

U.S.C. App. 1804; DHS Delegation 00170.1, Revision No. 01.2, paragraph (II)(92)(a); § 175.900 also issued under 44 U.S.C. 3507.

■ 2. Add § 175.124 to read as follows:

§ 175.124 Requirements for DUKW Amphibious Passenger Vessels.

No later than January 9, 2024, all operators of a DUKW amphibious passenger vessel, as defined in 46 CFR 175.400, must:

(a) Modify the DUKW amphibious passenger vessel to either:

(1) Remove the canopies and any window coverings installed for waterborne operations, and require that all passengers wear a lifejacket approved by the Coast Guard, as described in part 180 of this subchapter, before the onset of waterborne operations of the DUKW amphibious passenger vessel; or

(2) Install a canopy that does not restrict horizontal or vertical escape by passengers in the event of flooding or sinking.

(b) Reengineer the DUKW amphibious passenger vessel to permanently close all unnecessary access plugs and reduce all through-hull penetrations to the minimum number and size necessary for the safe operation or maintenance of the DUKW amphibious passenger vessel.

(c) Install an independently powered electric bilge pump(s) with a minimum total pumping capacity of:

$$\text{GPM} = 3600 \times A \times \sqrt{H}$$

Where—

GPM = The minimum total pumping capacity in gallons per minute.

A = The area (in square feet) of the largest hull penetration below a line drawn parallel to and at least 6 inches (150 millimeters) above the deepest load waterline.

\sqrt{H} = The square root of the vertical distance in feet from the center of the penetration to the deepest load waterline.

(d) Install in the DUKW amphibious passenger vessel not fewer than 4 independently powered bilge alarms.

(e) Conduct an in-water inspection of the DUKW amphibious passenger vessel after each time a through-hull penetration of such vessel has been removed or uncovered.

(f) Verify through an in-water inspection the watertight integrity of the DUKW amphibious passenger vessel at the outset of each waterborne departure of such vessel.

(g) Install within the passenger compartment LED lights capable of operating underwater that activate automatically to aid with emergency egress.

■ 3. Amend § 175.400 by adding in alphabetical order a definition for

“DUKW amphibious passenger vessel” to read as follows:

§ 175.400 Definitions of terms used in this subchapter.

* * * * *

DUKW amphibious passenger vessel means a vessel that uses, modifies, or is derived from the GMC DUKW-353 design, and is operating as a small passenger vessel in waters subject to the jurisdiction of the United States, as defined in 33 CFR 2.38.

BILLING CODE 9110-04-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 622

[Docket Nos. 090206140-91081-03 and 120405260-4258-02; RTID 0648-XD338]

Revised Reporting Requirements Due to Catastrophic Conditions for Federal Seafood Dealers and Individual Fishing Quota Dealers in Portions of Florida

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; determination of catastrophic conditions.

SUMMARY: In accordance with the regulations implementing the individual fishing quota (IFQ) and Federal dealer reporting specific to the commercial reef fish fishery in the Gulf of Mexico (Gulf) and the coastal migratory pelagic (CMP) fisheries in the Gulf, the Regional Administrator (RA), Southeast Region, NMFS has determined that Hurricane Idalia has caused catastrophic conditions in the Gulf for certain Florida counties. This temporary rule authorizes any dealer in the affected area described in this temporary rule who does not have access to electronic reporting to delay reporting of trip tickets to NMFS and authorizes IFQ dealers within the affected area to use paper-based forms, if necessary, for basic required administrative functions, e.g., landing transactions. This temporary rule is intended to facilitate continuation of IFQ and dealer reporting operations during the period of catastrophic conditions.

DATES: The RA is authorizing Federal dealers and IFQ dealers in the affected area to use revised reporting methods from September 6, 2023, through October 6, 2023.

FOR FURTHER INFORMATION CONTACT: IFQ Customer Service, telephone: 866-425-7627, email: nmfs.ser.catchshare@noaa.gov. Federal dealer reporting, Fisheries Monitoring Branch, telephone: 305-361-4581.

SUPPLEMENTARY INFORMATION: The reef fish fishery of the Gulf is managed under the Fishery Management Plan (FMP) for Reef Fish Resources of the Gulf of Mexico (Reef Fish FMP), prepared by the Gulf of Mexico Fishery Management Council (Gulf Council). The CMP fishery is managed under the FMP for CMP Resources in the Gulf of Mexico and Atlantic Region (CMP FMP), prepared by the Gulf Council and South Atlantic Fishery Management Council. Both FMPs are implemented through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

The Generic Dealer Amendment established Federal dealer reporting requirements for federally permitted dealers in the Gulf and South Atlantic (79 FR 19490, April 9, 2014). Amendment 26 to the Reef Fish FMP established an IFQ program for the commercial red snapper component of the Gulf reef fish fishery (71 FR 67447, November 22, 2006). Amendment 29 to the Reef Fish FMP established an IFQ program for the commercial grouper and tilefish components of the Gulf reef fish fishery (74 FR 44732, August 31, 2009). Regulations implementing these dealer reporting requirements (50 CFR 622.5(c)) and IFQ programs (50 CFR 622.21 and 622.22) require that Federal dealers and IFQ participants have access to a computer and internet and that they conduct administrative functions associated with dealer reporting and the IFQ program, e.g., landing transactions, online. However, these regulations also specify that during catastrophic conditions, as determined by the RA, the RA may waive or modify the reporting time requirements for Federal dealers and authorize both Federal dealers and IFQ participants to use paper-based forms to complete administrative functions for the duration of the catastrophic conditions. The RA must determine that catastrophic conditions exist, specify the duration of the catastrophic conditions, and specify which participants or geographic areas are deemed affected.

Hurricane Idalia made landfall in the U.S. near Keaton Beach, Florida, in the Gulf as a Category 3 hurricane on August 30, 2023. Strong winds and flooding from this hurricane impacted communities throughout the Big Bend region of coastal Florida. This resulted in power outages and damage to homes, businesses, and infrastructure. As a result, the RA has determined that catastrophic conditions exist in the Gulf for the Florida counties of Levy, Dixie, Taylor, and Jefferson.

Through this temporary rule, the RA is authorizing Federal dealers to delay reporting of trip tickets to NMFS and IFQ participants in the affected area to use paper-based forms, from September 6, 2023, through October 6, 2023. NMFS will provide additional notification to affected dealers via NOAA Weather Radio, Fishery Bulletins, and other appropriate means. NMFS will continue to monitor and re-evaluate the areas and duration of the catastrophic conditions, as necessary.

Dealers may delay electronic reporting of trip tickets to NMFS during catastrophic conditions. Dealers are to report all landings to NMFS as soon as possible. Assistance for Federal dealers in affected area is available from the NMFS Fisheries Monitoring Branch at 1-305-361-4581. NMFS previously provided Federal dealers and IFQ participants with the necessary paper forms and instructions for submission in the event of catastrophic conditions. Paper forms are also available from the RA upon request. The electronic systems for submitting information to NMFS will continue to be available to

all dealers, and dealers in the affected area are encouraged to continue using these systems, if accessible.

The administrative program functions available to IFQ participants in the area affected by catastrophic conditions will be limited under the paper-based system. There will be no mechanism for transfers of IFQ shares or allocation under the paper-based system in effect during catastrophic conditions. Assistance in complying with the requirements of the paper-based system will be available via the NMFS Catch Share Support line, 1-866-425-7627 Monday through Friday, between 8 a.m. and 4:30 p.m., Eastern Time.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is consistent with the regulations in 50 CFR 622.5(c)(1)(iii), 622.21(a)(3)(iii), and 622.22(a)(3)(iii), which were issued pursuant to section 304(b) of the Magnuson-Stevens Act, and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment are unnecessary and contrary to the public interest. Such procedures are unnecessary because the final rules implementing the Gulf and Federal dealer reporting requirements and the Gulf IFQ programs, have already been subject to notice and public comment. These rules authorize the RA to determine when catastrophic conditions exist, and which participants or geographic areas are deemed affected by

catastrophic conditions. The final rules also authorize the RA to provide timely notice to affected participants via publication of notification in the **Federal Register**, NOAA Weather Radio, Fishery Bulletins, and other appropriate means. All that remains is to notify the public that catastrophic conditions exist, that Federal dealers and IFQ participants may use paper forms, and that Federal dealers may submit delayed reports. Such procedures are also contrary to the public interest because of the need to immediately implement this action because affected dealers continue to receive these species in the affected area and need a means of completing their landing transactions. With the power outages and damages to infrastructure that have occurred in the affected area due to Hurricane Idalia, numerous businesses are unable to complete landings transactions, fishing reports, and dealer reports electronically. In order to continue with their businesses, IFQ participants need to be aware they can report using the paper forms, and Federal dealers need to be aware that they can delay reporting.

For the aforementioned reasons, there is good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 6, 2023.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
