Agricultural Marketing Service

Title: Tobacco Reports.

OMB Control Number: 0581–0004.

Summary of Collection: The authority for the mandatory collection of information on Form TB–26, Tobacco Stocks Report, is Public Law 661, commonly known as the Tobacco Statistics Act (7 U.S.C. 501–508) enacted in 1929. The Act directs the Department of Agriculture (USDA), to collect statistics on the quantities of leaf tobacco held by dealers and manufacturers in the United States and Puerto Rico.

The Agricultural Marketing Act of 1946 (7 U.S.C. 1621–1627) directs and authorizes USDA to collect, tabulate, and disseminate statistics on marketing agricultural products including market supplies, storage stocks, quantity, quality and condition of such products in various positions in the marketing channel, utilization of sub-products, shipment, and unloads.

Need and Use of the Information: The basic purpose of the information collection is to ascertain the total supply of unmanufactured tobacco available to domestic manufacturers and to calculate the amount consumed in manufactured tobacco products. This data is also used for the calculation of production quotas for individual types of tobacco and for price support calculations. Without the information, USDA would not be able to disseminate marketing information as directed and authorized in the Act.

SUPPLEMENTARY INFORMATION:

Background

Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

Section 319.56–4 contains a performance-based process for approving the importation of fruits and vegetables that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the five designated phytosanitary measures listed in paragraph (b) of that section.

APHIS received a request from the national plant protection organization of Nigeria to allow importation of fresh Ugu leaves (*Telfairia occidentalis* Hook.f) from Nigeria into the continental United States. As part of our evaluation of Nigeria’s request, we have prepared a pest risk assessment (PRA) to identify the pests of quarantine significance that could follow the pathway of the importation of fresh Ugu leaves from Nigeria into the continental United States. Based on the PRA, a risk management document (RMD) was prepared to identify phytosanitary measures that could be applied to the fresh Ugu leaves to mitigate the pest risk.

Therefore, in accordance with § 319.56–4(c), we are announcing the availability of our PRA and RMD for public review and comment. Those documents, as well as a description of the economic considerations associated with the importation of fresh Ugu leaves (*Telfairia occidentalis* Hook.f) from Nigeria, may be viewed on the [Regulations.gov](https://www.regulations.gov) website or in our reading room (see **ADDRESSES** above for a link to [Regulations.gov](https://www.regulations.gov) and information on the location and hours of the reading room). You may request paper copies of the PRA and RMD by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the analysis you wish to review when requesting copies.

After reviewing any comments we receive, we will announce our decision regarding the import status of fresh Ugu leaves from Nigeria in a subsequent notice. If the overall conclusions of our analysis and the Administrator’s determination of risk remain unchanged following our consideration of the comments, then we will authorize the importation of fresh Ugu leaves from Nigeria into the continental United States subject to the requirements specified in the RMD.

Done in Washington, DC, this 23rd day of August 2023.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.
