

TOTAL ANNUAL BURDEN HOURS—Continued

Type of filing	Hours per response	Annual number of filings	Total annual burden hours
Interchange commitments	10	5	50
Total annual burden hours			7,300

* Under section 10502, petitions for exemption and notices of exemption are permitted in lieu of an application.

Total “Non-hour Burden” Cost: None identified. Filings are submitted electronically to the Board. However, for some filings, respondents are sometimes required to send documentation or consultation letters to various other governmental agencies or parties, some of which may involve limited mailing costs, which staff estimates in total to be approximately \$2,100.

Needs and Uses: As mandated by Congress, an application for prior approval and authority must be filed with the Board by persons seeking to construct, acquire, or operate a line of railroad; by railroads seeking to abandon or discontinue operations over a line of railroad; and, in the case of two or more railroads, by railroads seeking to consolidate their interests through merger or a common-control arrangement. See 49 U.S.C. 10901–03, 11323–26. Under 49 U.S.C. 10502, persons may seek an exemption from many of the application requirements of sections 10901–03 and 11323–26 by filing with the Board a petition for exemption or notice of exemption in lieu of an application. The collection by the Board of these applications, petitions, and notices (including collection of disclosures of rail “interchange commitments” under 49 CFR 1121.3(d), 1150.33(h), 1150.43(h), and 1180.4(g)(4)) enables the Board to meet its statutory duty to regulate the referenced rail transactions. If the actions for which authority is sought create agreements with interchange commitments that limit the future interchange of traffic with third parties, then certain information must be disclosed to the Board about those commitments. 49 CFR 1121.3(d), 1150.33(h), 1150.43(h), 1180.4(g)(4). The collection of this information facilitates the case-specific review of interchange commitments and enables the Board’s monitoring of their usage generally.

Under the PRA, a federal agency that conducts or sponsors a collection of information must display a currently valid OMB control number. A collection of information, which is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), includes agency requirements that persons submit reports, keep records, or

provide information to the agency, third parties, or the public. Section 3507(b) of the PRA requires, concurrent with an agency’s submitting a collection to OMB for approval, a 30-day notice and comment period through publication in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information.

Dated: October 13, 2023.

Kenyatta Clay,
Clearance Clerk.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Availability of a Final Programmatic Environmental Assessment and Finding of No Significant Impact/Record of Decision

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice of availability.

SUMMARY: The Federal Aviation Administration announces the availability of a Final Programmatic Environmental Assessment and Finding of No Significant Impact/Record of Decision for the Bipartisan Infrastructure Law-funded Airport Traffic Control Tower Replacement Program.

FOR FURTHER INFORMATION CONTACT: For technical questions concerning this notice, contact Aaron W. Comrov, Environmental Team Lead, FAA CSA ES EOSH Center (AJW–2C16E), 2300 East Devon Avenue, Room 450, Des Plaines, IL 60018; telephone: (847) 294–7665; email: aaron.comrov@faa.gov.

SUPPLEMENTARY INFORMATION: The Final Programmatic Environmental Assessment (PEA) considers the conditions and potential environmental impacts from the Proposed Action to replace numerous FAA-owned airport traffic control towers (ATCT) with modern facilities under the Bipartisan Infrastructure Law (BIL)-funded ATCT

Replacement Program. Many existing ATCTs at municipal or general aviation airports are outdated and operating past their design life. The purpose and need for the proposed program is to replace select FAA-owned ATCTs with modern ATCTs while providing uninterrupted air traffic control services. The FAA has prepared the Final PEA and Finding of No Significant Impact (FONSI)/Record of Decision (ROD) in conformance with the requirements of the National Environmental Policy Act of 1969 (NEPA) and FAA Order 1050.1F, *Environmental Impacts: Policies and Procedures*. The Final PEA analyzes the potential environmental impacts that may result from construction and operation of the proposed new ATCTs and decommissioning and removal of the existing ATCTs (the Proposed Action), as well as the No Action Alternative (*i.e.*, not constructing and operating the proposed new ATCTs). The Final PEA reflects consideration of comments received during the public comment period for the Draft PEA, which was open from June 28, 2023 through July 31, 2023.

The Proposed Action would provide for modern, operationally efficient ATCTs, which would be designed to meet the energy and sustainability requirements of FAA’s *Terminal Facilities Design Standard* while adhering to the Council on Environmental Quality’s *Guiding Principles for Sustainable Federal Buildings and Associated Instructions*. The proposed replacement ATCTs would enable the installation of modern air traffic control equipment, provide adequate space and an enhanced work environment for FAA personnel, lower operating costs, and improve environmental performance resulting in energy savings, water efficiency, reduced carbon emissions, and improved indoor air quality while meeting applicable FAA requirements.

Based on this analysis, the FAA determined there will not be a significant impact to the human environment from implementation of the Proposed Action and an Environmental Impact Statement (EIS) is not required. The FAA intends for

this PEA to create efficiencies by establishing a “tiering” framework, where appropriate, to project-specific actions that require additional analysis. As decisions on specific project sites are made, to the extent additional NEPA analysis is required, environmental reviews would be conducted to supplement the analysis set forth in the PEA.

The Final PEA and FONSI/ROD are available on the project website (http://www.faa.gov/air_traffic_atf).

Issued in Des Plaines, Illinois, on October 12, 2023.

Aaron W. Comrov,

Environmental Team Lead, FAA CSA ES EOSH Center, AJW-216E.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[Docket No. FHWA-2023-0041]

Agency Information Collection Activities: Request for Comments for a New Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA invites public comments about our intention to request the Office of Management and Budget’s (OMB) approval for an information collection, which is summarized below under **SUPPLEMENTARY INFORMATION**. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by December 18, 2023.

ADDRESSES: You may submit comments identified by DOT Docket ID Number 0041 by any of the following methods:

Website: For access to the docket to read background documents or comments received go to the Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Fax: 1-202-493-2251.

Mail: Docket Management Facility, U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590-0001.

Hand Delivery or Courier: U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Carlos B. McCloud, (225) 433-2892—carlos.mccloud@dot.gov or David Harris, (202) 366-2825—dave.harris@dot.gov, FHWA Office of Transportation Management (HOTM) USDOT HQ E84-471, 1200 New Jersey Avenue SE, Washington, DC 20590. Office hours are from 8 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

SUPPLEMENTARY INFORMATION:

Title: Strategic Innovation for Revenue Collection (SIRC) Program Grant Application, Agreement, and Project Management.

Background: In adherence with 5 CFR 1320.13, this is a request for approval for an emergency clearance for processing of information related to a new collection of information for the SIRC Program grant application submission and quarterly reporting requirements for FY 2023–2024 program of projects awards. The collection of information will support implementation of Title III—Research, Technology, and Education, Sec. 13001. Strategic Innovation for Revenue Collection (a) and (b) of the Infrastructure Investment and Jobs Act (Pub. L. 117–58 or also referred to as the Bipartisan Infrastructure Law-BIL (see Exhibit A page 12). The Office of the Secretary of Transportation (OST) and the Federal Highway Administration (FHWA) has coordinated on the development of public information to solicit responses to a Notice of Funding Opportunity (NOFO) for the SIRC Program. Awarded funds to eligible applicants will test the feasibility of a road usage fee and other user-based alternative revenue mechanisms (referred to in this section as “user based alternative revenue mechanisms”) to help maintain the long-term solvency of the Highway Trust Fund.

- The information will be received by the FHWA to fulfill the grant application submittal requirements and agreements prescribed in the NOFO.

- The collection of information will include grant application forms and narratives, grant agreements, and project management quarterly reporting.

- The purpose of the collection is to receive information relevant to evaluating applications to the SIRC grant program, per the NOFO, and reporting requirements agreed to by recipients of the Grants.

- The obligation to respond to the collection of information is voluntary and is required to obtain or retain a benefit.

The Strategic Innovation for Revenue Collection (SIRC) Program seeks to fund pilot projects that test the

implementation of user-based alternative revenue mechanisms that utilize a road user fee structure for eligible entities to test the feasibility of the program objectives outlined in Section 133001 (b)(3), as prescribed in Exhibit A of this document. Grant awards test innovative ways to replace or supplement the Federal gas tax to maintain the long-term solvency of the Highway Trust Fund. The collection of information is necessary to receive applications for grant funds, evaluate the effectiveness of projects that have been awarded grant funds, and monitor project financial conditions and project progress pursuant to Section 133001 (b) (3). FY 2023–FY 2024 is the first year of implementation for the SIRC Program. FHWA implemented a similar predecessor program, the Surface Transportation System Funding Alternatives (STSFA) program authorized by section 6020 of the Fixing America’s Surface Transportation (FAST) Act, Public Law 114–94, FY 2016–2021, which was repealed with the passage of BIL. Information about awards funded under the STSFA program is available at: <https://ops.fhwa.dot.gov/stsfa/index.htm>.

FHWA requests information from applicants in the form an electronic application, which will represent 100% of the submissions. The application will assist in soliciting proposals for funding from eligible applicants for the five-year grant program, to monitor the grant program recipients, project progress, assess project outcomes and permit evaluation. The reporting requirements are submitted by recipients and will be completed during the application stage, grant agreement, and the project management stages. FHWA will continue to use the information collected in the application phase to evaluate proposals and make decisions to award grants to applicants for any future similar appropriations. FHWA will use the information to monitor the progress of projects that have been awarded SIRC Program funds, and to monitor the proper expenditure of Federal funds. The project management information will be collected by grant recipients.

Much of the information will be produced and collected through the normal process of project management, so the additional burden of Government information collection is small in comparison to the data management related to information that grant recipients already collect to manage their projects properly. The information collected from grant recipients is project specific and the information is not available other than from the grantees.
