**Abstract:** The USGS produces and releases forecasts for earthquake aftershocks following damaging earthquakes in an automated manner. Currently, these forecasts are communicated to the public and to specialized users in the form of text and tables. The aim of this project is to produce graphics and maps for aftershock forecasts that can best serve user needs and ensure their usability through online user testing. In this information collection, the USGS will ask users questions about the forecast using a variety of graphical representations. This will help identify how different graphics affect how users understand and use aftershock forecast information. The results of this user testing will improve the way the USGS communicates aftershock forecasts to the public.

**Title of Collection:** User testing of graphics for USGS aftershock forecasts.

#### Notice of Intent To Amend the Carson City Field Office Consolidated Resource Management Plan and Prepare an Associated Environmental Assessment for the Dodge Flat II Solar Energy Center in Washoe County, NV

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of intent.

**SUMMARY:** In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) Nevada State Director intends to prepare a resource management plan (RMP) amendment with an associated Environmental Assessment for the Dodge Flat II Solar Energy Center and by this notice is announcing the beginning of the scoping period to solicit public comments and identify issues, and is providing the planning criteria for public review.

**DATES:** The BLM requests the public submit comments concerning the scope of the analysis, potential alternatives, and identification of relevant information and studies by February 20, 2024. To afford the BLM the opportunity to consider issues raised by the public, please ensure your comments are received prior to the close of the 30-day scoping period.

**ADDRESSES:** You may submit comments on issues and planning criteria related to the Dodge Flat II Solar Energy Center by any of the following methods:

- **Website:** <https://eplanning.blm.gov/eplanning-ui/project/2027081/510>.
- **Email:** [BLM\\_NV\\_CCDO\\_Dodge\\_Flat\\_Solar@blm.gov](mailto:BLM_NV_CCDO_Dodge_Flat_Solar@blm.gov).
- **Mail:** BLM, Carson City District Office, Attn: Dodge Flat II Solar Energy

Center, 5665 Morgan Mill Rd., Carson City, NV 89701.

Documents pertinent to this proposal may be examined online at <https://eplanning.blm.gov/eplanning-ui/project/2027081/510> and at the Carson City District Office.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** This document provides notice that the BLM Nevada State Director intends to prepare an RMP amendment with an associated Environmental Assessment for the Dodge Flat II Solar Energy Center, announces the beginning of the scoping process, and seeks public input on issues and planning criteria. The RMP amendment is being considered to allow the BLM to evaluate the use of approximately 71 acres of public land that are identified as “exclusion lands” in the 2012 “Final Programmatic Environmental Impact Statement for Solar Energy Development in Six Southwestern States (Arizona, California, Colorado, Nevada, New Mexico, and Utah)” (Solar Programmatic EIS) Record of Decision due to slope criteria. The use of these exclusion lands for solar power generation would require amending the existing 2001 Carson City Field Office Consolidated Resource Management Plan, as amended by the Solar Programmatic EIS Record of Decision. The planning area is located in Washoe County, Nevada, and encompasses approximately 700 acres of public land. The scope of this land use planning process does not include addressing the evaluation or designation of Areas of Critical Environmental Concern (ACECs), and the BLM is not considering ACEC nominations as part of this process.

#### Purpose and Need

The BLM’s purpose for this Federal action is to respond to the right-of-way application submitted under Title V of the FLPMA (43 U.S.C. 1761), and to amend the slope management direction in the 2001 Carson City Field Office
