SUPPLEMENTARY INFORMATION:

I. Background

The BLS enters into Cooperative Agreements with State Workforce Agencies (SWAs) annually to provide financial assistance to the SWAs for the production and operation of the following LMI statistical programs: Current Employment Statistics, Local Area Unemployment Statistics, Occupational Employment Statistics, and Quarterly Census of Employment and Wages. The Cooperative Agreement provides the basis for managing the administrative and financial aspects of these programs.

The existing collection of information allows Federal staff to negotiate the

Cooperative Agreement with the SWAs and monitor their financial and programmatic performance and adherence to administrative requirements imposed by the *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (2 CFR 200) and other grant related regulations. The information collected also is used for planning and budgeting at the Federal level and in meeting Federal reporting requirements.

II. Current Action

Office of Management and Budget clearance is being sought for the LMI Cooperative Agreement application package. The extension of this collection of information will allow the BLS to incorporate routine annual updates to the Cooperative Agreement and work statements which define SWA deliverables and requirements and allow the BLS to carry out its responsibilities to monitor financial and programmatic performance.

The Cooperative Agreement application package being submitted for approval is representative of the package sent every year to state agencies. The work statements included in the Cooperative Agreement application also are representative of what is included in the whole LMI Cooperative Agreement package. The final Cooperative Agreement, including the work statements, will be submitted separately to the Office of Management

and Budget for review of any minor year-to-year information collection burden changes they may contain.

III. Desired Focus of Comments

The BLS is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Abstract: The authority for this information collection is contained in 36 CFR 1233.18(d). In accordance with rules issued by the Department of Defense (DOD) and Department of Homeland Security (DHS, US Coast Guard), the National Personnel Records Center (NPRC) of the National Archives and Records Administration (NARA) administers military service records of veterans after discharge, retirement, and death. When veterans and other authorized individuals request information from or copies of documents in military service records, they must provide in forms or in letters certain information about the veteran and the nature of the request. Federal agencies, military departments, veterans, veterans’ organizations, and the general public use Standard Forms (SF) 180, Request Pertaining to Military Records, in order to obtain information from military service records stored at NPRC. Veterans and next-of-kin of deceased veterans can also use eVetRecs (<http://www.archives.gov/research/room/vetrecs/>) to order copies. NA Form 13176, Status Update to Request for Military Service Records, was added to allow the veteran or other authorized individuals to follow-up on their request.
