Project Description

GTS proposes to construct and operate two underground salt dome natural gas storage caverns at its existing storage site, six additional 5,500 horsepower compressor units at its existing compressor station, a new brine disposal well and brine pipeline, and appurtenant facilities, in Jefferson County, Texas. Construction of the proposed facilities would temporarily disturb about 31 acres of land. Following construction, GTS would maintain about 5.2 acres of land for permanent operation of the Project's facilities; the remaining acreage would be restored and revert to former uses.

Background

On September 21, 2023, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Golden Triangle Storage Expansion Project* (Notice of Scoping). The Notice of Scoping was sent to affected landowners; Federal, State, and local government agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. In response to the Notice of Scoping, the Commission received comments from the Texas Parks and Wildlife Department, the Sierra Club, and U.S. Environmental Protection Agency. The primary issues raised by the commentors are construction procedures, flood risks, effects on threatened and endangered species, water quality, air quality,

hazardous waste management, and impacts to environmental justice communities. All substantive comments will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This service provides automatic notification of filings made to subscribed dockets, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP23-542), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov.
