SUPPLEMENTARY INFORMATION:

I. Abstract

The School District Review Program (SDRP) is a U.S. Department of Education National Center for Education Statistics (NCES) sponsored program conducted annually by the U.S. Census Bureau. It is of vital importance for each state's allocation under title I of the Elementary and Secondary Education Act as amended by Every Student Succeeds Act of 2015, Public Law 114–95. School district information submitted through this program, along with the decennial census population, Small Area Income and Poverty Estimates, and current population estimates, are used in forming the Census Bureau's estimates of the number of children ages 5 through 17 in families in poverty for each school district. The U.S. Department of Education uses these estimates to

allocate more than \$16 billion annually in Title I funds.

The SDRP encompasses the review of Type 1, Type 2, and Type 3 school districts as defined by the NCES. Type 1 is a local school district that is not a component of a supervisory union. Type 2 is a local school district component of a supervisory union sharing a superintendent and administrative services with other local school districts. Type 3 is an education agency that performs administrative services for more than one school district, providing a common superintendent for participating districts.

Respondents to the SDRP are the mapping coordinators and Title I Coordinators from the fifty states and the District of Columbia. NCES also anticipates the inclusion of the Commonwealth of Puerto Rico in the next three years. Mapping coordinators are designated by the state departments of education and are tasked with reviewing and providing updates for school district boundaries, federal school district local education agency codes, names, grade ranges, and levels to the Census Bureau. Title I Coordinators are responsible for overseeing the SDRP and reviewing all materials.

There are two phases to the SDRP: the Annotation Phase and Verification Phase. During the Annotation Phase, the Census Bureau provides mapping coordinators with materials containing the latest school district boundaries and school district information that the Census Bureau has on file for their state. Mapping coordinators review the data and submit any changes to the Census Bureau. The Census Bureau reviews and processes the information submitted by the mapping coordinator and updates the Master Address File/Topologically Integrated Geographic Encoding and Reference (MAF/TIGER) System. During the Verification Phase, mapping coordinators verify that the Census Bureau updated the MAF/TIGER System accurately and completely with updates submitted during the Annotation Phase.

II. Method of Collection

Annotation Phase

In the Annotation Phase, mapping coordinators gather school district updates from sources within the state, *e.g.*, local school district officials, counties, and state agencies. They use Census Bureau-provided materials to review and update school district boundaries, names, codes, and geographic relationships. The Census Bureau provides mapping coordinators with school district listings, spatial data

in Esri shapefile format, blank submission logs, and Geographic Update Partnership Software (GUPS). The school district listings consist of school district inventories, school district names, levels, grade ranges, and other data about school districts within their state. If the mapping coordinator has non-spatial updates (*e.g.*, name changes, simple consolidations, simple dissolutions, and others), the mapping coordinator updates the Census Bureau provided submission log with those changes. If a mapping coordinator needs to perform spatial updates to a school district boundary, the mapping coordinator uses Census Bureau provided GUPS and spatial data to make updates. GUPS is a free, customized geographic information system application provided by the Census Bureau for mapping coordinators. It is available on the web and as a standalone application that can be installed by a user and contains all functionality necessary for mapping coordinators to make and validate their spatial school district updates. Once mapping coordinators have reviewed and updated the school district information for their state, the mapping coordinator sends it to the Census Bureau, using the Secure Web Incoming Module, the Census Bureau's online application for uploading SDRP submissions. The Census Bureau will update the MAF/TIGER System with the updates sent by the mapping coordinator.

Schedule

- The SDRP Annotation Phase begins in September of each year.
- The SDRP Annotation Phase submission deadline is the last workday in December of each year.

Verification Phase

In the Verification Phase, the Census Bureau sends mapping coordinators newly created listings and digital files, and mapping coordinators use the SDRP verification module in GUPS to review these files and verify that the Census Bureau correctly captured their submitted information. The mapping coordinator can tag the area of issue and send the information to the Census Bureau to make corrections if the Census Bureau did not incorporate their boundary changes or other updates correctly. The Census Bureau does not accept new changes during the Verification Phase.

Schedule

- The SDRP Verification Phase begins and ends in April of each year.

Feedback

The Census Bureau may solicit feedback from respondents to improve the administration of the program and potentially reduce the future burden. Respondents may be asked to provide feedback on materials, manner of data collection, manner of respondent communications, and the usability of our program applications and tools.

Interested parties are invited to comment on these preliminary results.

SUPPLEMENTARY INFORMATION:

Background

On November 27, 2019, Commerce published the antidumping duty order

on strontium chromate from Austria.¹ On January 3, 2023, in accordance with 19 CFR 351.221(c)(1)(i), Commerce published the initiation of an administrative review of the *Order*, covering one producer/exporter, Habich.²

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), on July 24, 2023, Commerce determined that it was not practicable to complete the preliminary results of this review within 245 days and extended the deadline for the preliminary results of this review until November 30, 2023.³

For a detailed description of the events that followed the initiation of this review, see the Preliminary Decision Memorandum.⁴ A list of topics discussed in the Preliminary Decision Memorandum is attached as an appendix to this notice. The Preliminary Decision Memorandum is a public document and is available via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Scope of the Order

The merchandise covered by the *Order* is strontium chromate, regardless of form (including but not limited to, powder (sometimes known as granular), dispersions (sometimes known as paste), or in any solution). Methodology

Commerce is conducting this administrative review in accordance with section 751(a) of the Act. For a full description of the methodology underlying these preliminary results, see the Preliminary Decision Memorandum.

Preliminary Results of Review

We preliminarily determine the following weighted-average dumping margin exists for the period November 1, 2021, through October 31, 2022:

Exporter/producer	Weighted-average dumping margin (percent)
Habich GmbH	0.00 (<i>de minimis</i>)

Verification

On April 13, 2023, WPC Technologies (the petitioner) timely requested that Commerce conduct verification of Habich's questionnaire responses.⁵ Moreover, no verification was conducted during the two immediately preceding reviews of Habich. Therefore, Commerce intends to verify the information that Commerce relies upon for the final results of this review with respect to Habich, as provided in section 782(i)(3) of the Act.
