DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; High-Frequency Surveys Program/Household Pulse Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on August 17, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Department of Commerce.

Title: High Frequency Surveys

Program/Household Pulse Survey.

OMB Control Number: 0607-XXXX.

Form Number(s): None.

Type of Request: Regular submission, New Information Collection Request.

Number of Respondents: 198,450.

Average Hours per Response: .25 (20 minutes).

Burden Hours: 66,084.

Needs and Uses: The High-Frequency Surveys Program was established as a natural progression from the creation of the Household Pulse Survey. The Census Bureau developed the Household Pulse Survey to produce near real-time data in a time of urgent and acute need to inform federal and state action in response to the Covid-19 pandemic. Changes in the measures over time provided insight into individuals' experiences on social and economic dimensions during the period of the pandemic. It has evolved to include content on other emergent social and economic issues facing households and is designed to supplement the federal statistical system's traditional benchmark data products with a new data source that provides relevant and timely information based on a high-quality sample frame, data integration, and cooperative expertise.

Affected Public: Households.

Frequency: Households will be selected once to participate in a 20-minute survey.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, sections 8(b), 182 and 193.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering the title of the collection.

DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Annual Integrated Economic Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on November 21, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Department of Commerce.

Title: Annual Integrated Economic Survey (AIES).

OMB Control Number: 0607–1024.

Form Number(s): This electronic collection has no form number.

Type of Request: Regular submission, Revision of a currently approved collection.

Number of Respondents: Dress Rehearsal—8,470 and 50 debriefing interviews; Full AIES—384,940.

Average Hours per Response: Dress Rehearsal—3 hours and 55 minutes, Debriefing interviews—1 hour; Full AIES—3 hours and 23 minutes.

Burden Hours: Dress Rehearsal—33,206 hours, Debriefing interviews—50 hours; Full AIES—1,300,535 hours.

Needs and Uses: On June 21, 2023, The Office of Management and Budget granted approval of a Dress Rehearsal for the AIES, with the stipulation that the Census Bureau will submit a revision request documenting any changes to the forms or procedures prior to implementing a full scale AIES. This revision request documents the modifications that transpired between the U.S. Census Bureau obtaining that OMB clearance and the present moment.

The U.S. Census Bureau requests Office of Management and Budget (OMB) approval to conduct the Annual Integrated Economic Survey (AIES) on an annual basis, beginning for survey year 2023 (collected in calendar year 2024) and a preparatory Dress Rehearsal for the AIES for survey year 2022 (collected in calendar year 2023). The AIES is a new survey designed to integrate and replace seven existing annual business surveys into one survey. The AIES will provide the only comprehensive national and subnational data on business revenues, expenses, and assets on an annual basis. The AIES is designed to combine Cenlong-termu collections to reduce respondent burden, increase data quality, and allow the Census Bureau to operate more efficiently to reduce long term costs. The existing collections integrated into the AIES are the Annual Retail Trade Survey (ARTS), Annual Wholesale Trade Survey (AWTS), Service Annual Survey (SAS), Annual Survey of Manufactures (ASM), Annual Capital Expenditures Survey (ACES), Manufacturers' Unfilled Orders Survey (M3UFO), and the Report of Organization.

The AIES will collect the following information from employer businesses in sample:

- Business characteristics, including employment, operating status, organizational change, ownership information, and co-op status.
- Business classification, including business activity, type of operation, and tax status.
- Revenue, including sales, shipments, and receipts, revenue by class of customer, taxes, contributions, gifts, and grants, products, and e-commerce activity.

- Operating expenses, including purchased services, payroll, benefits, rental payments, utilities, interest, resales, equipment, materials and supplies, research and development, and other detailed operating expenses.

- Assets, including capital expenditures, inventories, and depreciable assets.
- Robotic equipment expenditures and usage.

Additional topics of collections in the AIES include sources of revenue and/or expense for providers (e.g., hospitals and other businesses in the health industry) of select services such as inpatient days, outpatient visits to hospitals, patient visits for other selected health industries, revenue from telemedicine services, and expenses for electronic health records. Product data will be collected from businesses operating in manufacturing industries. Merchandise lines data will be collected from businesses operating in select retail industries. Detailed inventories will be collected for select businesses operating in transportation services industries (e.g., trucks, truck tractors, and trailers).

The AIES may include new questions each year based on relevant business topics. Potential topics for such new questions could include technological advances, management and business practices, export practices, and globalization. Any new questions will be submitted to OMB for review using the appropriate clearance vehicle.

In September of 2023, the Census Bureau began conducting a Dress Rehearsal for the AIES with approximately 8,470 companies. The Dress Rehearsal will collect survey year 2022 information. The Dress Rehearsal will be a large-scale test of the forms and procedures planned for the AIES. The burden estimate is 3 hours and 55 minutes per respondent. The Dress rehearsal will allow us to examine patterns of non-response and to determine what additional support respondents will need. Paradata gathered from respondents' interactions with the online collection instrument during the Dress Rehearsal will help refine our burden estimate. We will also compare the quality of responses received to historical data collected in the 7 surveys the AIES will replace. Up to 50, 1-hour debriefing interviews with respondents will also be conducted.

To minimize the burden imposed on most respondents already in sample for the seven annual surveys the AIES will replace, we will use the AIES responses from companies that participate in the Dress Rehearsal to satisfy their reporting requirement for the annual survey(s) for
