Title of Collection: Comprehensive Literacy State Development (CLSD) Annual Performance Report.

OMB Control Number: 1810-NEW.

Type of Review: New ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 58.

Total Estimated Number of Annual Burden Hours: 638.

Abstract: The Comprehensive Literacy State Development (CLSD) program is authorized under the Elementary and Secondary Education Act of 1965, as amended (ESEA), Sections 2222-2225. The CLSD program awards competitive grants to advance literacy skills—using evidence-based practices, activities, and interventions, including preliteracy skills, reading, and writing—for children from birth through grade 12, with an emphasis on disadvantaged children, including children living in poverty, English learners, and children with disabilities. Eligible entities include the state education agencies (SEAs) of the 50 states, the District of Columbia, and Puerto Rico. Additionally, directed awards are made to four (4) Outlying Areas: American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the U.S. Virgin Islands. A portion of funds is also awarded directly to the Bureau of Indian Education.

CLSD requires that at least 95% of funds awarded to SEAs be distributed to local education agencies through a subgrant award process. However, the current OMB-approved ED generic grant performance report does not include fields to capture program (subgrantee) demographic data or performance measures to ensure grantees are meeting statutory and regulatory requirements and making progress toward meeting the goals and objectives of their approved projects. The proposed performance report metrics reflect the need to collect pertinent grantee- and subgrantee-level data that could be used to guide future program policy and practice and respond to stakeholder, congressional, and agency inquiries. Thus, the CLSD program staff would better understand whom they serve, programmatic needs, strategies to meet those needs, and how collecting program-level data would benefit the students and support their learning. The new CLSD performance report metrics would (a) collect programmatic data that demonstrate aggregate program-level impact; (b) provide subgrantees' aggregated data, such as the number of students and professionals served, how funds have been used (e.g., professional learning, curricular materials), and staffing; and (c) provide the CLSD program staff the data to report the performance and outcomes of the CLSD program, at both the grantee and the subgrantee levels. These new measures also would help to add specificity to ED's monitoring efforts.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Privacy Act of 1974; System of Records

AGENCY: U.S. Department of Energy.

ACTION: Notice of a modified system of records.

SUMMARY: As required by the Privacy Act of 1974 and the Office of Management and Budget (OMB) Circulars A-108 and A-130, the Department of Energy (DOE or the Department) is publishing notice of a modification to an existing Privacy Act System of Records. DOE proposes to amend System of Records DOE-1

Grievance Records. This System of Records Notice (SORN) is being modified to align with new formatting requirements, published by the Office of Management and Budget, and to ensure appropriate Privacy Act coverage of business processes and Privacy Act information. While there are no substantive changes to the "Categories of Individuals" or "Categories of Records" sections covered by this SORN, substantive changes have been made to the "System Locations," "Routine Uses," and "Administrative, Technical and Physical Safeguards" sections to provide greater transparency. Changes to "Routine Uses" include new provisions related to responding to breaches of information held under a Privacy Act SORN as required by OMB's Memorandum M-17-12, "Preparing for and Responding to a Breach of Personally Identifiable Information" (January 3, 2017). Language throughout the SORN has been updated to align with applicable Federal privacy laws, policies, procedures, and best practices.

DATES: This modified SORN will become applicable following the end of the public comment period on January 18, 2024 unless comments are received that result in a contrary determination.

ADDRESSES: Written comments should be sent to the DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW, Washington, DC 20503 and to Ken Hunt, Chief Privacy Officer, U.S. Department of Energy, 1000 Independence Avenue SW, Rm 8H-085, Washington, DC 20585 or by facsimile at (202) 586-8151 or by email at privacy@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Ken Hunt, Chief Privacy Officer, U.S. Department of Energy, 1000 Independence Avenue SW, Rm 8H-085, Washington, DC 20585 or by facsimile at (202) 586-8151 or by email at privacy@hq.doe.gov, telephone: (240) 686-9485.

SUPPLEMENTARY INFORMATION: On January 9, 2009, DOE published a Compilation of its Privacy Act Systems of Records, which included System of Records DOE-1 Grievance Records. This notice proposes amendments to the System Locations section of that System of Records by removing System Locations where DOE-1 is no longer applicable. These locations are as follows: Alaska Power Administration, Environmental Consolidated Business Center, Southeastern Power Administration, the Office of Repository Development, and all National Nuclear Security Administration (NNSA) sites. Addresses for the National Energy

Technology Laboratory's (NETL) sites in Pittsburgh, Morgantown, and Albany have been updated. Addresses for NETL's sites in Oklahoma and Alaska have been removed as they no longer require coverage. Finally, the Office of River Protection, Richland Operations Office, and Southwestern Power Administration addresses have been updated. The system manager's office title has been changed to "Office of Policy, Labor and Employee Relations." The data element "Social Security numbers" has been removed from the "Categories of Records in the System" and "employee identification numbers" has been added. In the "Routine Uses" section, this modified notice deletes a previous routine use concerning efforts responding to a suspected or confirmed loss of confidentiality of information as it appears in DOE's compilation of its Privacy Act Systems of Records (January 9, 2009) and replaces it with one to assist DOE with responding to a suspected or confirmed breach of its records of Personally Identifiable Information (PII), modeled with language from OMB's Memorandum M-17-12, "Preparing for and Responding to a Breach of Personally Identifiable Information" (January 3, 2017). Further, this notice adds one new routine use to ensure that DOE may assist another agency or entity in responding to the other agency's or entity's confirmed or suspected breach of PII, as appropriate, as aligned with OMB's Memorandum M-17-12. An administrative change required by the Freedom of Information Act (FOIA) Improvement Act of 2016 extends the length of time a requestor is permitted to file an appeal under the Privacy Act from 30 to 90 days. Both the "System Locations" and "Administrative, Technical and Physical Safeguards" sections have been modified to reflect the Department's usage of cloud-based services for records storage. Language throughout the SORN has been updated to align with applicable Federal privacy laws, policies, procedures, and best practices.
