SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Parks and Recreation Comment System (PARCS); OMB Control Number 0710–PARC.

Needs and Uses: The Parks and Recreation Comment System (PARCS) is intended to be a supplemental instrument to the mandatory customer comment cards which can be utilized not only during the optional years but would be available anytime the public would like to submit comments, questions, or concerns about the conditions at the project. PARCS is an online tool unlike the current comment cards and would reduce the use of printed materials. Rather than seeking to gauge overall visitor satisfaction, this tool is intended to collect impromptu feedback from visitors with a limited scope. Each response is expected to relate to one specific issue, essentially supplementing other issue reporting methods such as phone calls and emails. In response to Executive Order 12862, Setting Customer Service Standards, issued on 11 September 1993, the Corps of Engineers initiated development of a comment card program for monitoring visitor satisfaction at Corps of Engineers lakes and projects. E.O. 12862 asks agencies to establish customer service standards and “survey customers to determine . . . their level of satisfaction with existing services.” This enterprise program allows for the uniform collection of customer feedback from visitors to USACE parks and visitor centers. In 2005, the program was expanded to obtain consistent information across water resources projects with public recreation areas requiring mandatory utilization by projects in a 3-year cycle beginning in 2010.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Assessing the Implementation and Effectiveness of DOD's Lethal Means Safety (LMS) Outreach Materials; OMB Control Number 0704-ALOM.

Needs and Uses: The Deputy Secretary of Defense recently directed implementation of Service/Component tailored lethal means safety (LMS) plans, which leverage the Defense Suicide Prevention Office's (DSPO's) LMS suite of evidence-informed tools. In accordance with guidance, and with recommendations from the Government Accountability Office to assess the efficacy of nonclinical suicide prevention efforts, DSPO aims to help the Services and Components conduct a thorough evaluation of their LMS outreach efforts.

DSPO has contracted with CNA to assist the Services and Components in meeting the requirements set forth in DOD Instruction 6490.16 that all suicide prevention activities are developed from a relevant evidence-base and have an evaluation capability prior to implementation. CNA, in conjunction with the participating Services and Components (*i.e.*, Air Force, Army, Navy, and SOCOM), propose the following information collections focused on specific to the needs of each respective Service/Component to assess the implementation, acceptability, and/or effect of their specific LMS activities and materials. Depending on the nature of the selected evaluation activities, study data will be collected via key informant (KI) interviews and/or a survey.

Air Force: The intent of the voluntary Air Force Time-Based Prevention (TBP) KI Interviews is to help the Air Force gain a better understanding of the implementation and utility of the Air Force's TBP communications and messaging, as well as barriers to implementation.

Army: The intent of voluntary Army LMS Toolkit Key Personnel Baseline and Follow-up Interviews is to consult with key Army personnel to gain a better understanding of the

implementation and utility of the Army's new LMS Toolkit.

Navy: The intent of voluntary Navy Gun Lock Distribution KI interviews is to help the Navy evaluate their gun lock distribution efforts and learn how the Navy may improve its safe storage practice materials, outreach, and implementation efforts.

Navy: The intent of the voluntary Navy Community Lethal Means Safety Survey is to learn about the Navy community's awareness of current lethal means safety programs, preferences for safety devices and safe storage locations, and thoughts about the place of safety in Navy culture.

SOCOM: The intent of the voluntary SOCOM LMS Integrated Performance Plan (IPP) KI Interviews is to help SOCOM gain a better understanding of the implementation and utility of SOCOM's LMS IPP and learn how the SOCOM Suicide Prevention program may improve its LMS materials, outreach, and implementation efforts.

The Services and Components will use the results of their respective voluntary KI interviews and/or survey to tailor their LMS activities, materials, messaging, training, and outreach efforts to maximize their effectiveness with their Service members and communities.

Affected Public: Individuals or households.
