

2. The Plat of Survey of the following described lands was officially filed at the Bureau of Land Management (BLM) Nevada State Office, Reno, Nevada, on July 18, 2023.

The plat, in 1 sheet, representing the dependent resurvey of Mineral Survey No. 38, Township 28 North, Range 66 East, Mount Diablo Meridian, Nevada, under Group No. 998, was accepted July 18, 2023. This survey was executed to meet certain administrative needs of the Bureau of Land Management.

3. The Plat of Survey of the following described lands was officially filed at the Bureau of Land Management (BLM) Nevada State Office, Reno, Nevada, on July 05, 2023.

The plat, in 1 sheet, representing the dependent resurvey of a portion of the south boundary, Township 17 South, Range 49 East, and the dependent resurvey of a portion of the subdivisional lines, the subdivision of Section 1, and metes-and-bounds surveys in Section 1, Township 18 South, Range 49 East, Mount Diablo Meridian, Nevada, under Group No. 1000, was accepted June 29, 2023. This survey was executed to meet certain administrative needs of the Bureau of Land Management.

4. The Plat of Survey of the following described lands was officially filed at the Bureau of Land Management (BLM) Nevada State Office, Reno, Nevada, on May 17, 2023.

The plat, in 1 sheet, representing the dependent resurvey of a portion of the north boundary, portions of the subdivisional lines, and the subdivision of section 3, Township 20 South, Range 61 East, Mount Diablo Meridian, Nevada, under Group No. 997, was accepted May 10, 2023. This survey was executed to meet certain administrative needs of the Bureau of Land Management.

5. The Supplemental Plat of the following described lands was officially filed at the Bureau of Land Management (BLM) Nevada State Office, Reno, Nevada, on March 30, 2023.

The supplemental plat, in 1 sheet, showing the subdivision of lot 15 of Section 2, Township 21 South, Range 62 East, Mount Diablo Meridian, Nevada, under Group No. 1003, was accepted March 29, 2023. This supplemental plat was prepared to meet certain administrative needs of the Bureau of Land Management.

The surveys and supplemental plat, listed above, are now the basic record for describing the lands for all authorized purposes. These records have been placed in the open files in the BLM Nevada State Office and are

available to the public as a matter of information.

Dated: August 18, 2023.

Michael O. Harmening,

Chief Cadastral Surveyor for Nevada.

BILLING CODE 4331-21-P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[Docket No. BOEM-2023-048]

Notice of Availability of a Joint Record of Decision for the Revolution Wind Farm and Revolution Wind Export Cable Project

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior; National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce; U.S. Army Corps of Engineers (USACE), Department of the Army (DA).

ACTION: Notice of Availability (NOA); record of decision (ROD).

SUMMARY: BOEM announces the availability of the joint ROD on the Final Environmental Impact Statement (FEIS) for the construction and operations plan (COP) submitted by Revolution Wind, LLC (Revolution Wind) for its Revolution Wind Farm and Revolution Wind Export Cable Project (Project) offshore Rhode Island. The joint ROD includes the Department of the Interior's (DOI) decision regarding the Revolution Wind COP, NMFS' decision regarding Revolution Wind's request for Incidental Take Regulations (ITR) and an associated Letter of Authorization (LOA) under the Marine Mammal Protection Act (MMPA), and the DA's decision regarding authorizations under section 10 of the Rivers and Harbors Act of 1899 (RHA) and section 404 of the Clean Water Act (CWA). NMFS has adopted the FEIS to support its decision of whether or not to promulgate ITRs and issue a LOA to Revolution Wind under the MMPA. USACE has adopted the FEIS to support its decision to issue a DA permit under section 10 of the RHA and section 404 of the CWA. The joint ROD concludes the National Environmental Policy Act (NEPA) process for each agency and is available with associated information on BOEM's website at: <https://www.boem.gov/renewable-energy/state-activities/revolution-wind>.

FOR FURTHER INFORMATION CONTACT: For information on the Project ROD, please contact Jessica Stromberg, BOEM Office of Renewable Energy Programs, 45600

Woodland Road, VAM-OREP, Sterling, Virginia 20166, (703) 787-1730 or jessica.stromberg@boem.gov. For information related to NMFS' action, contact Katherine Renshaw, NOAA Office of General Counsel, Environmental Review and Coordination Section, (302) 515-0324, katherine.renshaw@noaa.gov. For information related to USACE's action, contact Ruth Brien, New England District Regulatory Division, (978) 318-8054 or ruthann.a.brien@usace.army.mil.

SUPPLEMENTARY INFORMATION:

Revolution Wind seeks approval to construct, operate, maintain, and eventually decommission the Project: a wind energy facility on the Outer Continental Shelf (OCS) offshore Rhode Island. The Project would be developed within the range of design parameters outlined in the Revolution Wind COP, subject to applicable mitigation measures. The Project as proposed in the COP would include up to 100 wind turbine generators (WTGs), up to 2 offshore high voltage alternating current substations, inter-array cables linking the individual turbines to the offshore substations, one substation interconnector cable linking the substations to each other, offshore export cables, an onshore export cable system, one onshore substation, and connection to the existing electrical grid at The Narragansett Electric Company Davisville Substation in North Kingstown, Rhode Island. The WTGs, offshore substations, inter-array cables and substation interconnector cables would be located on the OCS approximately 15 nautical miles (18 statute miles) southeast of Point Judith, Rhode Island, within an area defined by Renewable Energy Lease OCS-A 0486 (Lease Area). The offshore export cables would be buried below the seabed in the OCS and State of Rhode Island submerged lands. The onshore export cables, substations, and grid connections would be located in North Kingstown, Rhode Island.

A notice of availability for the FEIS was published in the **Federal Register** on July 21, 2023. On August 15, 2023, BOEM published an errata on its website that included certain edits to the summary of impacts by alternative tables in the Executive Summary and Chapter 2 of the FEIS to include species-specific impact determinations for North Atlantic Right Whale at the request of NOAA. The errata also provides numbering corrections, and text and footnotes to tables note clarifications in Chapter 3, Appendix E-2, and Appendix F. None of these edits

or corrections are substantive or affect the analysis or conclusions in the FEIS. After carefully considering alternatives described and analyzed in the FEIS and comments from the public on the Draft EIS, the DOI has decided to approve the COP for Revolution Wind under the preferred Alternative G, which reduces the installation to 65 WTGs from the Project as proposed in the COP. The full text of the mitigation, monitoring, and reporting requirements, which will be included in BOEM's COP approval, are available in the ROD, which is available on BOEM's website at: <https://www.boem.gov/renewable-energy/state-activities/revolution-wind>.

NMFS has adopted BOEM's FEIS to support its decision of whether or not to promulgate the requested ITR and issue the associated LOA to Revolution Wind. NMFS' final decision of whether or not to promulgate the requested ITR and issue the LOA will be documented in a separate Decision Memorandum prepared in accordance with internal NMFS policy and procedures. The final ITR and a notice of issuance of the LOA, if issued, will be published in the **Federal Register**. The LOA would authorize Revolution Wind to take a small number of marine mammals incidental to Project construction and would set forth permissible methods of incidental taking; means of effecting the least practicable adverse impact on the species and its habitat; and requirements for monitoring and reporting. Pursuant to Section 7 of the Endangered Species Act, NMFS issued a final Biological Opinion to BOEM on July 21, 2023, evaluating the effects of the proposed action on ESA-listed species. The proposed action in the opinion includes the associated permits, approvals and authorizations that may be issued.

USACE has decided to adopt BOEM's FEIS and issue a permit to Revolution Wind pursuant to section 10 of the RHA and section 404 of the CWA. The DA permit will authorize Revolution Wind to discharge fill below the high tide line of waters of the United States. It will also authorize Revolution Wind to perform work and place structures below the mean high water mark of navigable waters of the United States and to affix structures to the seabed on the OCS.

Authority: This NOA is published in accordance with regulations (40 CFR parts 1500–1508) implementing the National Environmental Policy Act of

1969, as amended (42 U.S.C. 4321 *et seq.*).

Karen Baker,

*Chief, Office of Renewable Energy Programs,
Bureau of Ocean Energy Management.*

BILLING CODE 4340–98–P

INTERNATIONAL TRADE COMMISSION

[USITC SE–23–040]

Sunshine Act Meetings

Agency Holding the Meeting: United States International Trade Commission.

TIME AND DATE: August 31, 2023 at 11:00 a.m.

PLACE: Room 101, 500 E Street SW, Washington, DC 20436, Telephone: (202) 205–2000.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

1. Agendas for future meetings: none.
2. Minutes.
3. Ratification List.
4. Commission vote on Inv. No. 731–TA–895 (Fourth Review)(Pure Granular Magnesium from China). The Commission currently is scheduled to complete and file its determinations and views of the Commission on September 8, 2023.
5. Outstanding action jackets: none.

CONTACT PERSON FOR MORE INFORMATION: Sharon Bellamy, Acting Supervisory Hearings and Information Officer, 202–205–2000.

The Commission is holding the meeting under the Government in the Sunshine Act, 5 U.S.C. 552(b). In accordance with Commission policy, subject matter listed above, not disposed of at the scheduled meeting, may be carried over to the agenda of the following meeting.

By order of the Commission.
Issued: August 22, 2023.

Sharon Bellamy,

Acting Supervisory Hearings and Information Officer.

DEPARTMENT OF JUSTICE

[OMB Number 1105–0103]

Agency Information Collection Activities; Proposed eCollection eComments Requested; Electronic Submission Form for Requests for Corrective Action, Whistleblower Protection for Federal Bureau of Investigation Employees

AGENCY: Office of Attorney Recruitment and Management (OARM), Department of Justice.

ACTION: 30-Day notice.

SUMMARY: The Office of Attorney Recruitment and Management (OARM), Justice Management Division, Department of Justice (DOJ), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection was previously published in the **Federal Register** on May 24, 2023, allowing a 60-day comment period.

DATES: Comments are encouraged and will be accepted for 30 days until September 25, 2023.

FOR FURTHER INFORMATION CONTACT: If you have comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact: Deana Willis, Office of Attorney Recruitment and Management, 450 5th St. NW, Suite 10200, Washington, DC 20530, 202–514–8902, Deana.Willis@usdoj.gov.

SUPPLEMENTARY INFORMATION:

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and/or
- Minimize the burden of the collection of information on those who are to respond, including through the use of
