

Chapter 2040 on National Forest System Monitoring will improve the Agency's ability to make evidence-based decisions, as required by the 2012 Planning Rule and the Foundations for Evidence-Based Policymaking Act of 2018. The proposed directive creates a framework that clearly defines the Forest Service's monitoring principles, what those principles are intended to accomplish, and the roles and responsibilities for leaders at all levels to implement the policy. An analysis of existing agency policy in Forest Service Handbooks and Manuals was conducted to evaluate monitoring requirements to inform the development of a National Forest System monitoring policy.

The Forest Service has determined that the proposed new directive sets forth policy and responsibilities, with the goal of providing current direction applicable to the Forest Service monitoring program. Therefore, the Forest Service is publishing the proposed directive for public comment in accordance with 36 CFR part 216. The Forest Service is seeking public comment on the proposed directive, including the sufficiency of the proposed directive in meeting its stated objectives, ways to enhance the utility and clarity of information within the direction, or ways to streamline processes outlined. The proposed directive location of this new chapter has the potential to change. It is expected that Chapter 2040 will replace Chapter 1940—Inventory, Monitoring, and Assessment Activities which established direction associated solely for land management planning.

Forest Service National Environmental Policy Act procedures exclude from documentation in an environmental assessment or impact statement "rules, regulations, or policies to establish service wide administrative procedures, program processes, or instructions" 36 CFR 220.6(d)(2). The Agency's conclusion is that these proposed directives fall within this category of actions and that no extraordinary circumstances exist as currently defined that require preparation of an environmental assessment or an environmental impact statement.

After the public comment period closes, the Forest Service will consider timely comments that are within the scope of the proposed directive in the development of the final directive. A notice of the final directive, including a response to timely comments, will be posted on the Forest Service's web page at <https://www.fs.usda.gov/about-agency/regulations-policies/comment-on-directives>.

Per 36 CFR 219.53, only individuals and entities who have submitted substantive formal comments related to a plan revision during the opportunities for public comment that are attributable to the objector may file an objection unless the objection

concerns an issue that arose after the opportunities for formal comment.

How To File an Objection

An objection must include the following (36 CFR 219.54(c)):

(1) The objector's name and address along with a telephone number or email address if available. In cases where no identifiable name is attached to an objection, the Forest Service will attempt to verify the identity of the objector to confirm objection eligibility;

(2) Signature or other verification of authorship upon request (a scanned signature for electronic mail may be filed with the objection);

(3) Identification of the lead objector when multiple names are listed on an objection. The Forest Service will communicate to all parties to an objection through the lead objector. Verification of the identity of the lead objector must also be provided if requested;

(7) A statement that demonstrates the link between the objector's prior substantive formal comments and the content of the objection, unless the objection concerns an issue that arose after the opportunities for formal comment; and

(8) All documents referenced in the objection (a bibliography is not sufficient), except that the following need not be provided:

a. All or any part of a federal law or regulation,

b. Forest Service Directive System documents and land management plans or other published Forest Service documents,

c. Documents referenced by the Forest Service in the planning documentation related to the proposal subject to objection, and

d. Formal comments previously provided to the Forest Service by the objector during the plan revision comment period.

It is the responsibility of the objector to ensure that the Reviewing Officer receives the objection in a timely manner. The regulations prohibit

extending the length of the objection filing period.

Proposed New Recreation Fee Sites

AGENCY: Forest Service, Agriculture (USDA).

ACTION: Notice.

SUMMARY: The Willamette National Forest is proposing to establish several new recreation fee sites. Recreation fee revenues collected at the new recreation fee sites would be used for operation, maintenance, and improvement of the sites. An analysis of nearby recreation fee sites with similar amenities shows the recreation fees that would be charged at the new recreation fee sites are reasonable and typical of similar recreation fee sites in the area.

DATES: If approved, the new recreation fees would be implemented no earlier

than six months following the publication of this notice in the **Federal Register**.

ADDRESSES: Willamette National Forest, 3106 Pierce Parkway, Suite D, Springfield, OR 97477.

FOR FURTHER INFORMATION CONTACT: Matt Peterson, Recreation Program Manager, 541-225-6421 or matthew.peterson1@usda.gov.

SUPPLEMENTARY INFORMATION: The Federal Lands Recreation Enhancement Act (16 U.S.C. 6803(b)) requires the Forest Service to publish a six-month advance notice in the **Federal Register** of establishment of new recreation fee sites. In accordance with Forest Service Handbook 2309.13, chapter 30, the Forest Service will publish the proposed new recreation fee sites in local newspapers and other local publications for public comment. Most of the new recreation fee revenues would be spent where they are collected to enhance the visitor experience at the new recreation fee sites.

An expanded amenity recreation fee of \$16 per night and \$6 per extra vehicle would be charged for the Daly Lake, Scott Lake, Harralson Horse Camp, and Skookum Campgrounds. In addition, an expanded amenity recreation fee of \$85 per night would be charged for rental of Marion Forks Guard Station and Gold Lake Cabin.

Expenditures from recreation fee revenues collected at the new recreation fee sites would enhance recreation opportunities, improve customer service, and address maintenance needs. Once public involvement is complete, these new recreation fees will be reviewed by a Resource Advisory Committee prior to a final decision and implementation. Reservations for Daly Lake, Scott Lake, Harralson Horse Camp, and Skookum Campgrounds, Marion Forks Guard Station, and Gold Lake Cabin could be made online at www.recreation.gov or by calling 877-444-6777. Reservations would cost \$8.00 per reservation.
