SUPPLEMENTARY INFORMATION: On April 26, 2019, the Office of Management and Budget (OMB) published OMB memorandum M–19–16, “Centralized Mission Support Capabilities for the Federal Government” (available at <https://www.whitehouse.gov/wp-content/uploads/2019/04/M-19-16.pdf>).

Mission support business standards, established and agreed to by the Chief Financial Officer (CFO) Act agencies, using the Federal Integrated Business Framework website at <https://ussm.gsa.gov/fibf/>, enable the Federal Government to better coordinate on the decision-making needed to determine what mission support services can be adopted and commonly shared. These business standards are an essential first step towards agreement on outcomes, data, and cross-functional end-to-end processes that will drive economies of scale and leverage the government’s buying power. The business standards will be used as the foundation for common mission support services shared by the CFO Act agencies.

GSA serves as the real property management business standards lead on the Business Standards Council. The goal of the real property management business standards is to drive real estate management consistency, equity and standardization across the Federal Government.

This year’s updates reflect changes as a result of the business information exchange with the Financial Management shared service functional area and as a result of the environmental scan of recent laws, executive orders and other policy changes. The data elements, scenarios, use cases, and functions, activities and business capabilities artifacts were all updated.

GSA is seeking public feedback on the annual update to the business standards, including comments on the understandability of the standards,

suggested changes and usefulness of the draft standards to industry and agencies.

Guiding questions in the standards development include:

- Do the draft business standards appropriately document the business processes covered?
- Are the draft business standards easy to understand?
- Will your organization be able to show how your solutions or services, or both, can meet these draft business standards?
- What would you change about the draft business standards? Is there anything missing?

Comments will be used in the formulation of the final real property management business standards.

Krystal J. Brumfield,

Associate Administrator, Office of Government-wide Policy, U.S. General Services Administration.

SUPPLEMENTARY INFORMATION: The Privacy Act of 1974, as amended (5 U.S.C. 552a) provides certain protections for individuals applying for and receiving Federal benefits. The law governs the use of computer matching by Federal agencies when records in a system of records (meaning, Federal agency records about individuals retrieved by name or other personal identifier) are matched with records of other Federal or non-Federal agencies. The Privacy Act requires agencies involved in a matching program to:

1. Enter into a written agreement, which must be prepared in accordance with the Privacy Act, approved by the Data Integrity Board of each source and recipient Federal agency, provided to Congress and the Office of Management and Budget (OMB), and made available to the public, as required by 5 U.S.C. 552a(o), (u)(3)(A), and (u)(4).

3. Verify match findings before suspending, terminating, reducing, or making a final denial of an individual's benefits or payments or taking other adverse action against the individual, as required by 5 U.S.C. 552a(p).

4. Report the matching program to Congress and the OMB, in advance and annually, as required by 5 U.S.C. 552a(o)(2)(A)(i), (r), and (u)(3)(D).

5. Publish advance notice of the matching program in the **Federal Register** as required by 5 U.S.C. 552a(e)(12).

This matching program meets these requirements.

Barbara Demopolos,

Privacy Act Officer, Division of Security, Privacy Policy and Governance, Office of Information Technology, Centers for Medicare & Medicaid Services.

PARTICIPATING AGENCIES:

The Department of Health and Human Services (HHS), Centers for Medicare & Medicaid Services (CMS) is the recipient agency, and the Peace Corps is the source agency.

AUTHORITY FOR CONDUCTING THE MATCHING PROGRAM:

The principal authority for the matching program is 42 U.S.C. 18001, *et seq.*

PURPOSE(S):

The purpose of the matching program is to assist CMS in determining individuals' eligibility for financial assistance in paying for private health insurance coverage. In this matching program, the Peace Corps provides CMS with daily files, identifying all Peace Corps volunteers and the dates when each volunteer was eligible for coverage under a Peace Corps health benefit plan, which CMS makes available to state administering entities (AEs) through a data services hub, under a separate matching agreement. CMS and AEs use the Peace Corps data to verify whether an individual who is applying for or is enrolled in private health insurance coverage under a qualified health plan through a federally-facilitated or state-based health insurance exchange is eligible for coverage under a Peace Corps health benefit plan, for the purpose of determining the individual's eligibility for financial assistance (including an advance tax credit and cost sharing reduction, which are types of insurance affordability programs) in paying for private health insurance coverage. Peace Corps health benefit plans provide minimum essential coverage, and eligibility for such plans precludes eligibility for financial assistance in paying for private coverage. The data provided by the Peace Corps under this matching program will be used by CMS and AEs to authenticate identity, determine eligibility for financial assistance, and determine the amount of any financial assistance.

CATEGORIES OF INDIVIDUALS:

The categories of individuals whose information is involved in the matching program are: (1) active and recently separated Peace Corps volunteers, identified in data CMS receives from the

Peace Corps, and (2) consumers who apply for or are enrolled in private insurance coverage under a qualified health plan through a federally-facilitated or state-based health insurance exchange (and other relevant individuals, such as applicants' and enrollees' household members), whose records are matched against the data CMS receives from the Peace Corps.

CATEGORIES OF RECORDS:

The categories of records which will be provided by the Peace Corps to CMS in this matching program are identity records and minimum essential coverage period records, consisting of these data elements: last name, middle initial, first name, and date of birth. CMS will not send any data about individual applicants/enrollees to the Peace Corps in order to receive this data about Peace Corps volunteers.

SYSTEM(S) OF RECORDS:

A. System of Records Maintained by CMS

The applicable CMS system of records is CMS Health Insurance Exchanges System (HIX), CMS System No. 09-70-0560, last published in full at 78 FR 63211 (Oct. 23, 2013), as amended at 83 FR 6591 (Feb. 14, 2018).

B. System of Records Maintained by the Peace Corps

The applicable Peace Corps system of records is PC-17 Peace Corps, Volunteer Applicant and Service Records System, last published in full at 50 FR 1950 (Jan. 14, 1985) and partially amended at 65 FR 63641 (Oct. 24, 2000), 72 FR 44878 (Aug. 9, 2007), 75 FR 53000 (Aug. 30, 2010), and 79 FR 41599 (July 16, 2014). Routine use (i) published at 50 FR 1950 (Jan. 14, 1985), which permits disclosures "to verify active or former volunteer service," authorizes the Peace Corps' disclosures to CMS.
