In 2021, the Commission released the Third Report and Order, Order on Reconsideration, and Fifth Further Notice of Proposed Rulemaking (FNPRM) WC Docket No. 12–375, 36 FCC Rcd 9519 (2021). The Commission revised its rules by adopting, among other things, lower interim rate caps for interstate calls, new interim rate caps for international calls, and a new rate cap structure that requires ICS providers to differentiate between legally mandated and contractually required site commissions. The revisions also included expanded consumer disclosure requirements, as well as new reporting requirements for providers seeking waivers of the Commission’s interstate and international rates.

In 2022, the Commission released the Fourth Report and Order and Sixth Further Notice of Proposed Rulemaking, WC Docket No. 12–375, FCC 22–76 (September 30, 2022). The Commission adopted numerous requirements to improve access to communications services for incarcerated people with communication disabilities and expanded the scope of the Annual Reports to reflect these new requirements. Pursuant to § 64.6040(c), the Commission required, among other things, that, as part of its obligation to provide access to telecommunications relay services (TRS), when an incarcerated person who has individually registered to use video relay service (VRS), internet protocol (IP) Relay, or internet protocol captioned telephone service (IP CTS) is released from incarceration or transferred to another correctional facility, the ICS provider must notify the TRS provider(s) with which the incarcerated person has registered. Under section § 64.6060(a)(5) through (7), the Commission amended the annual reporting and certification requirement to include, among other things, that ICS providers report, for each facility served, the types of TRS that can be accessed from the facility and the number of completed calls and complaints for TTY-to-TTY calls, American Sign Language (SL) point-to-point video calls, and each type of TRS for which access is provided.

On January 5, 2023, the President signed into law the Martha Wright-Reed Just and Reasonable Communications Act of 2022, Public Law 117–338, 136

Stat. 6156 (the Martha Wright-Reed Act or the Act), expanding the Commission’s statutory authority over communications services between incarcerated people and the non-incarcerated to include “any audio or video communications service used by inmates . . . regardless of the technology used.” The new Act also amends section 2(b) of the Communications Act of 1934, as amended (the Communications Act) to make clear that the Commission’s authority extends to intrastate as well as interstate and international communications services used by incarcerated people.

The Act directs the Commission to “promulgate any regulations necessary to implement” the statutory provisions, including its mandate that the Commission establish a “compensation plan” ensuring that all rates and charges for IPCS “are just and reasonable,” not earlier than 18 months and not later than 24 months after its January 5, 2023, enactment. The Act also requires the Commission to consider, as part of its implementation, the costs of “necessary” safety and security measures, as well as “differences in costs” based on facility size, or “other characteristics.” It also allows the Commission to “use industry-wide average costs of telephone service and advanced communications services and the average costs of service of a communications service provider” in determining just and reasonable rates.

On March 17, 2023, pursuant to the directive that the Commission implement the new Act and establish just and reasonable rates for incarcerated people’s communications services (IPCS), the Commission released *Incarcerated People’s Communications Services; Implementation of the Martha Wright-Reed Act; Rates for Interstate Inmate Calling Services*, WC Docket Nos. 23–62, 12–375, Notice of Proposed Rulemaking and Order, FCC 23–19, 88 FR 20804 (2023 IPCS Notice) and 88 FR 19001 (Order) (2023 IPCS Order). The Commission sought comment on how to interpret the Act’s language to ensure that the Commission implements the statute in a manner that fulfills Congress’s intent. Because the Commission is now required or allowed to consider certain types of costs, the Act contemplates that it would undertake an additional data collection. To ensure that it has the data necessary to meet its substantive and procedural responsibilities under the Act, the Commission adopted the 2023 IPCS Order delegating authority to WCB and the Office of Economics and Analytics

(OEA) to modify the template and instructions for the most recent data collection to the extent appropriate to timely collect such information to cover the additional services and providers now subject to the Commission's authority. On April 28, 2023, WCB and OEA issued a Public Notice seeking comment on all aspects of the proposed data collection. *WCB and OEA Seek Comment on Proposed 2023 Mandatory Data Collection for Incarcerated People's Communication Services*, WC Docket Nos. 23–62, 12–375, Public Notice, DA 23–355 (WCB/OEA April 28, 2023). On July 26, 2023, WCB and OEA released an Order adopting instructions, a reporting template, and a certification form to implement the 2023 Mandatory Data Collection. *Incarcerated People's Communications Services; Implementation of the Martha Wright-Reed Act, Rates for Interstate Inmate Calling Services*, WC Docket Nos. 23–62, 12–375, Order, DA 23–638 (July 26, 2023). In the 2023 IPCS Order, the Commission also reaffirmed and updated its prior delegation of authority to WCB and the Consumer and Governmental Affairs Bureau (CGB) (collectively, the Bureaus) to revise the instructions and reporting templates for the Annual Reports. Specifically, the Commission delegated to the Bureaus the authority to modify, supplement, and update the instructions and templates for the Annual Reports.

On August 3, 2023, the Bureaus issued a Public Notice seeking comment on proposed revisions to the instructions, template, and certification form for the Annual Reports, <https://www.fcc.gov/proposed-2023-ipc-annual-reports>, which are necessary to reflect the revised rules improving access to communications services for incarcerated people with communication disabilities adopted in the 2022 ICS Order and to help implement the Martha Wright-Reed Act to ensure just and reasonable rates for consumers and fair compensation for providers. *Wireline Competition Bureau and Consumer and Governmental Affairs Bureau Seek Comment on Revisions to IPCS Providers' Annual Reporting and Certification Requirements*, Public Notice, WC Docket Nos. 23–62, 12–375, DA 23–656 (August 3, 2023). <https://www.fcc.gov/document/2023-incarcerated-peoples-communications-services-annual-reports-pn>. Notice of this document was published in the **Federal Register** at 88 FR 53850 on August 9, 2023.

The Bureaus have not yet issued an Order adopting revisions to the instructions, template, and certification form for the Annual Reports. To

effectuate the improved access to communications services for incarcerated people with communication disabilities required by § 64.6040(c) of the Commission's rules, the Bureaus divided the information requirements and burdens of this information collection into two PRA submissions to OMB, with the first seeking approval of the new information requirements associated with § 64.6040(c) of the Commission's rules. OMB approved the revised information collection on December 14, 2023. Upon release of an Order adopting revisions to the instructions, template, and certification form for the Annual Reports, the Bureaus will seek OMB approval of any revised information requirements adopted in that Order, as well as the new information requirements in § 64.6060(a)(5) through (7), which expands the rule requiring the filing of Annual Reports to include additional data related to access to communications services for incarcerated people with communication disabilities.

[Docket No. 231222–0315]

RIN 0648–BL98

Snapper-Grouper Fishery of the South Atlantic Region; Golden Crab Fishery of the South Atlantic Region; Dolphin and Wahoo Fishery of the Atlantic; Acceptable Biological Catch Control Rules

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues regulations to implement amendments to the Fishery Management Plans (FMPs) for the Snapper-Grouper Fishery, the Golden Crab Fishery, and the Dolphin and Wahoo Fishery, referenced here as the Acceptable Biological Catch (ABC) Control Rule Amendments. This final rule modifies the ABC control rules, allows the phase-in of subsequent ABC

changes, allows some carry-over of an unharvested portion of the annual catch limit (ACL) to the following fishing year, and modifies the FMP framework procedures to implement carry-overs of ACLs when appropriate. NMFS also implements an administrative clarification to existing regulations for the Snapper-Grouper FMP framework procedure. The purpose of this final rule is to ensure catch level recommendations are based on the best scientific information available, prevent overfishing while achieving optimum yield, and increase flexibility in setting catch limits.

DATES: This final rule is effective February 2, 2024.

ADDRESSES: An electronic copy of the ABC Control Rule Amendments, which includes an environmental assessment, a fishery impact statement, and a regulatory impact review, may be obtained from the NMFS Southeast Regional Office website at <https://www.fisheries.noaa.gov/action/comprehensive-acceptable-biological-catch-abc-control-rule-amendment-revisions-abc-control>.

SUPPLEMENTARY INFORMATION: The South Atlantic snapper-grouper and golden crab fisheries are managed under the Snapper-Grouper FMP and Golden Crab FMP, respectively. The dolphin and wahoo fishery of the Atlantic is managed under the Dolphin and Wahoo FMP. These 3 FMPs were prepared by the South Atlantic Fishery Management Council (Council) and are implemented by NMFS through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Council has developed, and NMFS has approved, the Comprehensive Acceptable Biological Catch Control Rule Amendment: Revisions to the Acceptable Biological Catch Control Rules and Specifications for Carry-Overs and Phase-Ins. The Council document is composed of Amendment 45 to the Snapper-Grouper FMP, Amendment 11 to the Golden Crab FMP, and Amendment 11 to the Dolphin and Wahoo FMP.

Background

The Magnuson-Stevens Act requires that NMFS and the regional fishery management councils prevent overfishing and achieve, on a continuing basis, the optimum yield from federally managed fish stocks. These mandates are intended to ensure
