

or corrections are substantive or affect the analysis or conclusions in the FEIS. After carefully considering alternatives described and analyzed in the FEIS and comments from the public on the Draft EIS, the DOI has decided to approve the COP for Revolution Wind under the preferred Alternative G, which reduces the installation to 65 WTGs from the Project as proposed in the COP. The full text of the mitigation, monitoring, and reporting requirements, which will be included in BOEM's COP approval, are available in the ROD, which is available on BOEM's website at: <https://www.boem.gov/renewable-energy/state-activities/revolution-wind>.

NMFS has adopted BOEM's FEIS to support its decision of whether or not to promulgate the requested ITR and issue the associated LOA to Revolution Wind. NMFS' final decision of whether or not to promulgate the requested ITR and issue the LOA will be documented in a separate Decision Memorandum prepared in accordance with internal NMFS policy and procedures. The final ITR and a notice of issuance of the LOA, if issued, will be published in the **Federal Register**. The LOA would authorize Revolution Wind to take a small number of marine mammals incidental to Project construction and would set forth permissible methods of incidental taking; means of effecting the least practicable adverse impact on the species and its habitat; and requirements for monitoring and reporting. Pursuant to Section 7 of the Endangered Species Act, NMFS issued a final Biological Opinion to BOEM on July 21, 2023, evaluating the effects of the proposed action on ESA-listed species. The proposed action in the opinion includes the associated permits, approvals and authorizations that may be issued.

USACE has decided to adopt BOEM's FEIS and issue a permit to Revolution Wind pursuant to section 10 of the RHA and section 404 of the CWA. The DA permit will authorize Revolution Wind to discharge fill below the high tide line of waters of the United States. It will also authorize Revolution Wind to perform work and place structures below the mean high water mark of navigable waters of the United States and to affix structures to the seabed on the OCS.

Authority: This NOA is published in accordance with regulations (40 CFR parts 1500–1508) implementing the National Environmental Policy Act of

1969, as amended (42 U.S.C. 4321 *et seq.*).

Karen Baker,

*Chief, Office of Renewable Energy Programs,
Bureau of Ocean Energy Management.*

DEPARTMENT OF JUSTICE

[OMB Number 1105–0103]

Agency Information Collection Activities; Proposed eCollection eComments Requested; Electronic Submission Form for Requests for Corrective Action, Whistleblower Protection for Federal Bureau of Investigation Employees

AGENCY: Office of Attorney Recruitment and Management (OARM), Department of Justice.

ACTION: 30-Day notice.

SUMMARY: The Office of Attorney Recruitment and Management (OARM), Justice Management Division, Department of Justice (DOJ), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection was previously published in the **Federal Register** on May 24, 2023, allowing a 60-day comment period.

DATES: Comments are encouraged and will be accepted for 30 days until September 25, 2023.

FOR FURTHER INFORMATION CONTACT: If you have comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact: Deana Willis, Office of Attorney Recruitment and Management, 450 5th St. NW, Suite 10200, Washington, DC 20530, 202–514–8902, Deana.Willis@usdoj.gov.

SUPPLEMENTARY INFORMATION:

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and/or
- Minimize the burden of the collection of information on those who are to respond, including through the use of
