DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[Docket No. USCG–2023–0758]

Safety Zones in Reentry Sites; Jacksonville, Florida

AGENCY: Coast Guard, DHS.

ACTION: Notification of enforcement of regulation.

SUMMARY: The Coast Guard is activating three safety zones for the National Aeronautics and Space Administration (NASA) Commercial Crew Program 6 (Crew-6) mission reentry vehicle splashdown, and recovery operations. These operations will occur in the U.S. Exclusive Economic Zone (EEZ). Our regulation for safety zones in reentry sites within the Seventh Coast Guard District identifies the regulated areas for this event. No U.S.-flagged vessel may enter the safety zones unless authorized by the Captain of the Port Savannah or a designated representative. Foreign-flagged vessels are encouraged to remain outside the safety zones.

DATES: The regulations in 33 CFR 165.T07–0806 will be enforced for the safety zones identified in the **SUPPLEMENTARY INFORMATION** section below for the dates and times specified.

FOR FURTHER INFORMATION CONTACT: If you have questions about this notification of enforcement, call or email Lieutenant Junior Grade Anthony Harris, Marine Safety Unit Savannah, Waterways Division, U.S. Coast Guard; telephone 912–210–8714, email at Anthony.E.Harris@uscg.mil.

SUPPLEMENTARY INFORMATION: With this document, the Coast Guard Captain of the Port (COTP) Savannah is activating a portion of the safety zone as listed in 33 CFR 165.T07–0806(a)(1), and the safety zones listed in (a)(2) and (a)(3) on September 4, 2023 through September 11, 2023, for the National Aeronautics and Space Administration (NASA) Commercial Crew Program 6 (Crew-6) mission reentry vehicle splashdown, and the associated recovery operations in the U.S. EEZ. These safety zones are located within the COTP Savannah Area of Responsibility (AOR) offshore of

Jacksonville, Florida. The Coast Guard is activating these safety zones in order to protect vessels and waterway users from the potential hazards created by reentry vehicle splashdowns and recovery operations. In accordance with the general regulations in 33 CFR part 165, subpart C, no U.S.-flagged vessel may enter the safety zones unless authorized by the COTP Savannah or a designated representative except as provided in § 165.T07-0806(d)(3). All foreign-flagged vessels are encouraged to remain outside the safety zones.

There are four other safety zones listed in § 165.T07-0806(a)(2) through (a)(5), which are located within the COTP St. Petersburg and Jacksonville AORs, that are being simultaneously activated through separate notifications of enforcement of the regulation document issued under Docket Numbers USCG-2023-0719, and USCG-2023-0757.¹

Twenty-four hours prior to the Crew-6 recovery operations, the COTP Jacksonville, the COTP Savannah, the COTP St. Petersburg, or designated representative will inform the public that whether any of the five safety zones described in § 165.T07-0806, paragraph (a), will remain activated (subject to enforcement). If one of the safety zones described in § 165.T07-0806, paragraph (a), remains activated it will be enforced for four hours prior to the Crew-6 splashdown and remain activated until announced by Broadcast Notice to Mariners on VHF-FM channel 16, and/or Marine Safety Information Bulletin (as appropriate) that the safety zone is no longer subject to enforcement. After the Crew-6 reentry vehicle splashdown, the COTP or a designated representative will grant general permission to come no closer than 3 nautical miles of any reentry vehicle or space support vessel engaged in the recovery operations, within the activated safety zone described in § 165.T07-0806, paragraph (a). Once the reentry vehicle, and any personnel involved in reentry service, are removed from the water and secured onboard a space support vessel, the COTP or designated representative will issue a Broadcast Notice to Mariners on VHF-FM channel 16 announcing the activated safety zone is no longer subject to enforcement. The recovery operations are expected to last approximately one hour.

The Coast Guard may be assisted by other Federal, State, or local law

enforcement agencies in enforcing this regulation.

Dated: September 1, 2023.

Nathaniel L. Robinson,
Commander, U.S. Coast Guard, Captain of the Port Savannah.

Revised Definition of “Waters of the United States”; Conforming

AGENCY: Department of the Army, Corps of Engineers, Department of Defense; and Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) and the Department of the Army (“the agencies”) are amending the Code of Federal Regulations (CFR) to conform the definition of “waters of the United States” to a 2023 Supreme Court decision. This conforming rule amends the provisions of the agencies’ definition of “waters of the United States” that are invalid under the Supreme Court’s interpretation of the Clean Water Act in the 2023 decision.

DATES: This final rule is effective on September 8, 2023.

ADDRESSES: The agencies have established a docket for this action under Docket ID No. EPA-HQ-OW-2023-0346. All documents in the docket are listed on the <https://www.regulations.gov/> website. Although listed in the index, some information is not publicly available, e.g., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. SUPPLEMENTARY INFORMATION:

I. Why are the agencies issuing this final rule?

This action amends Code of Federal Regulations (CFR) provisions promulgated in “Revised Definition of ‘Waters of the United States,’” 88 FR 3004 (January 18, 2023) (“2023 Rule”), to conform to the 2023 Supreme Court decision in *Sackett v. EPA*, 598 U.S. , 143 S. Ct. 1322 (2023) (“*Sackett*”). The Administrative Procedure Act (APA) provides that, when an agency for good cause finds that public notice and comment procedures are impracticable, unnecessary, or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. 5 U.S.C. 553(b)(B). The Environmental Protection Agency (EPA) and the Department of the Army (“the agencies”) have determined that there is good cause under APA section 553(b)(B) to issue this final rule without prior proposal and opportunity for comment because such notice and opportunity for comment is unnecessary. Certain provisions of the 2023 Rule are invalid under the Supreme Court’s interpretation of the Clean Water Act in *Sackett*. The effect of the *Sackett* decision was to render these provisions immediately inconsistent with the Supreme Court’s interpretation of the Clean Water Act. Consistent with the agencies’ previously stated intent regarding the severability of the 2023 Rule in the event that provisions of that rule were held invalid, *see* 88 FR 3135, the agencies are conforming the 2023 Rule’s definition of the term “waters of the United States” to the Supreme Court’s decision. Specifically, the agencies are revising 40 CFR 120.2(a)(1)(iii), (a)(3) through (5), and (c)(2) and (6), and 33 CFR 328.3(a)(1)(iii), (a)(3) through (5), and (c)(2) and (6) to amend aspects of the definition as needed to conform to the Supreme Court’s interpretation of the Clean Water Act in *Sackett*. Because the sole purpose of this rule is to amend these specific provisions of the 2023
