Foreign Agricultural Service

Title: Dairy Tariff-Rate Import Quota Licensing Regulation.

OMB Control Number: 0551–0001.

Summary of Collection: The Dairy Tariff-Rate Import Quota regulation (7 CFR 6.20–6.37) governs the administration of the import licensing system applicable to most dairy products subject to tariff-rate quotas (TRQs). The importation of most cheese made from cow's milk and certain noncheese dairy articles (butter, dried milks, and butter substitutes) are subject to TRQs and must be accompanied by an import license issued by the Department to enter at the lower tariff. Importers without licenses may enter these dairy articles, but are required to pay the higher tariff.

Each quota year, applicants for historical, non-historical and designated licenses must certify their eligibility for the following quota year through the online Agricultural Trade License Administration System (ATLAS) platform. The ATLAS application process requires applicants to: (1) certify they are an importer, manufacturer, or exporter of certain dairy products; and (2) certify they meet the eligibility requirements of § 6.23 of the Regulation. Applicants for non-historical licenses must request licenses in descending order of preference for specific products and countries listed on the form.

Need and Use of the Information: The information collected will be used by the Foreign Agricultural Service, Dairy Import Licensing Group, in the administration of the tariff-rate import quota licensing system for certain dairy products and the issuance of licenses in accordance with the Regulation. The Regulation requires records pertaining to an applicant's eligibility to be retained for 5 years after the end of a quota year.

Description of Respondents: Importers and manufacturers of cheese and non-cheese dairy products, and exporters of non-cheese dairy products.

Number of Respondents: 700.

Frequency of Responses: Annually.

Total Burden Hours: 394.
