SUPPLEMENTARY INFORMATION: HUD, Office of the Chief Financial Officer (OCFO) maintains the “HUD Remittance and Debt Collection (HRDC)” system of records. HRDC allows data from multiple sources to be integrated into a single store. It tracks remittances and debts along with debtor information to facilitate debt servicing and posting transactions in the general ledger. Information is collected from multiple sources. OCFO Accounting Operations Center collects via encrypted email, paper/mail, official form (sent via mail/encrypted email), and/or federal (public) information system. The gathered researched data is then entered into the Remittance Management and Debt Tracking database.

The Debt Tracking sources are Program Office Action Officials (Repayment Agreements), Office of the Inspector General, District Courts (Judgment in a Criminal Case), and the Public Access to Court Electronic Records (PACER) System.

The Remittance Management sources are Treasury’s Collection Information Repository (CIR) which includes Fedwire—Federal Reserve Bank of New York, Electronic Check Processing (ECP)—Lockboxes, and *Pay.gov*; and Treasury’s Intra-governmental Payments and Collections (IPAC) System.

Restoration Planning To Address 1999 Oregon-Washington Coast Mystery Oil Spill

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent to conduct restoration planning.

SUMMARY: Notice is hereby given of the trustees' (Department of the Interior, and Washington Department of Fish and Wildlife) intent to proceed with restoration planning actions to address injuries to natural resources resulting from the discharge of oil associated with

a 1999 mystery spill along the northern Oregon and southern Washington coastline. The purpose of this restoration planning effort is to assess injuries to natural resources resulting from the spill and develop and implement a plan for the restoration of these injured resources.

FOR FURTHER INFORMATION CONTACT: For further information, contact the following trustee representatives: Mike Szumski (U.S. Fish and Wildlife Service), via email at Mike_Szumski@fws.gov or via phone at 541-867-4550, or Donald Noviello (Washington Department of Fish and Wildlife), via email at Donald.Noviello@dfw.wa.gov or via phone at 360-280-9376. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:**Background**

On March 4, 1999, Federal and State natural resource agencies received reports of tarballs and oiled birds coming ashore on beaches in northern Oregon and southern Washington. The event lasted several days, during which response crews collected the carcasses of 272 seabirds, primarily rhinoceros auklets (*Cerorhinca monocerata*), Cassin's auklets (*Ptychoramphus aleuticus*), common murre (*Uria aalge*), and northern fulmars (*Fulmarus glacialis*). At the time, the trustees were responding to the *New Carissa* oil spill, which had occurred 120 miles to the south, near Waldport, Oregon. The *New Carissa* was initially suspected as the source of the spill, but chemical analysis of tarballs and oiled bird feathers indicated that the oil in the northern Oregon and southern Washington area did not match the *New Carissa* source samples. The vessel responsible for the spill was never identified. Therefore, we are referring to the northern Oregon/southern Washington spill as the Oregon-Washington Coast Mystery Spill (or incident).

Under the Oil Pollution Act of 1990 (OPA; 33 U.S.C. 2701 *et seq.*), and in accordance with the provisions of regulations in title 15 of the Code of Federal Regulations (CFR) at §§ 990.42 and 990.44 (15 CFR 990.42 and 990.44), the trustees are initiating a natural resource damage assessment (NRDA),

which will include injury assessment and restoration planning for the incident.

The purpose of the OPA is to make the environment and public whole for injuries to natural resources and services resulting from an incident involving a discharge of oil. Pursuant to section 1006(b) of OPA (33 U.S.C. 2706(b)), the Department of the Interior (U.S. Fish and Wildlife Service) and the State of Washington (Washington Department of Fish and Wildlife) are joint trustees (trustees) for natural resources injured by the incident. Per section 1006 of OPA (33 U.S.C. 2706), the trustees are authorized to assess the type and extent of injury to natural resources from an oil spill and then develop a plan that will restore injured resources back to baseline, a process known as restoration planning. With this **Federal Register** notice, the trustees announce their intent to assess the injuries and damages to natural resources caused by the incident and prepare a plan for the restoration of those resources (damage assessment/restoration plan).

The NRDA process will identify and quantify the nature and extent (both temporal and spatial) of injuries to natural resources and resource services arising out of the incident, and enable the trustees to develop plans for the restoration, replacement, or rehabilitation of those injured resources, or for the acquisition of equivalent resources or resource services. The assessment will be conducted pursuant to the regulations for NRDA at 15 CFR part 990. The NRDA will address natural resources and resource services, primarily bird injury, along the northern Oregon and southern Washington coastline for which injuries attributable to the incident have been, or can be, determined.

Section 1006 of the OPA, 33 U.S.C. 2706, authorizes the trustees to seek damages from the responsible party to pay for the implementation of the restoration plan. In the event that a viable responsible party cannot be identified, the trustees are authorized (33 U.S.C. 1321) to seek funding for natural resource damage claims for damage costs from the Oil Spill Liability Trust Fund (OSLTF), which is administered by the U.S. Coast Guard National Pollution Funds Center (Center). The trustees are proceeding in accordance with the regulations for NRDA at 15 CFR part 990, and plan to seek funding from the Center for costs associated with the Oregon-Washington Coast Mystery Spill NRDA and restoration.
