II. Background, Purpose, and Legal Basis

The Coast Guard Sector Key West, FL and its assets are on property previously under the control of the Naval Air Station (NAS) Key West, FL. The current regulations restricting vessel traffic in and around NAS Key West are found in 33 CFR 334.610 and are only enforceable by the Commanding Officer of NAS Key West, and certain designated agencies. Currently, the Coast Guard requires the authority from the Commanding Officer, NAS Key West, before they can enforce a security zone in and around Coast Guard property and assets. This additional step can generate unnecessary delays, which creates security concerns for the Coast Guard and potential hazards to the public. The Captain of the Port Key West (COTP) has determined that permanent security zone is in the interest of national security, the safety of life, and the prevention of damage to property.

The purpose of this rulemaking is to ensure the security of vessels, waterfront facilities, and personnel located at the Coast Guard, Sector Key West. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70051 and 70124.

III. Discussion of Proposed Rule

The COTP is proposing to establish a permanent security zone surrounding the Coast Guard Sector Key West, located adjacent to Trumbo Point Annex, Naval Air Station Key West. The security zone would cover all navigable waters within 100 yards of the Coast Guard Sector Key West. No vessel, other than Government-owned vessels and specifically authorized private craft, or persons would be permitted to stop or land in the security zone. The regulatory text we are proposing appears at the end of this document.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is

necessary, to select regulatory approaches that maximize net benefits. This NPRM has not been designated a “significant regulatory action,” under section 3(f) of Executive Order 12866, as amended by Executive Order 14094 (Modernizing Regulatory Review). Accordingly, the NPRM has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on the fact that the area covered by the permanent security zone created by this rulemaking is already a regulated restricted area as contained in 33 CFR 334.610. Unauthorized vessels and persons have not been allowed to stop and land within 100 yards of the Coast Guard base on Trumbo Point Annex through the regulation in § 334.610. This rulemaking allows the Coast Guard to enforce the restricted area through a security zone. Additionally, the security zone only extends 100 yards from the Coast Guard Sector Key West, located adjacent to Trumbo Point Annex, Naval Air Station Key West and does not impede any regular vessel traffic (*i.e.*, cruise ships, ferries, small passenger vessels, etc.). Vessels will be able to transit safely around the zone.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

For the reasons stated in section IV.A above, this proposed rule would not have a significant economic impact on any vessel owner or operator.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rulemaking would economically affect it.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the proposed rule would affect your small business, organization, or governmental

jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

C. Collection of Information

This proposed rule would not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132 (Federalism), if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this proposed rule does not have tribal implications under Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments) because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this proposed rule has implications for federalism or Indian tribes, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the potential effects of this proposed rule elsewhere in this preamble.

F. Environment

We have analyzed this proposed rule under Department of Homeland Security Directive 023–01, Rev. 1,

associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves a security zone that would prohibit vessels and persons from stopping or landing within 100 yards of the United States Coast Guard base on Trumbo Point Annex. Normally such actions are categorically excluded from further review under paragraph L60(a) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A preliminary Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket, see the **ADDRESSES** section of this preamble. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

SUPPLEMENTARY INFORMATION: PHMSA is evaluating a Petition for a Declaratory Order (Petition) from Mifflin Energy Corporation (Mifflin), pursuant to 49 U.S.C. 60117(b)(1)(j).

Mifflin operated a production line in Greene County, Pennsylvania, which was subject to a free gas arrangement. Under the arrangement, gas flowed from Mifflin's production line through a pipeline owned by the landowner, with the regulator and meter placed at the juncture of the production line and the customer-owned pipeline. In March 2020, with Mifflin's consent, the landowner moved the regulator and the meter downstream of the juncture, further down the landowner's pipeline.
