RIN 2700–AE71

Federal Acquisition Regulation Supplement: Revision of the Definition of “Commercial Item” (NFS Case 2022–N003)

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: National Aeronautics and Space Administration (NASA) is issuing a final rule amending the NASA Federal Acquisition Regulation Supplement (NFS) to conform to changes in the Federal Acquisition Regulation (FAR) that reflect an updated “commercial item” definition pursuant to a section of the John S. McCain National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2019 (Pub. L. 115–232).

DATES: *Effective:* October 19, 2023.

FOR FURTHER INFORMATION CONTACT: Andrew O'Rourke, NASA HQs, Office of Procurement Management and Policy Division, LP–011, 300 E Street SW, Washington, DC 20456–0001. Telephone 202–358–4560; facsimile 202–358–3082.

SUPPLEMENTARY INFORMATION:

I. Background

This final rule amends the NASA FAR Supplement (NFS) to change instances of “commercial item(s)” with commercial product(s), commercial services(s), or both commercial product(s) and commercial service(s) to match similar actions taken in the Federal Acquisition Regulation (FAR). FAR Case 2018–018 was published as a final rule at 86 FR 61017 on November

4, 2021, to implement section 836 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115–232) to separate the definition of “commercial item” into the definitions of “commercial product” and “commercial service.”

It is important to note that the amendment to separate “commercial item” with “commercial product” and “commercial service” does not expand or shrink the universe of products or services that the Government may procure using NFS part 1812, nor does it change the terms and conditions vendors must comply with.

This rule does not add any new solicitation provisions or contract clauses. This rule merely replaces the term “commercial item(s)” with “commercial product(s),” “commercial service(s),” “commercial product(s) or commercial service(s),” or “commercial product(s) and commercial service(s)” in the NFS including in part 1852, as appropriate. It does not add any new burdens because the case does not add or change any requirements with which vendors must comply.

II. Publication of This Final Rule for Public Comment Is Not Required by Statute

“Publication of proposed regulations”, 41 U.S.C. 1707, is the statute which applies to the publication of the Federal Acquisition Regulation. Paragraph (a)(1) of the statute requires that a procurement policy, regulation, procedure or form (including an amendment or modification thereof) must be published for public comment if it relates to the expenditure of appropriated funds, and has either a significant effect beyond the internal operating procedures of the agency issuing the policy, regulation, procedure or form, or has a significant cost or administrative impact on contractors or offerors. This final rule is not required to be published for public comment, because NASA is not issuing a new regulation; rather, this rule is merely an editorial change and will provide consistent language to the FAR (pursuant to section 836 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115–232)) throughout the NFS. The rule does not expand or shrink the universe of products or services that the Government may procure using NFS part 1812, nor does it change the terms and conditions vendors must comply with. These requirements affect only the internal operating procedures of the Government.
