SUPPLEMENTARY INFORMATION: ACHDNC provides advice and recommendations to the Secretary of Health and Human Services (Secretary) on the development of newborn screening activities, technologies, policies, guidelines, and programs for effectively reducing morbidity and mortality in newborns and children having, or at risk for, heritable disorders. ACHDNC reviews and reports regularly on newborn and childhood screening practices, recommends improvements in the national newborn and childhood screening programs, and fulfills requirements stated in the authorizing legislation. In addition, ACHDNC's recommendations regarding inclusion of additional conditions for screening on the Recommended Uniform Screening Panel, following adoption by the Secretary, are evidence-informed preventive health services provided for in the comprehensive guidelines supported by HRSA pursuant to section 2713 of the Public Health Service Act (42 U.S.C. 300gg-13). Under this provision, non-grandfathered group health plans and health insurance issuers offering non-grandfathered group or individual health insurance are required to provide insurance coverage without cost-sharing (a co-payment, co-insurance, or deductible) for preventive services for plan years (*i.e.*, policy years) beginning on or after the date that is 1 year from the Secretary's adoption of the condition for screening.

During the November 2-3, 2023, meeting, ACHDNC will hear from experts in the fields of public health, medicine, heritable disorders, rare disorders, and newborn screening. Agenda items include the following:

- (1) An update on the Krabbe disease expedited evidence review update;
- (2) An update on the Duchenne Muscular Dystrophy evidence review update;
- (3) An update by the ACHDNC Decision Matrix ad hoc topic group and potential vote on revisions to the ACHDNC Decision Matrix;

- (5) Ad hoc topic group updates; and
- (6) A possible presentation on the National Academies of Sciences,

Engineering, and Medicine Workshop on Next Generation Screening.

ACHDNC will not vote on recommending conditions for inclusion in the Recommended Uniform Screening Panel during this meeting; however, Krabbe disease and Duchenne Muscular Dystrophy evidence review updates along with a discussion and a potential vote on revisions to the ACHDNC Decision Matrix may inform such potential future recommendations. Agenda items are subject to change as priorities dictate. Information about ACHDNC, including a roster of members and past meeting summaries, is available on the ACHDNC website.

Members of the public will have the opportunity to provide comments on any or all of the above agenda items.
