Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Sand Skink; Orange County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from the Orange County Public Library System (Horizon West Library; applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the

ITP to take the federally listed sand skink (*Neoseps reynoldsi*) incidental to the construction and operation of a public library and related activities in Orange County, Florida. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and on the Service's preliminary determination that the proposed permitting action may be eligible for a categorical exclusion pursuant to the Council on Environmental Quality's National Environmental Policy Act (NEPA) regulations, the Department of the Interior's (DOI) NEPA regulations, and the DOI Departmental Manual. To make this preliminary determination, we prepared a draft environmental action statement and low-effect screening form, both of which are also available for public review. We invite comment from the public and local, State, Tribal, and Federal agencies.

DATES: We must receive your written comments on or before December 26, 2023.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), announce receipt of an application from the Orange County Public Library System (Horizon West Library; applicant) for an incidental take permit

(ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP to take the federally listed sand skink (*Neoseps reynoldsi*) (skink) incidental to the construction and operation of a public library, including a shared use area consisting of parking infrastructure, a YMCA facility, and ancillary improvements, and the associated clearing, infrastructure, and landscaping, in Orange County, Florida. We request public comment on the application, which includes the applicant's habitat conservation plan (HCP), and on the Service's preliminary determination that this proposed ITP qualifies as low effect, and may qualify for a categorical exclusion pursuant to the Council on Environmental Quality's National Environmental Policy Act (NEPA) regulations (40 CFR 1501.4), the Department of the Interior's (DOI) NEPA regulations (43 CFR 46), and the DOI's Departmental Manual (516 DM 8.5(C)(2)). To make this preliminary determination, we prepared a draft environmental action statement and low-effect screening form, both of which are also available for public review.

Proposed Project

The applicant requests a 5-year ITP to take skinks via the conversion of approximately 8.69 acres (ac) of occupied nesting, foraging, and sheltering skink habitat incidental to the construction and operation of a public library, including a shared use area consisting of parking infrastructure, a YMCA facility, and ancillary improvements, and the associated clearing, infrastructure, and landscaping on 12.45 ac on Parcels 16-23-27-0000-00-021, 16-23-27-0000-00-009, and 16-23-27-0000-00-031 in Section 16, Township 23 South, Range 27 East, Orange County, Florida. The applicant proposes to mitigate for take of the skinks by purchasing credits equivalent to 17.40 ac of skink-occupied habitat within the Lake Wales Conservation Bank or another Service-approved conservation bank. The Service would require the applicant to purchase the credits prior to engaging in any construction phase of the project.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's proposed project, including the construction of the buildings and associated infrastructure (e.g., electric, water, and sewer lines), would individually and cumulatively have a minor or negligible effect on the sand skink and the environment. Therefore, we have preliminarily determined that

the proposed ESA section 10(a)(1)(B) permit would be a low-effect ITP that individually or cumulatively would have a minor effect on the sand skink and may qualify for application of a categorical exclusion pursuant to the Council on Environmental Quality's NEPA regulations, DOI's NEPA regulations, and the DOI Departmental Manual. A low-effect ITP is one that would result in (1) minor or negligible effects on species covered in the HCP; (2) nonsignificant effects on the human environment; and (3) impacts that, when added together with the impacts of other past, present, and reasonably foreseeable actions, would not result in significant cumulative effects to the human environment.

Next Steps

The Service will evaluate the application and the comments to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding and other matters, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER3397936 to Orange County Public Library System (Horizon West Library).

Public Availability of Comments

While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Authority

The Service provides this notice under section 10(c) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.32) and the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1500-1508 and 43 CFR 46).
