

- supervisory control and data acquisition (SCADA) systems;
- backup power products and systems;
- blowers and aeration equipment;
- gear reducers;
- drives (including variable frequency drives (VFDs));
- ultraviolet (UV) water treatment systems;
- membrane and other filtration systems (e.g., ion exchange, membrane, and reverse osmosis);
- clarifier mechanisms;
- disinfection systems;
- conveyors;
- dewatering equipment (such as compressors and presses, including belt presses);
- floating surface aerators;
- ozone generators;
- measurement sensors;
- water meters and associated communications devices;
- automated level control gates; and
- other critical water infrastructure products, including whether they comply with applicable BABA requirements.

For each of these products or categories of products and based on your current understanding of BABA requirements, the EPA is requesting the following information about the following four general topics: domestic materials sourcing and manufacturing, market readiness, delivery lead times and other. At the beginning of your response, please specify the products for which you are providing an answer:

Products: Please clearly identify the products or categories of products for which you are providing a response. If you are referring to “other critical water infrastructure products and systems,” please provide a detailed description of the product or system.

1. Domestic Materials Sourcing and Manufacturing:

a. For each of the products or categories of products you identified, please specify whether the product meets BABA requirements (described above) or is currently manufactured in the United States to meet a domestic final assembly condition. (Yes or no).

b. Please identify whether the products in your response fall within the iron and steel, manufactured products, or construction materials categories of BABA.

c. If you answered “Yes” to Topic 1(a), to the best of your knowledge.

i. Please identify all manufacturers that can either meet BABA requirements or can currently manufacture products or categories of products you specified in the United States. For products that meet the condition of manufactured in

the United States, please identify the manufacturing location and percentage of components manufactured in the United States as calculated by cost of components (if known).

ii. What is the current production capacity of the products that can meet BABA requirements?

iii. What is the anticipated growth in BABA-compliant capacity over the next five years? Does this anticipated growth consider the more than \$50 billion in increased funding described above? Please explain.

iv. For products able to meet BABA requirements, what is the estimated lead time from purchase order to delivery to the project site? Has this lead time increased or decreased in recent years?

d. If you answered “No” to Topic 1a: i. What actions are manufacturers taking/could take to increase the manufacturing of products that will meet BABA requirements?

ii. What additional support or incentives (e.g., financial, rulemaking certainty, etc.) are needed to ensure a sufficient supply of products that meet BABA requirements?

iii. How long might it take to implement the steps needed to increase or begin production of BABA compliant products?

iv. If a plan is in place to manufacture BABA compliant products, what is the volume of specific products that will follow BABA requirements and in what time frame?

v. Will the volume of BABA compliant products be ramped up over time, and, if so, at what annual growth rate?

vi. What are the limiting factors for the product’s ability to meet criteria for BABA compliance? For example, are there components of these products for which it is hard to meet BABA requirements? Please describe each component separately and indicate approximately what percent of component value it represents.

2. Market Readiness:

a. For all products specified in Topic 1(a), provide your observations on the current and near-term demand expected for these products or categories of products. Does this estimate of future demand consider the more than \$50 billion in increased funding described above? Please explain.

b. Provide information regarding whether the current and/or near-term manufacturing capacity would be adequate to meet the expected market demand.

Please specify any factors helping or preventing the industry from meeting the expected demand today and in the near-term and provide information on

the current and expected availability or unavailability of key components or sub-components of the product or category of products you specified.

c. Are there supply chain issues that make it difficult to credibly communicate the existence of increased demand, or to credibly commit that such demand will be forthcoming? If so, please describe as specifically as possible.

3. Timing:

a. Where known, for each product/category of products specified in Topic 1, specify the current range of expected product delivery timeframes. Are any existing supply chain delays applicable or anticipated for the product(s) or critical components of the product(s)?

b. Provide information, if available, on expected delivery timeframe outlooks through the near-term future. Provide information, if known, on whether current timing delivery concerns are related to a temporary disruption.

c. Provide information on the current and expected near-term average customer delivery time.

d. Provide information regarding global supply chain constraints, local permitting, safety requirements and needs that may affect delivery timeframes or extend installation time.

4. Other Practical Considerations:

Please specify any other considerations for the EPA regarding production, products, systems, equipment, or components of products used in water infrastructure.

Radhika Fox,

Assistant Administrator.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-11549-01-R6]

Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption Issuance—Class I Hazardous Waste Injection; Rubicon LLC, Geismar Louisiana Facility, Louisiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of a final decision on a no migration petition issuance.

SUMMARY: Notice is hereby given that an issuance of an exemption to the land disposal restrictions, under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act, is

granted to Rubicon LLC for one Class I hazardous waste injection well at the Geismar Louisiana Facility located in Geismar, Louisiana.

DATES: This action was effective as of November 6, 2023.

ADDRESSES: Copies of the petition issuance and pertinent information relating thereto are on file at the following location: Environmental Protection Agency (EPA), Region 6, Water Division, Safe Drinking Water Branch (6WD-D), 1201 Elm Street, Suite 500, Dallas, Texas 75270-2102.

FOR FURTHER INFORMATION CONTACT: Ian Ussery, Physical Scientist, Ground Water/UIC Section, EPA—Region 6, telephone (214) 665-6639.

SUPPLEMENTARY INFORMATION: As required by 40 CFR part 148, Rubicon LLC adequately demonstrated to the EPA by the petition issuance application and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by the Geismar Louisiana Facility, of the specific restricted hazardous wastes identified in this exemption issuance, into Class I hazardous waste injection Well WDW-6 until December 31, 2040, unless EPA terminates this exemption under provisions of 40 CFR 148.24. Additional conditions included in this final decision may be reviewed by contacting the Region 6 Ground Water/UIC Section. As required by 40 CFR 148.22(b) and 124.10, a public notice comment period started on April 6, 2023, and closed on May 22, 2023. No comments were received. EPA made significant edits to the fact sheet after the public comment period including naming the petition an issuance instead of a reissuance and clarifying portions of the geology section. A second comment period was started on September 7th, 2023, and closed on October 23rd, 2023. No comments were received. This decision constitutes final Agency action, and there is no Administrative appeal.

Dated: November 14, 2023.

Dzung Kim Ngo Kidd,

Acting Director, Water Division, Region 6.

Proposed CERCLA Administrative Cost Recovery Settlement; Seerley Road Site, Indianapolis, Indiana [EPA Agreement V-W-24-C-001]

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice: request for public comment.

SUMMARY: In accordance with section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (“CERCLA”), notice is hereby given by the U.S. Environmental Protection Agency (“EPA”), Region 5, of a proposed administrative settlement for recovery of past response costs concerning the Seerley Rd Fire Site (Site) in Indianapolis, Indiana with the following parties: Steven Williamson and Joel I. Williamson Junior, as the Settling Parties and Respondents. The settlement requires the Respondents to pay \$800,000 in past response costs. The settlement includes a covenant not to sue pursuant to sections 106 and 107 of CERCLA, relating to the Site, subject to limited reservations, and protection from contribution actions or claims as provided by section 113(f)(2) of CERCLA. For thirty (30) days following the date of publication of this notice, the EPA will receive written comments relating to the cost recovery component of this settlement. The EPA will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations that indicate that the proposed settlement is inappropriate, improper, or inadequate. The EPA’s response to any comments received will be available for public inspection at www.epa.gov/superfund/seerley-road-fire.

DATES: Comments must be submitted on or before December 20, 2023.

ADDRESSES: The proposed settlement is available for public inspection at www.epa.gov/superfund/seerley-road-fire. Submit your comments, identified by Docket ID No. EPA-R05-SFUND-2023-0446, to the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. The EPA may publish any comment received to its public docket. Do not submit electronically any

information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Eric Brooks, Investigator, EPA, Region 5, Superfund & Emergency Management Division, 77 West Jackson Blvd., Chicago, IL 60604; email: brooks.eric@epa.gov; phone: (312) 353-8655.

Douglas Ballotti,

Director, Superfund & Emergency Management Division, Region 5.

FEDERAL ACCOUNTING STANDARDS ADVISORY BOARD

Notice of Request for Comment on the Annual Report for Fiscal Year 2023 and Three-Year Plan

AGENCY: Federal Accounting Standards Advisory Board.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Federal Accounting Standards Advisory Board (FASAB) has issued its *Annual Report for Fiscal Year 2023 and Three-Year Plan*. Respondents are encouraged to comment on the content of the annual report and FASAB’s project priorities for the next three years.

DATES: Written comments are requested by January 18, 2024.

ADDRESSES: The *Annual Report for Fiscal Year 2023 and Three-Year Plan* is available on the FASAB website at <https://www.fasab.gov/documents-for-comment/>. Copies can be obtained by contacting FASAB at (202) 512-7350. Comments should be sent to fasab@fasab.gov.

FOR FURTHER INFORMATION CONTACT: Ms. Monica R. Valentine, Executive Director, 441 G Street NW, Suite 1155,
