

in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of title 44 generally requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the OCC is publishing notice of the renewal of this collection.

The OCC is requesting to extend the approval of the following information collection:

Title: Examination Survey.

OMB Control No.: 1557-0199.

Affected Public: Businesses or other for-profit.

Type of Review: Regular.

Abstract: The OCC provides each national bank, Federal savings association, and Federal branch or agency (bank) with an Examination Survey at the end of its supervisory cycle (12- or 18-month period). This information collection permits banks to assess the OCC's bank supervisory activities, including the:

- Effectiveness of OCC communications with the bank;
- Reasonableness of OCC requests for data and information;
- Quality of OCC decision making during the exam process;
- Professionalism of OCC examining staff; and
- Responsiveness of OCC examiners.

The OCC developed the survey in 1994, at the suggestion of banking industry members who expressed a desire to provide examination-related feedback to the OCC. The Comptroller of the Currency and OCC supervisory staff considered that expressed desire and concurred. The information collection continues to be an important tool for the OCC to measure OCC examination performance, design more efficient and effective examinations, and target examiner training.

This information collection continues to formalize and promote a long-standing OCC program. The OCC always has given the institutions it supervises the opportunity to provide input regarding the examination process.

Estimated Burden:

Estimated Number of Respondents: 542.

Estimated Number of Responses per Respondent: 1.

Estimated Annual Burden: 90 hours.

Comments submitted in response to this notice will be summarized and

included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the information collection burden;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and
