Title: Commercial Air Tour Operator Reports.

Form Numbers: There are no FAA forms associated with this collection of information.

Type of Review: Renewal of an information collection.

Background: The FAA Modernization and Reform Act of 2012 included amendments to the National Parks Air Tour Management Act (NPATMA) of 2000, which applies to commercial air tour operators who conduct tours over or within a half mile of a national park unit. One of these amendments requires commercial air tour operators conducting tours over national park units to provide the FAA and National Park Service with certain information on these operations. The information collected includes the date and time of day of the tour operation, the make and model of aircraft the tour was taken in, and the name of tour route flown. The information allows the agencies to track air tour activity over national park units and provides background information that the agencies can utilize when developing an air tour management plan or voluntary agreement for a national park unit. Respondents are the commercial air tour operators currently authorized to conduct tours over national parks. Operators provide the information on a reporting template and either email it or mail it in to the agencies.

Respondents: 48 commercial air tour operators nationwide.

Frequency: Information is collected semi-annually (twice a year), or annually for park units with 50 or fewer tours per year.

Estimated Average Burden per Response: 11.83 hours.

Estimated Total Annual Burden: 1,136 hours.
