SUPPLEMENTARY INFORMATION: In general, Title 49 United States Code (U.S.C.) Section 20157(h) requires FRA to certify that a host railroad's PTC system complies with title 49 Code of Federal Regulations (CFR) part 236, subpart I, before the technology may be operated in revenue service. Before making certain changes to an FRA-certified PTC system or the associated FRA-approved PTCSP, a host railroad must submit, and obtain FRA's approval of, an RFA to its PTCSP under 49 CFR 236.1021.

Under 49 CFR 236.1021(e), FRA's regulations provide that FRA will publish a notice in the **Federal Register** and invite public comment in accordance with 49 CFR part 211, if an RFA includes a request for approval of a material modification of a signal or train control system. Accordingly, this notice informs the public that the twenty host railroads' recent, joint RFA to their PTCSPs is available in their respective public PTC dockets. This notice provides an opportunity for public comment.

Interested parties are invited to comment on this RFA by submitting written comments or data. During FRA's review of these railroads' joint RFA, FRA will consider any comments or data submitted within the timeline specified in this notice and to the extent practicable, without delaying implementation of valuable or necessary modifications to PTC systems. See 49 CFR 236.1021; see also 49 CFR 236.1011(e). Under 49 CFR 236.1021, FRA maintains the authority to approve, approve with conditions, or deny these railroads' joint RFA to their PTCSPs at FRA's sole discretion.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 2105–0576.
Title: Traveling by Air with Service Animals.

Type of Request: Reinstatement of information collections.

Background: The U.S. Department of Transportation (Department or DOT) published a final rule to amend the Department’s Air Carrier Access Act (ACAA) regulation on the transport of service animals by air in the **Federal Register** on December 10, 2020 (85 FR 79742). 14 CFR 382.75 allows airlines to require passengers traveling with service animals to provide carriers with the following two forms of documentation developed by the Department as a condition of travel. The first form published in the rule, the U.S. Department of Transportation Service Animal Air Transportation Form (“Behavior and Health Attestation Form”), is designed to ensure and inform airlines of the service animal’s good health, disability-related training, and good behavior; to educate passengers traveling with service animals on how service animals in air transportation are expected to behave; and to inform passengers traveling with service animals of the consequences of service animal misbehavior. The second form published in the rule, the U.S. Department of Transportation Service Animal Relief Attestation Form (“Relief Attestation Form”), may only be required by the airlines when a passenger is traveling with service animals on a flight segment scheduled to take 8 hours or more. The purpose of this form is to provide assurances to airlines that the service animal will not need to relieve itself on the flight or that the animal can relieve itself in a way that does not create a health or sanitation issue, and to educate passengers of the consequences should an animal relieve itself on the aircraft in an unsanitary way.

The Behavior and Health Attestation Form and the Relief Attestation Form are the only forms that airlines are permitted to require from passengers traveling with service animals as a condition of transport, except in rare circumstances when additional documentation may be necessary to comply with requirements on transport of animals by a Federal agency, a U.S. territory, or a foreign jurisdiction. DOT is publishing this notice to announce its intent to seek reinstatement of the previously approved information collections for these forms, OMB Control Number 2015–0576, and receive comments on the formatting and clarifying amendments made to its Behavior and Health Attestation Form. Currently, OMB authorization of the information collections expire on December 31, 2023.
