

NATIONAL SCIENCE FOUNDATION**Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978****AGENCY:** National Science Foundation.**ACTION:** Notice of permit modification request.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. This is the required notice of a requested permit modification.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by February 26, 2024. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314.

FOR FURTHER INFORMATION CONTACT: Andrew Titmus, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703-292-4479; or ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Public Law 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas as requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Description of Permit Modification Requested: The Foundation issued a permit (ACA 2024-006) to Megan Cimino on August 14, 2023. The issued permit allows the permit holder and agents to enter Antarctic Specially Protected Areas (ASPAs), as well as engage in research activities that would result in Take, Harmful Interference, and Import into the USA. The permit holder and agents would conduct research as part of the Palmer Station Long-Term Ecological Research Program (Palmer LTER). The applicant would continue long term-research efforts to assess how annual environmental variability affects seabird diets, breeding success, growth rates, survival and

recruitment, behavior, population trends, foraging success, and seasonal dispersal. The study species include the Adelle Penguin, Chinstrap Penguin, Gentoo Penguin, Brown Skua, South Polar Skua, Southern Giant Petrel, Blue-Eyed Shag, Kelp Gull, Snowy Sheathbill. All seabirds involved in this research would be released unharmed. Up to four timelapse cameras attached to poles on square bases anchored by rocks would be deployed to monitor penguin occupation patterns.

Now, the permit holder proposes a permit modification to include incidental mortality during research activities given the risk associated with various techniques used on different species. Most of the permitted research activities are unlikely to result in an incidental mortality (e.g., censusing, mapping, collecting fecal samples) while other activities are higher risk (e.g., stomach lavage, deploying trackers). Handling alone is unlikely to result in a mortality but due to the unpredictable nature of animal behavior and/or human error, handling could result in an injury and subsequent mortality. Further, the act of attaching tracking devices to penguins, skuas and petrels is unlikely to result in mortality, but the device could influence the animal's behavior, including aero and hydrodynamics. The permit holder requests the following number of incidental mortalities by species: Adelle Penguin (2), Chinstrap Penguin (2), Gentoo Penguin (2), Brown Skua (2), South Polar Skua (2), Southern Giant Petrel (2), Blue-Eyed Shag (1), Kelp Gull (1), Snowy Sheathbill (1).

Location: Palmer Station area, Antarctic Peninsula; ASPA 107, Dion Islands; ASPA 113, Litchfield Island; ASPA 115, Lagotellerie Island; ASPA 117, Avian Island; ASPA 139, Biscoe Point; ASPA 170, Charcot Island; and ASPA 176 Rosenthal Islands.

Dates: October 1, 2023—September 30, 2028.

Kimiko S. Bowens-Knox,

Program Analyst, Office of Polar Programs.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-305; NRC-2024-0023]

Kewaunee Solutions, Inc.; Kewaunee Power Station; Environmental Assessment and Finding of No Significant Impact

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption in response to the March 29, 2023, request from Kewaunee Solutions, Inc., (KS) Kewaunee Power Station (KPS), located in Kewaunee County, Wisconsin. The exemption would permit KS to use funds from the KPS nuclear decommissioning trust (NDT) for the management of site restoration activities and allow trust disbursements for site restoration activities to be made without prior notice to the NRC. The NRC staff is issuing an environmental assessment (EA) and finding of no significant impact (FONSI) associated with the proposed exemption.

DATES: The EA and FONSI referenced in this document are available on January 25, 2024.

ADDRESSES: Please refer to Docket ID NRC-2024-0023 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2024-0023. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section.

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.
