SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Health Care Survey of DoD Beneficiaries; OMB Control Number: 0720-HCSDB.

Needs and Uses: Legal authority for this information collection is found in the 1993 National Defense Authorization Act (NDAA) (Pub. L. 102-484). The Health Care Survey of DoD

Beneficiaries (HCSDB) is the only population-based Consumer Assessment of Healthcare Providers and Systems (CAHPS) Health Plan Survey (v5.0) administered to a statistically representative, world-wide sample of all eligible DoD beneficiaries by the DHA. The instrument includes an additional module that is the only population-based measurement of Healthy People 2030 goals and health metrics reflecting the priorities of senior health leaders. The HCSDB is a population-based survey, not a healthcare encounter-based survey. As such, the HCSDB is the only survey able to measure access to care and other metrics for beneficiaries who may not be using the TRICARE health system due to barriers to care they encounter. This information collection, which began in 2008, continues to be of critical importance to DHA and Congress in assessing Military Health System (MHS) and Managed Care Support Contractor performance by allowing for trending by various beneficiary categories over time.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: TRICARE Select Survey of Beneficiaries (TSS-B); OMB Control Number: 0720-TSSB.

Needs and Uses: The TSS-B is a population-based survey, not a healthcare encounter-based survey; this makes it unique as the only survey of the entire TSS-B beneficiary population regardless of whether they have had a recent health care encounter. TSS-B is the sole source for Consumer Assessment of Healthcare Providers and Systems (CAHPS) which captures patient experience of the TSS-B population. This information collection, which began in 2009, is used in reports to Congress and by working groups within the DHA. The TSS-B data is required by DHA for Contract Data

Requirements List (CDRL) Q120. TRICARE contractors use TSS–B data under CDRL Q120 for federal contracts to evaluate and identify issues related to patient experience and access to care for TSS–B. This includes developing executive reports and action plans on CAHPS Health Plan measures, which are delivered to DHA’s Managed Care Support Program. This data is also used for regular Government Accountability Office (GAO) audits of care for TSS–B.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: DoD Mortuary Affairs Forms; DD Form(s) 0565, 3045, 3046, 3047, 3048, 3049, 3050, 3116, 3122; OMB Control Number: 0704–0581.

Needs and Uses: The information collection requirement is necessary to obtain and document information related to deceased personnel and their family members. The information collection documents selections made by family members and others as part of the required mortuary case file. As stated in 10 United States Code (U.S.C.) 1481, “Recovery, Care, and Disposition of Remains: Decedents Covered,” the DoD may provide for the recovery, care, and disposition of the remains for active-duty Regulars, Reserve Component members, applicants, trainees, military prisoners, and others. The DoD is further authorized, per 10 U.S.C. 1482 and 10 U.S.C. 1482a to provide reimbursement, cover expenses, or otherwise provide mortuary services for decedents, including civilian employees serving with the armed forces. Mortuary affairs personnel must document information on the information collections to ensure proper care, transportation, escort, honors and disposition of remains, as applicable. Depending on the circumstances, a Person Authorized to Direct Disposition

(PADD) or Person Authorized to Effect Disposition may be asked to complete up to six forms. All PADDs will complete the DD Form 3045, but may additionally be asked to provide information on the DD Forms 3046, 3047, 3048, 3049, and/or 3050.

The DD Form 565 is a form to assist mortuary personnel with the identification of the remains of deceased personnel, family members, civilians, or other personnel that may be in the care of the DoD. Identification of deceased persons is a critical step in providing proper disposition of the remains. Information collected includes information on the respondent and a witness.

The DD Form 3116 is a report filed with Service casualty and mortuary affairs offices with information regarding the transportation of human remains of deceased active duty personnel to their place of interment. The escort also reports on the condition of remains, casket and any incident during transportation to assist the Service Casualty and Mortuary Affairs Operations Division (CMAOD) in their support of the person authorized to direct disposition of the remains. The report also informs the Service CMAOD of any issue needed to be resolved with the receiving funeral home.

The DD Form 3122 is an official request for military funeral honors at the funeral or memorial of an eligible deceased veteran. A request for military funeral honors for an eligible veteran must be supported by law. The form will be sent to military funeral honors coordinators for their review, analysis for eligibility, scheduling, and to capture costs to provide the required military funeral honors elements. The form contains contact information for the next-of-kin requesting military funeral honors.
