Self-Regulatory Organizations; Cboe EDGA Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

September 12, 2023.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”)² and Rule 19b–4 thereunder,³ notice is hereby given that, on August 31, 2023, Cboe EDGA Exchange, Inc. (the “Exchange” or “EDGA”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform ("EDGA Equities") by modifying the rates associated with certain fee codes. The Exchange proposes to implement these changes effective September 1, 2023.

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 registered equities exchanges, as well as a number of alternative trading systems and other off-exchange venues that do not have similar self-regulatory responsibilities under the Securities Exchange Act of 1934 (the "Act"), to which market participants may direct their order flow. Based on publicly available information,⁴ no single registered equities exchange has more than 14% of the market share. Thus, in such a low-concentrated and highly competitive market, no single equities exchange possesses significant pricing power in the execution of order flow. The Exchange in particular operates a "Taker-Maker" model whereby it pays credits to members that remove liquidity and assesses fees to those that add liquidity. The Exchange's Fee Schedule sets forth the standard rebates and rates applied per share for orders that remove and provide liquidity, respectively. Currently, for orders in securities priced at or above \$1.00, the Exchange provides a standard rebate of \$0.00180 [sic] per share for orders that remove liquidity and assesses a fee of \$0.0030 per share for orders that add liquidity.⁵ For orders in securities priced below \$1.00, the Exchange does not assess any fees or provide any

rebates for orders that add or remove liquidity.⁶ Additionally, in response to the competitive environment, the Exchange also offers tiered pricing which provides Members opportunities to qualify for higher rebates or reduced fees where certain volume criteria and thresholds are met. Tiered pricing provides an incremental incentive for Members to strive for higher tier levels, which provides increasingly higher benefits or discounts for satisfying increasingly more stringent criteria.

The Exchange currently offers various fee codes for orders routed away from the Exchange. The Exchange is proposing to modify the routing fees associated with fee codes I,⁷ P,⁸ BY,⁹ RR,¹⁰ AX,¹¹ AY,¹² RY,¹³ and RZ¹⁴ to match the base add or remove rate for the associated market center to which the order is routed. The fees associated with fee codes I, RR, and AX will be revised to \$0.0030 per share in securities priced above \$1.00.¹⁵ The fee associated with fee code RY will be revised to \$0.0020 per share in securities priced above \$1.00.¹⁶ The rebates associated with fee codes P and RZ will be revised to \$0.00160 per share in securities priced above \$1.00.¹⁷ The rebates associated with fee codes BY and AY will be revised to \$0.00020 per share in securities priced above \$1.00.¹⁸ There are no changes to the fees or rebates associated with securities priced below \$1.00.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of

⁶ *Id.*

⁷ Fee code I is appended to orders routed to EDGX.

⁸ Fee code P is appended to orders routed to EDGX, including pre and post market, that add liquidity.

⁹ Fee code BY is appended to orders routed to BYX using Destination Specific ("DIRC"), ROUC, ROBB or ROCC routing strategy.

¹⁰ Fee code RR is appended to orders routed to EDGX using DIRC routing strategy.

¹¹ Fee code AX is appended to orders routed to EDGX using ALLB routing strategy.

¹² Fee code AY is appended to orders routed to BYX using ALLB routing strategy.

¹³ Fee code RY is appended to orders routed to BYX that add liquidity.

¹⁴ Fee code RZ is appended to orders routed to BZX that add liquidity.

Section 6(b) of the Act.¹⁹ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)²⁰ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)²¹ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers as well as Section 6(b)(4)²² as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities.

As described above, the Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. The Exchange believes its proposed changes to the routing fee codes are reasonable as these changes do not represent a significant departure from the Exchange's general pricing structure. Specifically, the proposed changes to fee codes I, P, BY, RR, AX, AY, RY, and RZ are intended to match the base add or remove rates on the Exchange's affiliates.²³ The Exchange also believes that the proposal represents an equitable allocation of fees and rebates and is not unfairly discriminatory because all Members will be eligible to receive the revised fees or rebates associated with fee codes I, P, BY, RR, AX, AY, RY, and RZ.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Rather, as discussed above, the Exchange believes that the proposed changes would encourage the submission of additional

order flow to a public exchange, thereby promoting market depth, execution incentives and enhanced execution opportunities, as well as price discovery and transparency for all Members. As a result, the Exchange believes that the proposed changes further the Commission's goal in adopting Regulation NMS of fostering competition among orders, which promotes "more efficient pricing of individual stocks for all types of orders, large and small."

The Exchange believes the proposed rule changes do not impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed fees and rebates associated with fee codes I, P, BY, RR, AX, AY, RY, and RZ will apply to all Members equally in that all Members would be subject to the same base fee or rebate when routing an order away from the Exchange to the venues identified by the relevant fee code. All fee codes are available to all Members on an equal and non-discriminatory basis. As a result, any Member can decide to use (or not use) the Exchange's routing functionality as part of their decision to submit order flow to the Exchange.

Next, the Exchange believes the proposed rule changes does not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market. Members have numerous alternative venues that they may participate on and direct their order flow, including other equities exchanges, off-exchange venues, and alternative trading systems. Additionally, the Exchange represents a small percentage of the overall market. Based on publicly available information, no single equities exchange has more than 14% of the market share.²⁴ Therefore, no exchange possesses significant pricing power in the execution of order flow. Indeed, participants can readily choose to send their orders to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system "has

been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies."²⁵ The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: "[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers' . . .".²⁶ Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act²⁷ and paragraph (f) of Rule 19b-4²⁸ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing,

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98363; File No. SR–PEARL–2023–43]

Self-Regulatory Organizations; MIAX PEARL, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the Fee Schedule

September 12, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”)¹ and Rule 19b–4 thereunder,² notice is hereby given that, on September 6, 2023, MIAX PEARL, LLC (“MIAX Pearl” or “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Pearl Options Fee Schedule (“Fee Schedule”).

The text of the proposed rule change is available on the Exchange’s website at <https://www.miaxglobal.com/markets/us-options/pearl-options/rule-filings> at

MIAX Pearl’s principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the exchange grouping of options exchanges within the routing fee table in Section 1)b) of the Fee Schedule, Fees for Customer Orders Routed to Another Options Exchange, to add applicable Member³ orders routed to MEMX LLC (“MEMX”), in anticipation of the launch of MEMX Options, the new options trading facility of MEMX.⁴ The Exchange originally filed this proposal on August 31, 2023 (SR–PEARL–2023–40). On September 6, 2023, the Exchange withdrew SR–PEARL–2023–40 and refiled this proposal. The proposed changes are immediately effective.

Currently, the Exchange assesses routing fees based upon (i) the origin type of the order; (ii) whether or not it is an order for standard option classes in the Penny Interval Program⁵ (“Penny

classes”) or an order for standard option classes which are not in the Penny Interval Program (“Non-Penny classes”) (or other explicitly identified classes); and (iii) to which away market it is being routed. This assessment practice is identical to the routing fees assessment practice currently utilized by the Exchange’s affiliates, Miami International Securities Exchange, LLC (“MIAX Options”) and MIAX Emerald, LLC (“MIAX Emerald”). This is also similar to the methodology utilized by the Cboe BZX Exchange, Inc. (“Cboe BZX Options”), a competing options exchange, in assessing routing fees. Cboe BZX Options has exchange groupings in its fee schedule, similar to those of the Exchange, whereby several exchanges are grouped into the same category, dependent upon the order’s origin type and whether it is a Penny or Non-Penny class.⁶

As a result of the anticipated launch of the options trading facility of MEMX in the third quarter of 2023, the Exchange has determined to amend the exchange groupings of options exchanges within the routing fee table to include MEMX and the anticipated associated costs of routing customer orders to MEMX for execution.

The impact of this proposed change will be increased routing options for Members. The Exchange notes that routing through the Exchange is optional and that Members will continue to be able to choose where to route applicable Member orders. Under this proposed change, the Exchange will not amend the fees associated with the exchange groupings. This proposal merely seeks to add MEMX to the exchange groupings as described in the routing fee table below.

Accordingly, with the proposed change, the routing fee table will be as follows:

Description	Fees
Routed, Priority Customer, Penny Program, to: NYSE American, BOX, Cboe, Cboe EDGX Options, MIAX, Nasdaq PHLX (except SPY)	\$0.15
Routed, Priority Customer, Penny Program, to: Nasdaq MRX	0.30
Routed, Priority Customer, Penny Program, to: NYSE Arca Options, Cboe BZX Options, Cboe C2, Nasdaq GEMX, Nasdaq ISE, NOM, Nasdaq PHLX (SPY only), MIAX Emerald, Nasdaq BX Options, MEMX	0.65
Routed, Priority Customer, Non-Penny Program, to: NYSE American, BOX, Cboe, Cboe EDGX Options, Nasdaq ISE, MIAX, Nasdaq PHLX	0.15
Routed, Priority Customer, Non-Penny Program, to: Nasdaq MRX	0.50
Routed, Priority Customer, Non-Penny Program, to: NYSE Arca Options, Cboe BZX Options, Cboe C2, Nasdaq GEMX, NOM, MIAX Emerald, Nasdaq BX Options, MEMX	1.00
