**SUPPLEMENTARY INFORMATION:****I. Background**

This notice is in accordance with the Privacy Act requirement that agencies publish their systems of records in the **Federal Register** when there is a revision, change, or addition, or when the agency establishes a new system of records.

The Postal Service is proposing to modify the following SORs to implement a platform to manage APIs:

- USPS SOR 550.200 Commercial Information Technology Resources—Administrative
- USPS SOR 830.000 Customer Service and Correspondence

**II. Rationale for Changes to USPS Privacy Act Systems of Records**

Versatility and manageability are integral components of an organization's technology infrastructure. Application Programming Interfaces (APIs) allow applications to coordinate, send, and process data between otherwise disparate applications. The Postal Service utilizes a variety of these APIs for numerous reasons; however, the number and deployability of these APIs within the Postal Service's technology ecosystem can prove onerous. To that end, the Postal Service intends to implement an API manager for a limited scope. The scope of this new application will manage APIs connected or associated with an existing customer relationship management application.

To achieve this effort, the systems of records will be revised as follows:

- USPS SOR 550.200 Commercial Information Technology Resources—Administrative will be revised to modify one existing category of records,

and will add fifteen new categories of records to reflect the auditing and tracking capabilities of users of the API manager.

- USPS SOR 830.000 Customer Service and Correspondence will be revised with one new purpose to allow the transmission of data to the API manager and to the ultimate destination of that customer data.

**III. Description of the Modified System of Records**

Pursuant to 5 U.S.C. 552a (e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the proposed revisions has been sent to Congress and to the Office of Management and Budget for their evaluations. The Postal Service does not expect these amended systems of records to have any adverse effect on individual privacy rights.
