#### Application Details

*Permit Application: 2024–008*

1. *Applicant* Dr. Heather Lynch, Stony Brook University, IACS 163, Stony Brook, NY 11794

#### Activity for Which Permit Is Requested

Waste Management. The applicant seeks an Antarctic Conservation Act waste management permit for activities associated with penguin population surveys in the Western Antarctic Peninsula and the South Shetland Islands. The applicant proposes using battery-powered, quadrotor unmanned aerial vehicles (UAVs) to assist in the collection of imagery data for a multi-scale population census of penguin colonies. The UAV will only be flown by a pilot with extensive experience. Mitigation measures will be put in place to prevent loss of aircraft. These measures include UAVs being flown by a trained pilot in fair-weather conditions and having stationed observers maintain visual contact with the aircraft at all times. The applicant proposes various recovery methods in the unlikely event that an aircraft is lost over land or sea. These measures will limit any potential impacts on the Antarctic environment. The applicant seeks a waste permit to cover any accidental release that may result from UAV use.

#### Location

King George Island, South Shetland Islands; Western Antarctic Peninsula
