SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS), Alaska Regional Office, is requesting renewal of the currently approved information collection for the Commercial Operator's Annual Report (COAR).

The COAR is a State of Alaska report that is required to be completed and submitted by direct marketers, catcher processors, catcher exporters, buyer exporters, shore-based processors, and floating processor permit holders pursuant to Alaska Administrative Code (5 AAC 39.130) and Federal regulations at 50 CFR 679. Under 50 CFR 679.5(p), NMFS requires motherships and catcher processors that are issued a Federal fisheries permit to annually complete and submit the appropriate sections of the COAR.

The COAR is used to gather statewide fish and shellfish information describing buying (ex-vessel) and production (wholesale or retail) activities. The information collected in the COAR is used to determine the value of Alaska's fisheries resources and products. NMFS uses the COAR database in annual Federal publications on the value of U.S. commercial fisheries, in the annual NMFS Stock
