#### SUPPLEMENTARY INFORMATION:

##### Authority for This Rulemaking

The FAA's authority to issue rules  
regarding aviation safety is found in  
Title 49 of the United States Code.  
Subtitle I, Section 106 describes the  
authority of the FAA Administrator.  
Subtitle VII, Aviation Programs,  
describes in more detail the scope of the  
agency's authority. This rulemaking is  
promulgated under the authority  
described in Subtitle VII, Part A,  
Subpart I, Section 40103. Under that  
section, the FAA is charged with  
prescribing regulations to assign the use  
of airspace necessary to ensure the  
safety of aircraft and the efficient use of  
airspace. This regulation is within the  
scope of that authority as it would  
amend the Class E airspace extending  
upward from 700 feet above the surface  
at Mount Pleasant Municipal Airport,  
Mount Pleasant, MI, to support  
instrument flight rule (IFR) operations at  
this airport.

##### Comments Invited

The FAA invites interested persons to  
participate in this rulemaking by  
submitting written comments, data, or  
views. Comments are specifically  
invited on the overall regulatory,

aeronautical, economic, environmental,  
and energy-related aspects of the  
proposal. The most helpful comments  
reference a specific portion of the  
proposal, explain the reason for any  
recommended change, and include  
supporting data. To ensure the docket  
does not contain duplicate comments,  
commenters should submit only one  
time if comments are filed  
electronically, or commenters should  
send only one copy of written  
comments if comments are filed in  
writing.

The FAA will file in the docket all  
comments it receives, as well as a report  
summarizing each substantive public  
contact with FAA personnel concerning  
this proposed rulemaking. Before acting  
on this proposal, the FAA will consider  
all comments it received on or before  
the closing date for comments. The FAA  
will consider comments filed after the  
comment period has closed if it is  
possible to do so without incurring  
expense or delay. The FAA may change  
this proposal in light of the comments  
it receives.

*Privacy:* In accordance with 5 U.S.C.  
553(c), DOT solicits comments from the  
public to better inform its rulemaking  
process. DOT post these comments,  
without edit, including any personal  
information the commenter provides, to  
[www.regulations.gov](http://www.regulations.gov) as described in the  
system of records notice (DOT/ALL-  
14FDMS), which can be reviewed at

You may review the public docket  
containing the proposal, any comments  
received, and any final disposition in  
person in the Dockets Office (see the  
**ADDRESSES** section for the address,

##### Incorporation by Reference

Class E airspace is published in  
paragraph 6005 of FAA Order JO  
7400.11, Airspace Designations and  
Reporting Points, which is incorporated  
by reference in 14 CFR 71.1 on an

annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. These updates would be published subsequently in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### The Proposal

The FAA is proposing to amend 14 CFR part 71 by modifying the Class E airspace extending upward from 700 feet above the surface to within a 6.6-mile (decreased from a 7-mile) radius of Mount Pleasant Municipal Airport, Mount Pleasant, MI; and updating the geographic coordinates of airport to coincide with the FAA's aeronautical database.

This action is the result of an airspace review due to the decommissioning of the Mount Pleasant VOR, which provided navigation information to this airport, as part of the VOR MON Program, and to support IFR operations at this airport.

### Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

### List of Subjects in 14 CFR Part 71
