Bureaus found that granting a limited waiver of the rule was "consistent with the policy objectives of the rule because providers will still be required, under the terms of the limited waiver the Commission adopted, to have an engineer review and certify their BDC submissions to help ensure the accuracy of the broadband data they submit" and that the limited waiver "only modifies the engineering certification requirement to allow providers to use otherwise-qualified engineers who are not certified PEs to make the required certifications."

4. Petitioners assert that the "BDC process under the waiver has been effective, with no impact to the quality or accuracy of the BDC filings, and there remains an ongoing industry need for a waiver of the PE requirement." The Petition says the industry, particularly smaller providers, is still experiencing hardships regarding the scarcity of PE licensure in the workforce and continues to face "significant challenges" meeting the PE certification requirement. The Petition also asserts that broadband providers can provide accurate broadband data without certification by licensed PEs. Petitioners therefore request that the Commission renew or extend the *BDC Limited Waiver*, or otherwise grant a new waiver, of the requirement that BDC certification be completed by a licensed PE for three additional data filing cycles and continue to allow providers that do not have access to licensed PEs to certify data with an engineering professional with the same qualifications specified in the *BDC Limited Waiver*.

5. The Commission seeks comment on these and other issues raised by the Petition as they may impact both fixed and mobile broadband service providers.

[MB Docket No. 23-280; RM-11957; DA 23-705; FR ID 165142]

Television Broadcasting Services Colusa, California

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission has before it a petition for rulemaking filed by One Ministries, Inc. (Petitioner), requesting the allotment of reserved noncommercial educational (NCE) channel *2 to Colusa, California as the community's first local television service.

DATES: Comments must be filed on or before September 21, 2023 and reply comments on or before October 6, 2023.

ADDRESSES: Federal Communications Commission, Office of the Secretary, 45 L Street NE, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve counsel for the Petitioner as follows: James L. Oyster, Esq., 108 Oyster Lane, Castleton, Virginia 22716.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418-1647; or Joyce Bernstein, Media Bureau, at Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The Petitioner contends that Colusa is a community deserving of a new television broadcast service. In support, the Petitioner states that Colusa, with a 2020 population of 6,411 is the seat of Colusa County and known for its agricultural production. The Petitioner further states that Colusa has a mayor, mayor pro tem, and three council members; police, public works, parks and recreation, planning, fire, and utility departments; a library, airport, and numerous businesses and places of worship; and its own Zip Code. The Petitioner states its intention to file an application for channel *2, if allotted, and take all necessary steps to obtain a

construction permit. The proposed amendment to the Table of TV Allotments warrants consideration. The Petitioner's proposal would result in a first local service to Colusa under Allotment Priority (2) of the Commission's television allotment priority standard. The Petitioner demonstrates, and a staff engineering analysis confirms, that channel *2 can be allotted to Colusa, California, consistent with the minimum geographic spacing requirements for new allotments in section 73.623(d) of the Commission's rules. In addition, the allotment point complies with section 73.625(a)(1) of the Commission's rules as the entire community of Colusa is encompassed by the 35 dBµ contour.

This is a synopsis of the Commission's *Notice of Proposed Rulemaking*, MB Docket No. 23-280; RM-11957; DA 23-705, adopted August 16, 2023, and released August 16, 2023.
