

national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.” EPA further defines the term fair treatment to mean that “no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies.”

Indiana did not evaluate EJ considerations as part of its SIP submittal; the CAA and applicable implementing regulations neither prohibit nor require such an evaluation. EPA did not perform an EJ analysis and did not consider EJ in this action. Due to the nature of the action being taken here, this action is expected to have a neutral to positive impact on the air quality of the affected area. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of E.O. 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 23-286; RM-11960; DA 23-749; FR ID 166837]

Television Broadcasting Services Winnemucca, Nevada

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission has before it a petition for rulemaking filed by Gray Television Licensee, LLC (Petitioner), the permittee of unbuilt station KWNV(DT), channel 7, Winnemucca, Nevada. The Petitioner requests the substitution of channel 16 for channel 7 at Winnemucca in the Table of Allotments.

DATES: Comments must be filed on or before September 29, 2023 and reply comments on or before October 16, 2023.

ADDRESSES: Federal Communications Commission, Office of the Secretary, 45 L Street NE, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve counsel for the Petitioner as follows: Joan Stewart, Esq., Wiley Rein LLP, 2050 M Street NW, Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418-1647; or Joyce Bernstein, Media Bureau, at Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: In support, the Petitioner states its proposed channel substitution would serve the public interest by allowing Gray to build out this new station to avoid well-documented issues with indoor digital VHF reception since the 2009 digital transition. Petitioner states that the Commission has recognized the deleterious effects manmade noise has on the reception of VHF signals, finding that the propagation characteristics of these channels allow undesired signals and noise to be receivable at relatively farther distances, nearby electrical devices tend to emit noise in this band that can cause interference, and reception of VHF signals require physically larger antennas, relative to UHF channels. Additionally, the Commission has observed the large variability in the performance (especially intrinsic gain) of indoor antennas available to consumers, with most antennas receiving fairly well at UHF and the substantial majority not so well to very poor at high-VHF.
