Notice of Proposed Supplementary Rule for Public Lands in Wyoming

AGENCY: Bureau of Land Management, Interior.

ADDRESSES: You may submit comments by the following methods: Mail or hand deliver to Deborah Sullivan, State Chief Ranger, BLM Wyoming State Office, 5353 Yellowstone Rd., Cheyenne, WY 82009. SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

Written comments on the proposed supplementary rule should be specific, be confined to issues pertinent to the proposed supplementary rule, and explain the reason for any recommended change. Where possible, comments should reference the specific section or paragraph of the proposed supplementary rule that the comment is addressing. The BLM is not obligated to consider or include in the Administrative Record for the final supplementary rule comments the BLM receives after the close of the comment period (see **DATES**) unless they are postmarked or electronically dated before the deadline, or comments

delivered to an address other than one of the addresses listed above (see **ADDRESSES**).

Comments, including names, street addresses, and other contact information of respondents, will be available for public review at the address listed above, during regular business hours (7:30 a.m. to 4:30 p.m., Monday through Friday, except on Federal holidays). Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee we will be able to do so.

II. Background

BLM state offices have issued various statewide supplementary rules to protect natural resources and provide for public health and safety. Individual BLM field offices have also issued various supplementary rules for travel management, protection of natural resources, and public health and safety.

III. Discussion of the Proposed Supplementary Rule

This proposed supplementary rule would apply to all public lands in Wyoming. Proposed supplementary rule numbers 1 and 2 address general public conduct on public lands. Proposed supplementary rule numbers 3 through 7 address resource damage and public safety concerns involving the use of exploding targets, flammable devices, and target shooting. Proposed supplementary rule numbers 8 and 9 address the possession or use of alcohol on public lands. Proposed supplementary rule number 10 addresses the possession of drug paraphernalia in violation of state law. Proposed supplementary rule number 11 requires trailers on public land to have current registration. Proposed supplementary rule number 12 adopts Wyoming Revised Statutes regarding hunting, fishing, boating, and outfitters. Proposed supplementary rule number 13 further clarifies existing Federal regulations found in 43 CFR 9264.1(h) relating to vehicles, game animals, boating, and river outfitters.

Proposed supplementary rule number 14 addresses the burning of wood pallets containing nails or staples on public land. Campsites in popular areas on public land are used repeatedly throughout the spring, summer, and fall.

As use increases, the availability of firewood decreases, leading more campers to bring construction debris or wood pallets with nails or staples in them to use as firewood. The nails and staples end up in campfire ash left at the campsite. In an effort to return campsites to a more primitive condition, many campers scatter ashes and rock rings before leaving their campsite. The nails or staples end up on the ground surface, causing flat tires. Proposed supplementary rule number 14 would reduce the risk of tire damage from discarded nails and staples in popular camping areas.

Proposed supplementary rule numbers 15 and 16 address impacts to wild horses from increased visitation, photography, and tours within their natural habitat. Wild horses can lose their wariness of humans due to acclimation with, close proximity to, and feeding by humans; this results in an increased likelihood of injury to a visitor or to a wild horse.

The proposed supplementary rule is in conformance with the following resource management plans (RMPs), as amended:

- Rock Springs RMP (“Green River RMP”) (1997)
- Newcastle Field Office RMP (2000)
- Casper Field Office RMP (2007)
- Pinedale Field Office RMP (2008)
- Snake River RMP (2004)
- Rawlins Field Office RMP (2008)
- Kemmerer Field Office RMP (2010)
- Lander Field Office RMP (2014)
- Buffalo Field Office RMP (2015)
- Bighorn Basin RMP—Cody Field Office (2015)
- Bighorn Basin RMP—Worland Field Office (2015)

IV. Procedural Matters

Executive Order 12866, Regulatory Planning and Review

The proposed supplementary rule is not a significant regulatory action and is not subject to review by the Office of Management and Budget under Executive Order (E.O.) 12866, as amended by E.O. 14094. It does not have an annual effect of \$200 million or more on the economy. It does not adversely affect, in a material way, the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or Tribal governments or communities. It does not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency. It does not materially alter the budgetary effects of entitlements, grants, user fees, loan programs, or the rights or obligations of their recipients, nor does it raise novel

legal or policy issues. The proposed supplementary rule merely establishes conduct for public use of a limited area of public lands.

National Environmental Policy Act (NEPA)

The BLM has found that the proposed supplementary rule comprises a category or kind of action that has no significant individual or cumulative effect on the quality of the human environment. See 40 CFR 1508.4; 43 CFR 26.210. Specifically, the promulgation of the proposed supplementary rule—which prohibits violating existing state laws or engaging in activities that fall within 43 CFR 8365.1–4’s general prohibition on creating a hazard or nuisance—is an action that is of an administrative, financial, legal, technical, or procedural nature within the meaning of 43 CFR 26.210(i), and none of the extraordinary circumstances listed at 43 CFR 26.215 are applicable.

Regulatory Flexibility Act

Congress enacted the Regulatory Flexibility Act of 1980 (RFA), as amended, 5 U.S.C. 601–612, to ensure that government regulations do not unnecessarily or disproportionately burden small entities. The RFA requires a regulatory flexibility analysis if a rule would have a significant economic impact, either detrimental or beneficial, on a substantial number of small entities. This proposed supplementary rule merely establishes conduct for public use of a limited area of public lands. Therefore, the BLM has determined under the RFA that the proposed supplementary rule would not have a significant economic impact on a substantial number of small entities.

Small Business Regulatory Enforcement Fairness Act

The proposed supplementary rule is not considered a ‘major rule’ as defined under 5 U.S.C. 804(2). The proposed supplementary rule merely establishes conduct for public use of a limited area of public lands and does not affect commercial or business activities of any kind.

Unfunded Mandates Reform Act

The proposed supplementary rule will not impose an unfunded mandate on State, local, or Tribal governments in the aggregate, or the private sector, of more than \$100 million per year, nor will it have a significant or unique effect on small governments. The proposed supplementary rule will have no effect on governmental or Tribal entities and will impose no requirements on any of

these entities. The proposed supplementary rule merely establishes conduct for public use of a limited area of public lands and does not affect Tribal, commercial, or business activities of any kind. Therefore, the BLM is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*).

Executive Order 12630, Governmental Actions and Interference With Constitutionally Protected Property Rights (Takings)

The proposed supplementary rule is not a government action capable of interfering with constitutionally protected property rights. The proposed supplementary rule does not address property rights in any form and would not cause the impairment of constitutionally protected property rights. Therefore, the BLM has determined that the proposed supplementary rule will not cause a “taking” of private property or require further discussion of takings implications under this Executive order.

Executive Order 13132, Federalism

The proposed supplementary rule would not have a substantial direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 13132, the BLM has determined that this proposed supplementary rule will not have sufficient federalism implications to warrant preparation of a Federalism Assessment.

Executive Order 12988, Civil Justice Reform

Under Executive Order 12988, the BLM has determined that this proposed supplementary rule will not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of Executive Order 12988.

Executive Order 13175, Consultation and Coordination With Indian Tribal Governments

In accordance with Executive Order 13175, the BLM has found that this proposed supplementary rule does not include policies that have Tribal implications and would have no bearing on trust lands, lands for which title is held in fee status by Indian Tribes, or U.S. Government-owned lands managed by the Bureau of Indian Affairs.

Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

This proposed supplementary rule does not constitute a significant energy action. This proposed supplementary rule would not have an adverse effect on energy supply, production, or consumption and has no connection with energy policy.

Executive Order 13352, Facilitation of Cooperative Conservation

In accordance with Executive Order 13352, the BLM has determined that the proposed supplementary rule would not impede facilitating cooperative conservation; would take appropriate account of and consider the interests of persons with ownership or other legally recognized interests in land or other natural resources; would properly accommodate local participation in the Federal decision-making process; and would provide that the programs, projects, and activities are consistent with protecting public health and safety.

Paperwork Reduction Act

This proposed supplementary rule does not contain information collection requirements that the Office of Management and Budget must approve under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501–3521.

Author

The principal author of this proposed supplementary rule is Deborah Sullivan, State Chief Ranger, BLM Wyoming State Office.
