

submitting factual information in these segments. Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice.¹⁴

Any party submitting factual information in an AD or CVD proceeding must certify to the accuracy and completeness of that information using the formats provided at the end of the *Final Rule*.¹⁵ Commerce intends to reject factual submissions in any proceeding segments if the submitting party does not comply with applicable certification requirements.

Extension of Time Limits Regulation

Parties may request an extension of time limits before a time limit established under Part 351 expires, or as otherwise specified by Commerce.¹⁶ In general, an extension request will be considered untimely if it is filed after the time limit established under Part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. on the due date. Examples include, but are not limited to: (1) case and rebuttal briefs, filed pursuant to 19 CFR 351.309; (2) factual information to value factors under 19 CFR 351.408(c), or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2), filed pursuant to 19 CFR 351.301(c)(3) and rebuttal, clarification and correction filed pursuant to 19 CFR 351.301(c)(3)(iv); (3) comments concerning the selection of a surrogate country and surrogate values and rebuttal; (4) comments concerning CBP data; and (5) Q&V questionnaires. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, Commerce will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This policy also requires that an extension request must be made in a separate, stand-alone submission, and clarifies the circumstances under which Commerce will grant untimely-filed requests for the

extension of time limits. Review the *Final Rule*, available at <https://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to submitting factual information in these segments.

Notification to Interested Parties

These initiations and this notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.221(c)(1)(i).

Dated: October 12, 2023.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

National Institute of Standards and Technology

Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Streamlined Supply Chain Information Collection Request (ICR)

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on 07/24/2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Institute of Standards and Technology (NIST).

Title: Streamlined Supply Chain Information Collection Request (ICR).

OMB Control Number 0693–XXXX.

Form Number(s): None.

Type of Request: Regular.

Number of Respondents: 210.

Average Hours per Response: 42 hours.

Burden Hours: 8,820 hours.

Needs and Uses: The CHIPS Program Office (CPO) intends to release a notice of funding opportunity (NOFO) to solicit applications for CHIPS Incentives that will support investments in the construction, expansion, and modernization of commercial facilities

in the United States for semiconductor materials and semiconductor manufacturing equipment for which the capital investment falls below \$300 million.

Information collected as part of the application process may include but is not limited to project descriptions, project timelines, narrative justifications for incentives, applicant financial information, and relevant project environmental and workforce information.

Affected Public: Business or other for-profit organizations.

Frequency: Once.

Respondent's Obligation: Mandatory to be eligible for CHIPS Act funding.

Legal Authority: CHIPS Act of 2022 (Division A of Pub. L. 117–167) (the Act).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering the title of the collection.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

National Oceanic and Atmospheric Administration

Proposed Boundary Expansion for the South Slough National Estuarine Research Reserve

AGENCY: Office for Coastal Management (OCM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of proposed boundary expansion and availability of a draft environmental assessment; request for comments.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA) is considering a request to expand the boundary of the South Slough National

¹⁴ See *Temporary Rule Modifying AD/CVD Service Requirements Due to COVID–19*, 85 FR 41363 (July 10, 2020).

¹⁵ See section 782(b) of the Act; see also *Final Rule*; and the frequently asked questions regarding the *Final Rule*, available at https://enforcement.trade.gov/tlei/notices/factual_info_final_rule_FAQ_07172013.pdf.

¹⁶ See 19 CFR 351.302.

Estuarine Research Reserve (SSNERR or the Reserve) and is soliciting comments from the public on the proposed boundary expansion. The public is also invited to comment on the draft environmental assessment for the proposed boundary expansion.

DATES: Comments must be received at the appropriate address (see **ADDRESSES**) on or before November 17, 2023.

ADDRESSES: The draft environmental assessment describing the proposed boundary expansion can be downloaded or viewed at coast.noaa.gov/czm/compliance/. The document is also available by sending a written request to the point of contact identified below (see **FOR FURTHER INFORMATION CONTACT**).

Comments may be submitted by the following method:

Federal eRulemaking Portal: <https://www.regulations.gov>. Submit electronic comments via the Federal eRulemaking Portal and search for Docket Number NOAA-NOS-2023-0132. Enter N/A in the required fields to remain anonymous).

Mail: Submit written comments to John King, Office for Coastal Management, 1305 East-West Highway, N/ORM, 10th Floor, Silver Spring, MD 20910.

Comments submitted by any other method or after the comment period may not be considered. NOAA will accept anonymous comments; however, the written comments NOAA receives are a part of the public record, and the entirety of the comment, including the name of the commenter, email address, attachments, and other supporting materials, will be publicly accessible. Sensitive personally identifiable information, such as account numbers and Social Security numbers, should not be included with the comment. Comments that are not related to the proposed boundary expansion of the South Slough National Estuarine Research Reserve or that contain profanity, vulgarity, threats, or other inappropriate language will not be considered.

FOR FURTHER INFORMATION CONTACT: Brian Bloodworth, NOAA Office for Coastal Management, 1305 East West Highway, Silver Spring MD 20910, or brian.bloodworth@noaa.gov, 1-304-279-1460.

SUPPLEMENTARY INFORMATION:

I. Background

The Oregon Department of State Lands, as lead agency for managing the South Slough National Estuarine Research Reserve, has requested approval to modify the Reserve's geographic boundary by adding eight

new parcels, including 1,771 acres (approximately 7.17 square km), which comprises the addition of: 30 acres (0.12 sq. km) to correct for the use of current GIS-based technology in calculating updated acreage for the boundary area since it was established in 1974; 1,541 acres (6.24 sq. km) of lands acquired since 2008 that are owned and managed by the Reserve outside of the SSNERR boundary; and 200 acres (0.81 sq.km) of State-owned waters in South Slough that connect the lands acquired since 2008. In addition, SSNERR is also exploring two proposed future acquisitions totaling 105 acres (0.42 sq. km), and a land-swap for an entrance parcel expansion. Pursuant to 15 CFR 921.33(a), NOAA may require public notice, including notice in the **Federal Register** and an opportunity for public comment, before approving a boundary or management plan change. In addition, boundary changes involving the acquisition of properties not listed in the Reserve's management plan or final environmental impact statement require public notice and the opportunity for comment. Since the new parcels were not evaluated in the Reserve's original environmental impact statement, NOAA has developed an environmental assessment pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended, 42 U.S.C. 4321 *et seq.*, and the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR 1500-1508), to analyze the effects of the requested change, and is publishing notice of the availability of this draft environmental assessment for public review and comment on the proposed boundary change and associated environmental assessment.

II. NOAA Proposed Action and Alternatives

In accordance with NEPA and the Council on Environmental Quality Regulations, NOAA is releasing a draft environmental assessment. NOAA's proposed action would be to approve a change in the boundary of the SSNERR to add 1,771 acres (7.17 sq. km) to the current boundary.

The draft environmental assessment identifies and assesses potential environmental impacts associated with the proposed boundary expansion, and identifies a preferred alternative and a no action alternative. The preferred alternative would add 1,771 acres (7.17 sq. km) to the SSNERR's boundary, which would result in a net increase in size to 6,542 acres (26.47 sq. km), and 6,647 acres (26.90 sq. km) if all proposed future land acquisitions are

made. As a result, NOAA believes the proposed boundary expansion would formally incorporate land parcels within the SSNERR, which would protect lands of biological importance, allow the SSNERR to further its research and stewardship mission, provide additional lands/uses for public use, and provide an opportunity for more integrated ecosystem management. Therefore, NOAA prefers the proposed boundary expansion over the no action alternative.

Authority: 16 U.S.C.1451 *et seq.*; 15 CFR 921.33.

Keelin S. Kuipers,

Deputy Director, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration.

National Oceanic and Atmospheric Administration

[RTID 0648-XD429]

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to a Geophysical Survey in the Ross Sea, Antarctica

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments on proposed renewal incidental harassment authorization.

SUMMARY: NMFS received a request from the United States National Science Foundation (NSF) for the renewal of their currently active incidental harassment authorization (IHA) (hereinafter, the "initial IHA") to take marine mammals incidental to a geophysical survey in the Ross Sea, Antarctica because NSF's activities will not be completed prior to the IHA's expiration. Pursuant to the Marine Mammal Protection Act, prior to issuing the currently active IHA, NMFS requested comments on both the proposed IHA and the potential for renewing the initial authorization if certain requirements were satisfied. The renewal requirements have been satisfied, and NMFS is now providing an additional 15-day comment period to allow for any additional comments on the proposed renewal not previously provided during the initial 30-day comment period.
