Description of Collection

Title: Household Goods Movers' Disclosure Requirements.

OMB Control Number: 2140-0027.

STB Form Number: None.

Type of Review: Extension without change.

Respondents: Household goods movers (HHG Movers) that desire to offer a rate limiting their liability on interstate moves to anything less than replacement value of the goods.

Number of Respondents: 5,273 (approximate number of active household goods carriers in the United States according to the Federal Motor Carrier Safety Administration (FMCSA)). See 2022 Pocket Guide to Large Truck and Bus Statistics (December 2022) section 1-7 Household Goods Carriers and Brokers Operating in the United States, 2017-2021.

Frequency: On occasion.

Total Burden Hours: 101 hours. Household goods movers provide prospective clients with a prescribed form estimating the charges for the anticipated move and providing various warnings and disclosures, including a disclosure of the availability of two levels of recovery for loss and damage incurred during the move. The Board's request for approval of the initial estimate form contained a cost analysis indicating that inclusion of the loss-and-damage information was a one-time, start-up cost, and that an estimated 15 of the thousands of HHG Movers were

large firms that print their own forms and that had already produced modified forms to meet the new requirement. The original request for approval also indicated that only a relatively small number of new entrants would have to create the required notice forms each year. Using 2022 Pocket Guide to Large Truck and Bus Statistics (section 1-7) to determine the latest three-year increase in the number of HHG Movers, Board staff estimates that there are approximately 202 of these new carriers that have entered the business annually over the last three reported years. Each of these new entrants would require approximately one hour to review the released rate decision and to cut and paste the warnings/disclosures into a general electronic form, but only a portion of that time (about half) would be allotted to the Board's released rate disclosure requirement. Therefore, the Board estimates that the annual hourly burden for this collection is 101 hours per year for the industry (202 responses annually $\times \frac{1}{2} \times 1$ hour = 101 burden hours).

Total "Non-hour Burden" Cost: No "non-hour cost" burdens associated with this collection have been identified. HHG Movers may provide these forms to shippers electronically.

Needs and Uses: In the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, § 4215, Public Law 109-59, 119 Stat. 1144, 1760 (2005), Congress directed the Board to review consumer protection regulations concerning the loss or damage to property that occurs during interstate household goods moves. In Docket No. RR 999, the Board required household goods motor carriers and freight forwarders wishing to offer a rate limiting their liability on interstate moves to anything less than replacement value of the goods to provide their customers with clear written information concerning the two available cargo-liability options (a full replacement-value protection option and a lower, released-rate protection option). HHG Movers are required to provide this information on the standard written estimate form that the FMCSA requires HHG Movers to provide to their household goods moving customers. See 49 CFR 375.213 and 375.401(g). As provided on the form, this information allows for early notice to household goods moving customers regarding the two liability options, as well as adequate time and information to help consumers decide which option to choose. In doing so, this collection enables the Board to meet its statutory duty.
