

phone number or unique identifiers associated with a device is collected. Software-based tools and online tools exist that can test consumer's broadband connections, including a set of consumer tools launched by the FCC in conjunction with the National Broadband Plan. However, these tools track speeds experienced by consumers, rather than speeds delivered directly to a consumer by an ISP. The distinction is important for supporting Agency broadband policy analysis, as ISPs advertise speeds and performance delivered rather than speeds experienced, which suffers from degradation outside of an ISP's control. No other dedicated panel of direct fixed and mobile broadband performance measurement using publicly documented methodologies using free and add-free technologies exists today in the country. The program will continue to support existing software-based tools and online tools but the focus of the program will remain the direct measurement of broadband performance delivered to the consumer. The collection effort also has specific elements focused on further network performance statistics, time of day parameters, and other elements affecting consumers' broadband experience that are not tracked elsewhere. The information to be confirmed by ISP Partners about their subscribers or technical and market data regarding the broadband services they provide is unavailable from other sources.

BILLING CODE 6712-01-P

FEDERAL MARITIME COMMISSION

[Docket No. 23-14]

D.F. Young, Incorporated, Complainant v. Wallenius Wilhelmsen Logistics, Respondent; Notice of Filing of Complaint and Assignment

Served: December 13, 2023.

Notice is given that a complaint has been filed with the Federal Maritime Commission (the "Commission") by D.F. Young, Incorporated (the "Complainant") against Wallenius Wilhelmsen Logistics (the "Respondent"). Complainant states that the Commission has jurisdiction over the complaint pursuant to 46 U.S.C. 41301, 40904, 41102, and 41104 and 46 CFR 515.42.

Complainant is a corporation organized and existing under the laws of

Pennsylvania with a principal place of business in Berwyn, Pennsylvania and is in the business of providing services as an ocean transportation intermediary and operates as a non-vessel operating common carrier.

Complainant identifies Respondent as a corporation organized and existing under the laws of New York with a principal place of business in Parsippany, New Jersey and as a common carrier of goods by water for hire.

Complainant alleges that Respondent violated 46 U.S.C. 41102 and 46 CFR 515.42 regarding a failure to establish, observe, and enforce just and reasonable practices relating to receiving, handling, storing, and delivering property and a failure to pay compensation when the common carrier's tariff provides for such payment. Complainant alleges these violations arose from a refusal to compensate for freight forwarding services on shipments of automobiles in accordance with the terms of the applicable tariff following demand for such compensation.

An answer to the complaint must be filed with the Commission within 25 days after the date of service.

The full text of the complaint can be found in the Commission's electronic Reading Room at <https://www2.fmc.gov/readingroom/proceeding/23-14/>. This proceeding has been assigned to the Office of Administrative Law Judges. The initial decision of the presiding judge shall be issued by December 13, 2024, and the final decision of the Commission shall be issued by June 27, 2025.

Alanna Beck,

Federal Register Alternate Liaison Officer, Federal Maritime Commission.
