

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a State program;
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

In addition, this proposed rulemaking action, pertaining to New York’s submissions, is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have Tribal implications and will not impose substantial direct costs on Tribal governments or preempt Tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Executive Order 12898 (Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, Feb. 16, 1994) directs Federal agencies to identify and address “disproportionately high and adverse human health or environmental effects” of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. EPA defines environmental justice (EJ) as “the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.” EPA further defines the term fair treatment to mean that “no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and

commercial operations or programs and policies.”

The NYSDEC did not evaluate environmental justice considerations as part of its SIP submittal; the CAA and applicable implementing regulations neither prohibit nor require such an evaluation. EPA did not perform an EJ analysis and did not consider EJ in this action. Due to the nature of the action being taken here, this action is expected to have a neutral to positive impact on the air quality of the affected area. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of E.O. 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

47 CFR Part 73

[MB Docket No. 23–281; RM–11958; DA 23–706; FR ID 165158]

Television Broadcasting Services; Alamogordo, New Mexico

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission has before it a petition for rulemaking filed by Vision Broadcasting Networks, Inc. (Petitioner), requesting the allotment of reserved noncommercial educational (NCE) channel *4 to Alamogordo, New Mexico as the community’s first local television service.

DATES: Comments must be filed on or before September 25, 2023 and reply comments on or before October 10, 2023.

ADDRESSES: Federal Communications Commission, Office of the Secretary, 45 L Street NE, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve

counsel for the Petitioner as follows: James L. Oyster, Esq., 108 Oyster Lane, Castleton, Virginia 22716.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418–1647; or Joyce Bernstein, Media Bureau, at Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The Petitioner contends that Alamogordo is a community deserving of a new television broadcast service. In support, the Petitioner states that Alamogordo, with a 2020 population of 30,898 is the county seat of Otero County. Alamogordo has a mayor, six Commissioners, and a city manager; police, fire, public works, and utility departments, planning, engineering, and community and economic development departments; a library, school district, numerous businesses and places of worship; and its own ZIP Code. The Petitioner states its intention to file an application for channel *4, if allotted, and take all necessary steps to obtain a construction permit. The proposed amendment to the Table of TV Allotments warrants consideration. The Petitioner’s proposal would result in a first local service to Alamogordo under Allotment Priority (2) of the Commission’s television allotment priority standard. The Petitioner demonstrates, and a staff engineering analysis confirms, that channel *4 can be allotted to Alamogordo, New Mexico, consistent with the minimum geographic spacing requirements for new allotments in section 73.623(d) of the Commission’s rules. In addition, the allotment point complies with section 73.625(a)(1) of the rules as the entire community of Alamogordo is encompassed by the 35 dBμ contour.

This is a synopsis of the Commission’s *Notice of Proposed Rulemaking*, MB Docket No. 23–281; RM–11958; DA 23–706, adopted August 16, 2023, and released August 16, 2023. [PSHSB: PS Docket No. 23–239; FCC 23–65 FR ID 166265]

Cybersecurity Labeling for Internet of Things

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document, the Federal Communications Commission (Commission) proposes measures to improve consumer confidence and understanding of the security of their connected devices—commonly known as Internet of Things (IoT) devices—that are woven into the fabric of their everyday lives. To provide consumers with the peace of mind that the technology being brought into their homes is reasonably secure, and to help guard against risks to communications, the Commission proposes a voluntary cybersecurity labeling program that would provide easily understood, accessible information to consumers on the relative security of an IoT device or product, and assure consumers that manufacturers of devices bearing the Commission’s IoT cybersecurity label adhere to widely accepted cybersecurity standards. In this regard, the Commission’s cybersecurity labeling program would help consumers compare IoT devices and make informed purchasing decisions, drive consumers toward purchasing devices with greater security, incentivize manufacturers to meet higher cybersecurity standards to meet market demand, and encourage retailers to market secure devices. The proposed IoT label would offer a trusted, government-backed symbol for devices that comply with IoT cybersecurity standards.
