ENVIRONMENTAL PROTECTION AGENCY

[FRL-11462-01-OA]

Science Advisory Board; Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office is announcing a public meeting of the chartered Science Advisory Board. The purpose of the meeting is to: conduct a quality review of the draft SAB report titled: *Review of BenMAP and Benefits Methods*; discuss the draft SAB report on the proposed rule titled *Greenhouse Gas Reporting Rule: Revisions and Confidentiality Determinations for Petroleum and Natural Gas Systems* (RIN 2060-AV83); and discuss recommendations received from the SAB Work Group for Review of Science Supporting EPA Decisions concerning SAB review of EPA planned regulatory actions.

DATES:

Public meeting: The chartered Science Advisory Board will meet on Thursday, November 30, 2023, from 1:30–5:30 p.m. Eastern Time.

Comments: See the section titled "Procedures for providing public input" under **SUPPLEMENTARY INFORMATION** for instructions and deadlines.

ADDRESSES: The meeting will be conducted virtually. Please refer to the SAB website at <https://sab.epa.gov> for information on how to attend the meeting.

FOR FURTHER INFORMATION CONTACT: Any member of the public who wants further information concerning this notice may contact Dr. Thomas Armitage, Designated Federal Officer (DFO), via telephone (202) 564-2155, or email at armitage.thomas@epa.gov. General information about the SAB, as well as any updates concerning the meeting announced in this notice, can be found on the SAB website at <https://sab.epa.gov>.

SUPPLEMENTARY INFORMATION:

Background: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the EPA Administrator on the scientific and technical basis for agency positions and regulations. The SAB is a Federal Advisory Committee chartered under

the Federal Advisory Committee Act (FACA), 5 U.S. Code 10. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the chartered Science Advisory Board will hold a public meeting to discuss the following topics. (1) The SAB will conduct a quality review of a draft report developed by an SAB panel. The draft report is titled: *Review of BenMAP and Benefits Methods*. The SAB quality review process ensures that draft reports developed by SAB panels, committees, or workgroups are reviewed by the Chartered SAB before being finalized and transmitted to the EPA Administrator. (2) The SAB will discuss a draft report developed by an SAB workgroup on the proposed rule titled *Greenhouse Gas Reporting Rule: Revisions and Confidentiality Determinations for Petroleum and Natural Gas Systems* (RIN 2060-AV83). (3) The SAB will discuss recommendations received from the SAB Workgroup for Review of Science Supporting EPA Decisions concerning SAB review of EPA planned regulatory actions. Under the SAB's authorizing statute, the SAB "may make available to the Administrator, within the time specified by the Administrator, its advice and comments on the adequacy of the scientific and technical basis" of proposed rules. The SAB Workgroup for Review of Science Supporting EPA Decisions (SAB SSD Workgroup) is charged with identifying EPA planned actions that may warrant SAB review.

Availability of meeting materials: All meeting materials, including the agenda, will be available on the SAB web page at <https://sab.epa.gov>.

Procedures for providing public input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit relevant comments pertaining to the committee's charge or meeting materials. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for the SAB to consider or if it relates to the clarity or accuracy of the technical information.
