I. Funding Opportunity Description

Purpose of Program: The purpose of the ANE program is to support innovative projects that recognize and address the unique educational needs of Alaska Natives. These projects must include the activities authorized under section 6304(a)(2) of the Elementary and Secondary Education Act of 1965, as amended (ESEA), and may include one or more of the activities authorized under section 6304(a)(3) of the ESEA, including, but not limited to, curriculum development, training and professional development, early childhood and parent outreach, and enrichment programs.

The Department encourages applicants to propose a broad array of activities to achieve these purposes, including activities that are consistent with the Administration's policy focus areas, such as promoting equitable access to educational resources and opportunities. These activities may include supporting inclusive pedagogical practices in educator preparation and professional development programs and increasing the number and diversity of experienced effective educators, including those from the community they serve.

As noted below, construction projects that will support the operation of an existing or proposed ANE program will be a permissible activity only if Congress specifically authorizes the use of FY 2024 funds for this purpose. However, we note that, in each of the last 20 fiscal years, Congress has authorized, through appropriations acts, that ANE funds may be used for
