**SUPPLEMENTARY INFORMATION:****Departmental Offices (DO)**

*Title:* Coronavirus Capital Projects Fund.

*OMB Control Number:* 1505-0277.

*Type of Review:* Revision of a currently approved collection.

*Description:* Section 604 of the Social Security Act (the "Act"), as added by section 9901 of the American Rescue Plan Act of 2021, Public Law 117-2 (Mar. 11, 2021) established the Coronavirus Capital Projects Fund ("CPF"). The CPF provides \$10 billion in funding for the U.S. Department of the Treasury ("Treasury") to make payments according to a statutory formula to States (defined to include each of the 50 States, the District of Columbia, and Puerto Rico), seven Territories and freely associated states (the United States Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau), and Tribal governments<sup>1</sup> to carry out critical capital projects directly enabling work, education, and health monitoring, including remote options, in response to

<sup>1</sup> An eligible Tribal government is the recognized governing body of any Indian or Alaska Native tribe, band, nation, pueblo, village, community, component band, or component reservation, individually identified (including parenthetically) in the list published most recently as of the date of enactment of this Act pursuant to section 104 of the Federally Recognized Indian Tribe List Act of 1994 (25 U.S.C. 5131). The State of Hawaii, for exclusive use of the Department of Hawaiian Home Lands and the Native Hawaiian Education Programs to assist Native Hawaiians, is also eligible to apply for funding under this funding category.

the public health emergency with respect to the Coronavirus Disease (COVID–19).

The current information collection is being used to solicit information related to:

- Annual performance reports submitted by CPF recipients that are States, Territories, or freely associated states. This report is being renewed without changes;
- Quarterly project and expenditure reports submitted by CPF recipients that are States, Territories, or freely associated states. The requirements for this report are being amended as described below; and
- Annual project and expenditure reports submitted by CPF recipients that are Tribal governments. The requirements for this report are being amended as described below.

The Compliance and Reporting Guidance for States, Territories, and Freely Associated States, and the Compliance and Reporting Guidance for Tribal Governments provide recipients with information needed to fulfill their reporting requirements and compliance obligations. Data is submitted to Treasury using a web-based portal and in accordance with specific data requirements.

Project and expenditure reports must be submitted quarterly for the duration of the period of performance for States, Territories, and freely associated states, and annually for the duration of the period of performance for Tribal governments. The project and expenditure report contains a set of standardized questions to ascertain the recipient's use of funds received as of the date of reporting, as well as the status of individual projects. Treasury will make the data submitted by recipients publicly available.

Performance reports must be submitted annually for recipients that are States, Territories, and freely associated states for the duration of the period of performance. These performance reports contain detailed performance data corresponding to the "Programs" specified previously in a recipient's Grant Plan. This will include information on efforts to improve equity and engage communities. The performance report is largely freely written text, and while there are certain data and topics that recipients must cover in the performance report, it is mostly free-form written content. Recipients are required to publish the performance report on their website and provide the reports to Treasury.

**Proposed Changes:** On June 2, 2023, Treasury received approval for a revision to this information collection

on an emergency processing basis. Treasury presently seeks non-emergency approval for the same revision in accordance with normal PRA clearance procedures. The revision is to add two new fields for recipients to report on Federal Communications Commission (FCC) identifiers in order to uniquely identify the precise location of CPF funded broadband projects. The revision is the same for States, Territories, Freely Associated States, and Tribal recipients. Treasury expects that recipients have these FCC identifiers on-hand, and the estimated burden remains unchanged.

1. **Provider ID.** The Provider ID is the identifier that the FCC assigns to every internet Service Provider (ISP). Any entity undertaking a broadband infrastructure project already has this number.

2. **Fabric ID.** The Fabric ID is assigned to every "broadband serviceable location" in the "fabric", a database of all serviceable locations. For example, an apartment building which is broadband serviceable will have a unique Fabric ID assigned by the FCC. CPF recipients who are completing broadband projects are required to provide the Fabric IDs for the locations that they are serving.

**Background Justifying the Changes.** Section 60105 of the Infrastructure Investment and Jobs Act (Pub. L. 117–58) required the FCC to establish an online mapping tool with broadband locations funded by Federal agencies. As a result, CPF reporting guidance has been updated.

**Form:** Compliance and Reporting Guidance for States, Territories, and Freely Associated States; Compliance and Reporting Guidance for Tribal Governments.

**Affected Public:** State, Territorial, Freely Associated State, and Tribal governments receiving CPF grant funds.

**Estimated Number of Respondents:** 609.

**Frequency of Response:** States, Territories, and freely associated states: 4 times per year for project and expenditure reports, and 1 time per year for performance reports; Tribal governments: 1 time per year.

**Estimated Total Number of Annual Responses:** 845.

**Estimated Time per Response:** 62 hours for State project and expenditure reports. 80 hours for State performance reports. 50 hours for Tribal annual reports.

**Estimated Total Annual Burden Hours:** 30,352.

**Request for Comments:** Comments submitted in response to this notice will be summarized and included in the request for Office of Management and

Budget approval. All comments will become a matter of public record. Comments are invited on: (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services required to provide information.
