

individuals. The purpose of the informational requirements is to provide an employee with enough information regarding the program to allow an employee to make an informed choice whether or not to sign a waiver agreement. The employer does not provide this information to the EEOC; the ADEA and the EEOC's regulation solely require that the employer provide this information to any employee it would apply to, and not to the Federal government.

The EEOC, in accordance with the PRA and OMB regulation 5 CFR 1320.8(d)(1), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the EEOC to assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public to understand the EEOC's information collection requirements and provide the requested data in the desired format. The EEOC is soliciting comments on the information collection that is described below. The EEOC is especially interested in public comment that will assist in the following: (1) Evaluating whether the collection of information is necessary for the proper performance of the Commission's functions, including whether the collection has practical utility; (2) Evaluating the accuracy of the Commission's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) Enhancing the quality, utility, and clarity of the information to be collected; and (4) Minimizing the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Please note that written comments received in response to this notice will be considered public records.

Overview of This Information Collection

Collection title: Waivers of Rights and Claims Under the ADEA; Informational Requirements.

OMB number: 3046-0042.

Type of Respondent: Business, state or local governments, not for profit institutions.

Description of affected public: Any employer with 20 or more employees that seeks waiver agreements in

connection with exit incentive or other employment termination program.

Number of respondents: 1,489.

Burden Hours per Respondent: 16.19.

Total Annual Burden Hours: 24,107.

Abstract: The EEOC enforces the Age Discrimination in Employment Act (ADEA), which prohibits discrimination against employees and applicants for employment who are age 40 or older. The OWBPA, enacted in 1990, amended the ADEA to require employers to disclose certain information to employees (but not to EEOC) in writing when they ask employees to waive their rights under the ADEA in connection with an exit incentive program or other employment termination program. The regulation at 29 CFR 1625.22 reiterates those disclosure requirements. The EEOC seeks an extension without change for the third-party disclosure requirements contained in this regulation. On June 12, 2023, the Commission published a 60-Day Notice informing the public of its intent to request an extension of the information collection requirements from the Office of Management and Budget. 88 FR 38047-49 (June 12, 2023). No comments were received.

For the Commission.

154, 155, 158, 161, 301, 303(r), 308, 309, 310 and 332.

Total Annual Burden: 1,135.

Total Annual Cost: \$1,443,825.

Needs and Uses: FCC Form 608 is a multi-purpose form. It is used to provide notification or request approval for any spectrum leasing arrangement (“Lease”) entered into between an existing licensee in certain Wireless and/or Public Safety Radio Services and a spectrum lessee. This form also is required to notify or request approval for any spectrum subleasing arrangement (“Sublease”). The data collected on the form is used by the FCC to determine whether the public interest would be served by the Lease or Sublease. The form is also used to provide notification for any Private Commons Arrangement entered into between a licensee, lessee, or sublessee and a class of third-party users (as defined in Section 1.9080 of the Commission’s Rules).

On July 18, 2022, the Commission released a Report and Order and Second Further Notice of Proposed Rulemaking, Partitioning, Disaggregation, and Leasing of Spectrum, WT Docket No. 19–38, FCC 22–53, in which the Commission established the Enhanced Competition Incentive Program (ECIP) to establish incentives for wireless radio service licensees to make underutilized spectrum available to small carriers, Tribal Nations, and entities serving rural areas (ECIP Report and Order in WT Docket No. 19–38, FCC 22–53). In the Report and Order, the Commission adopted a program under which any covered geographic area licensee may offer spectrum to an unaffiliated eligible entity through a partition and/or disaggregation, and any covered geographic area licensee eligible to lease in an included service may offer spectrum to an unaffiliated eligible entity through a long-term leasing arrangement. If the FCC finds that approval of an ECIP eligible assignment or lease is in the public interest, the agency will consent to the transaction and confer benefits, including five-year license term extensions, one year construction extensions, and substituted alternative construction requirements for rural-focused transactions. The Commission also established rules to permit reaggregation of geographic licenses.

In establishing the ECIP, the Commission requires applicants seeking to participate in the program to submit certain information that shows the transaction qualifies for ECIP inclusion. The Commission found that the ECIP builds on Congressional goals in the MOBILE NOW Act to incentivize

beneficial transactions in the public interest that will promote greater competition in the provision of wireless services, facilitate increased availability of advanced wireless services in rural areas, facilitate new opportunities for small carriers and Tribal Nations to increase access to spectrum, and bring more advanced wireless service including 5G to underserved communities. Specifically, in the ECIP Report and Order, the Commission revised its rules to allow any covered geographic licenses in included services to be leased to eligible entities through a long-term leasing arrangement.

Specifically, in the ECIP Report and Order, the Commission revised its rules to allow any covered geographic licenses in included services to be leased to eligible entities through a long-term leasing arrangement, to designate a Qualifying Transaction identified in the application as seeking consideration under the ECIP. Two new questions are being added to the FCC Form 608 as a result. Respondents are required to indicate by yes or no answer whether the application is seeking consideration under ECIP. Respondents are also required to select the applicable ECIP prong to its Qualifying Transaction, pursuant to either § 1.60003 or § 1.60004.

Finally, a new Schedule J is being added to FCC Form 608 and will be used by Spectrum Manager Lessors (*i.e.*, the Licensee) to file either the Initial Operation Requirement Notifications (IORN) or the Final Operation Requirement Notifications (FORN), as required by 47 CFR 1.60004, 1.60006, on behalf of the Lessee.

The Commission now seeks approval for revisions to its currently approved collection of information under OMB Control Number 3060–1058 to permit the collection of the changes requested herein. We anticipate that these revisions will have minimal impact on the hourly burden to complete FCC Form 608. The Commission therefore seeks approval for a revision to its currently approved information collection on FCC Form 608 to revise FCC Form 608 accordingly.
