## DEFENSE NUCLEAR FACILITIES SAFETY BOARD

### 10 CFR Part 1710

[Docket No. DNFSB–2023–02]

RIN 3155–AA02

#### Federal Employee Salary Offset Procedures for the Collection of a Debt Owed to the Federal Government

**AGENCY:** Defense Nuclear Facilities Safety Board.

**ACTION:** Final rule.

**SUMMARY:** This final rule adopts, without change, an interim final rule with a request for comments published in the **Federal Register** on September 19, 2023. The interim final rule created regulations governing the collection of debts owed to the Defense Nuclear Facilities Safety Board (DNFSB) and to the United States by Federal employees.

**DATES:** Effective November 22, 2023.

**FOR FURTHER INFORMATION CONTACT:** Patricia A. Hargrave, Associate General Counsel, Defense Nuclear Facilities Safety Board, 625 Indiana Avenue NW, Suite 700, Washington, DC 20004–2901, (202) 694–7000.

**SUPPLEMENTARY INFORMATION:** On September 19, 2023, (88 FR 64353), the Board published an interim final rule with a request for comments. This rule, which became effective October 19, 2023, implemented the debt collection procedures provided under section 5 of the Debt Collection Act (DCA), as amended, codified at 5 U.S.C. 5514. The DCA authorizes the Federal Government to collect debts by offset from the salaries of Federal employees without the employee’s consent, provided that the employee is properly notified and given the opportunity to exercise certain administrative rights.

The Board determined that the regulations were interpretative because they merely implemented a definitive

statutory scheme and the requirements contained in regulations promulgated by OPM, codified in 5 CFR part 550, subpart K. Accordingly, no notice of proposed rulemaking was required pursuant to 5 U.S.C. 553(b)(A). In addition, because this rule related to agency management and personnel, no notice of proposed rulemaking was required pursuant to 5 U.S.C. 553(a)(2). The Board, however, noted that it would consider any public comments, but no comments were received. This is confirmation that the interim rule published September 19, 2023, at 88 FR 64353, is adopted as final without change.

Dated: November 13, 2023.

**Joyce Connery,**  
Chair.

#### Airworthiness Directives; Dassault Aviation Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** The FAA is superseding Airworthiness Directive (AD) 2023-04-18, which applied to all Dassault Aviation Model FALCON 2000 airplanes. AD 2023-04-18 required revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations. This AD was prompted by a determination that new or more restrictive airworthiness limitations are necessary. This AD continues to require certain actions in AD 2023-04-18 and requires revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations as specified in a European Union Aviation Safety Agency (EASA) AD, which is incorporated by reference. The FAA is issuing this AD to address the unsafe condition on these products.

**DATES:** This AD is effective December 27, 2023.

The Director of the Federal Register approved the incorporation by reference

of a certain publication listed in this AD as of December 27, 2023.

The Director of the Federal Register approved the incorporation by reference of a certain other publication listed in this AD as of April 18, 2023 (88 FR 15607, March 14, 2023).

**SUPPLEMENTARY INFORMATION:**

**Background**

The FAA issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 to supersede AD 2023-04-18, Amendment 39-22365 (88 FR 15607, March 14, 2023) (AD 2023-04-18). AD 2023-04-18 applied to all Dassault Aviation Model FALCON 2000 airplanes. AD 2023-04-18 required revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations. The FAA issued AD 2023-04-18 to address reduced controllability of the airplane. AD 2023-04-18 specified that accomplishing the revision required by that AD terminates certain requirements of AD 2010-26-05, Amendment 39-16544 (75 FR 79952, December 21,

2010) (AD 2010-26-05) for Model FALCON 2000 airplanes only. This AD therefore continues to allow that terminating action.

The NPRM published in the **Federal Register** on August 30, 2023 (88 FR 59815). The NPRM was prompted by AD 2023-0099, dated May 11, 2023, issued by EASA, which is the Technical Agent for the Member States of the European Union (EASA AD 2023-0099) (also referred to as the MCAI). The MCAI states that new or more restrictive airworthiness limitations have been developed.

In the NPRM, the FAA proposed to continue to require certain actions in AD 2023-04-18 and to require revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations, as specified in EASA AD 2023-0099. The FAA is issuing this AD to address reduced controllability of the airplane.

You may examine the MCAI in the AD docket at *regulations.gov* under Docket No. FAA-2023-1804.

#### Discussion of Final Airworthiness Directive

##### Comments

The FAA received no comments on the NPRM or on the determination of the cost to the public.

#### Conclusion

This product has been approved by the aviation authority of another country and is approved for operation in the United States. Pursuant to the FAA's bilateral agreement with this State of Design Authority, it has notified the FAA of the unsafe condition described in the MCAI referenced above. The FAA reviewed the relevant data and determined that air safety requires adopting this AD as proposed. Accordingly, the FAA is issuing this AD to address the unsafe condition on this product. Except for minor editorial changes, this AD is adopted as proposed in the NPRM. None of the changes will increase the economic burden on any operator.

#### Related Service Information Under 14 CFR Part 51

EASA AD 2023-0099 specifies new or more restrictive airworthiness limitations for airplane structures and safe life limits.

This AD also requires EASA AD 2022-0135, dated July 6, 2022, which the Director of the Federal Register approved for incorporation by reference as of April 18, 2023 (88 FR 15607, March 14, 2023).
