SUPPLEMENTARY INFORMATION: The Federal Government provides States with funding to offer financial assistance to low-income families to pay for childcare. This funding is provided through the Child Care and Development Fund (CCDF) childcare

subsidy program. Subsidy payment rates are determined by States, but payment rates are required to be informed by childcare market prices. States are encouraged, but not required, to set payment rates at the 75th percentile of the market price. To obtain market prices, States are required to conduct a Market Rate Survey (MRS) no more than two years prior to the submission of States’ Child Care and Development Fund (CCDF) Plan. The CCDF Plan serves as the mandatory State application to receive Child Care and Development Block Grant (CCDBG) funds. This reinstatement of the National Database of Childcare Prices fills an important gap in data and was first approved for collection by the Office of Management and Budget in August 2019 and made available to the public in September 2022. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 6, 2023 (88 FR 43144).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

SUPPLEMENTARY INFORMATION:

I. Notice of the Applications for Expansion

OSHA is providing notice that FM Approvals LLC (FM) is applying for an expansion of current recognition as a NRTL. FM requests the addition of fourteen test standards to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides the final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including FM, which details the NRTL's scope of recognition. These pages are available from the OSHA website at <https://www.osha.gov/>
