SUPPLEMENTARY INFORMATION:

Background

The National Action Plan to Combat Human Trafficking (available at: <https://www.whitehouse.gov/wp-content/uploads/2021/12/National-Action-Plan-to-Combat-Human-Trafficking.pdf>) Priority Action 1.3.1 calls on the Chief Acquisition Officers to support a public outreach session hosted by the SPOG Procurement and Supply Chains Committee (the Committee) for contracting companies, non-governmental organizations, international partners, associates of State, local, Tribal, and Territorial officials, and any interested parties to build understanding and awareness about the anti-trafficking requirements of the FAR. Policy officials from the Committee will review recent efforts to prevent and address human trafficking in Federal supply chains and invite

members of the public to provide input on ways to strengthen implementation of anti-trafficking requirements in Federal acquisition.

The first public meeting was held in January 2023 (88 FR 863). This will be the second public meeting and topics will include, but not be limited to the following: (1) experience with OMB Memorandum M-20-01, Anti-Trafficking Risk Management Best Practices & Mitigation Considerations, (2) trainings and resources for government and contractors, (3) using internal government findings, such as the Department of Labor's List of Products Produced by Forced or Indentured Child Labor, to assist in analyzing supply chains, and (4) developments in combating trafficking in global supply chains that would be helpful to apply to Federal procurement.

Additionally, we are particularly interested in hearing from stakeholders regarding the following anti-trafficking related efforts:

1. Promising practices in creating a supply chain due diligence program, including implementing a compliance plan to prevent and address the prohibited activities listed in FAR 52.222-50;
2. Successful awareness and training programs that inform employees about the FAR's prohibitions against trafficking-related activities;
3. Increasing the ability of workers to report violations and suspected violations; and
4. Examples of effective remediation.
