

origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

To achieve this purpose, each Federal department and agency which provides financial assistance for any program or activity is authorized and directed by the Department of Justice (DOJ) to effectuate provisions of Title VI for each program or activity by issuing generally applicable regulations or requirements. The Department of Transportation (DOT) has issued its regulations implementing this DOJ mandate.

In this regard, the responsibility of the FTA is to ensure that federally supported transit services and benefits are distributed by applicants, recipients, and subrecipients of FTA assistance in a manner consistent with Title VI. The employment practices of a grant applicant, recipient, or sub-recipient are also covered under Title VI if the primary purpose of the FTA-supported program is to provide employment or if those employment practices would result in discrimination against beneficiaries of FTA-assisted services and benefits.

FTA policies and requirements are designed to clarify and strengthen Title VI (service equity) procedures for FTA grant recipients by requiring submission of written plans and approval of such plans by the agency. All project sponsors receiving financial assistance pursuant to an FTA-funded project shall not discriminate in the provision of services because of race, color, or national origin. Experience has demonstrated that a program requirement at the application stage is necessary to assure that benefits and services are equitably distributed by grant recipients. The requirements prescribed by the Office of Civil Rights are designed to accomplish this objective and diminish possible vestiges of discrimination among FTA grant recipients. FTA's assessment of the requirements indicated that the formulation and implementation of the Title VI Program should occur with a decrease in costs to such applicants and recipients.

Respondents: Transit agencies, States, and metropolitan planning organizations

Estimated Annual Burden on Respondents: 284 (45 hours for each of the 100 more specific Title VI Program submissions; 1 hour for each of the 183 general Title VI Program submissions).

Estimated Total Annual Burden: 4,684 hours.

Frequency: Annual.

Title: Pre-Award, Post Delivery Audit Requirements Under Buy America.

OMB Number: 2132-0544.

Background: Federal Transit Laws, 49 U.S.C. 5323(j) and (m), require that recipients of Federal Transit Administration (FTA) funding comply with certain requirements, including Buy America, maintain on file certifications of compliance by the bidder or offeror, and certify compliance at the pre-award and post-delivery stages of the procurement process for rolling stock purchases under 49 CFR part 663.

Bidders or offerors must submit certificates to assure compliance with Buy America, the purchaser's contract specifications (for rolling stock only), and Federal motor vehicle safety requirements (for rolling stock only). The information collected on the

certification forms is necessary for FTA recipients to meet the requirements of 49 U.S.C. 5323(j) and (m). In addition, FTA recipients are required to certify, as part of their annual Certifications and Assurances, that they will comply with pre-award and post-delivery audit requirements for rolling stock under 49 CFR part 663.

Respondents: FTA recipients, including State and local government, and businesses or other for-profit organizations.

Estimated Annual Burden on Respondents: (1) approximately 2.16 hours for each of the estimated 700 procurements by FTA recipients and businesses or other for-profit organizations to certify compliance (or 1,512 hours), (2) approximately .16 hours for each of the estimated 700 procurements for recordkeeping by FTA recipients (or 112 hours), and (3) 1.66 hours for each of the estimated 700 procurements for review by FTA recipients (or 1,162 hours).

Estimated Total Annual Burden: 2,786 hours.

Frequency: Annual.

Title: Metropolitan and Statewide and Nonmetropolitan Transportation Planning.

OMB Number: 2132-0529.

Background: The FTA and Federal Highway Administration (FHWA) jointly carry out the Federal mandate to improve urban and rural transportation. 49 U.S.C. 5303 and 5304 and 23 U.S.C. 134 and 135 authorize the use of Federal funds to assist Metropolitan Planning Organizations (MPOs), States, and local public bodies in developing transportation plans and programs to serve the transportation needs of urbanized areas over 50,000 in population and other areas of States outside of urbanized areas. The program provides funding and procedural requirements for multimodal transportation planning in metropolitan areas and States. Planning needs to be cooperative, continuous, and comprehensive, resulting in long-range plans and short-range programs reflecting transportation investment priorities. Eligible respondents include State Departments of Transportation (DOTs) and Metropolitan Planning Organizations (MPOs). Federal planning funds are first apportioned to State DOTs. State DOTs then allocate planning funding to MPOs. Funds are available for planning activities that (A) support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency; (B) increase the safety of the transportation system for motorized and nonmotorized users; (C) increase the security of the transportation system for motorized and nonmotorized users; (D) increase the accessibility and mobility of people and for freight; (E) protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth, housing, and economic development patterns; (F) enhance the integration and connectivity of the transportation system, across and between modes, for people and freight; (G) promote efficient system management and operation; (H) emphasize the preservation of the existing transportation system; and (I) improve the resiliency and reliability of the transportation system. Funds are apportioned to States by a formula that includes each State's urbanized area population in proportion to the total urbanized area population for the
