SUPPLEMENTARY INFORMATION:

Title: Gross Collection of Exchange-Set Margins for Omnibus Accounts (OMB Control No. 3038-0026). This is a request for extension of a currently approved information collection.

Abstract: Commission Regulation 1.58 requires futures commission merchants to collect exchange-set margin for omnibus accounts on a gross, rather than a net, basis. The regulation provides that the carrying FCM need not collect margin for positions traded by a person through an omnibus account in excess of the amount that would be required if the same person, instead of trading through an omnibus account, maintained its own account with the carrying FCM. To prevent abuse of this exception to the regulation, a carrying FCM must maintain a written representation from the originating FCM or foreign broker that the particular positions held in the omnibus account are part of a hedge or spread transaction. This collection of information is necessary in order to provide documentation that can be inspected with regard to questions of proper compliance with gross margining requirements. This rule is promulgated pursuant to the Commission's rulemaking authority contained in Sections 4c, 4d, 4f, 4g and 8a of the Commodity Exchange Act, 7 U.S.C. 6c, 6d, 6f, 6g and 12a.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on November 17, 2023 (88 FR 80284) ("60-Day Notice"). The Commission did not receive any relevant comments on the 60-Day Notice.

Burden Statement: The Commission is revising its estimate of the burden due to the reduced number of futures commission merchants in the industry. The respondent burden for this collection is estimated to be as follows:

Respondents/Affected Entities: 52.

Estimated Total Annual Responses: 208.

Estimated Total Annual Burden Hours: 17 hours.

Frequency of collection: On occasion.

There are no capital costs or operating and maintenance costs associated with this collection.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.

Needs and Uses: DFARS 231.205-18 requires contractors to report independent research and development (IR&D) projects to the Defense Technical Information Center (DTIC) using DTIC's online IR&D database. The inputs must be updated at least annually and when the project is completed. The data provide in-process information on IR&D projects for which DoD reimburses the contractor as an allowable indirect expense. In addition to improving DoD's ability to determine whether contractor IR&D costs are allowable, the data provide visibility into the technical content of industry IR&D activities to meet DoD needs.

SUPPLEMENTARY INFORMATION:

Title and OMB Control Number: Defense Federal Acquisition Regulation Supplement (DFARS) Part 217, Special Contracting Methods, and related clauses at 252.217; OMB Control Number 0704-0214.

Affected Public: Businesses or other for-profit and not-for-profit institutions.
Respondent's Obligation: Required to obtain or retain benefits.

Frequency: On occasion.

Number of Respondents: 4,815.

Responses per Respondent: Approximately 6.4.

Annual Responses: 30,758.

Average Burden per Response: Approximately 7.5 hours.

Annual Burden Hours: 229,436.

Needs and Uses: DFARS part 217 prescribes policies and procedures for acquiring supplies and services by special contracting methods. Contracting officers use the required information as follows:

DFARS 217.7004(a)—When solicitations permit the exchange (or trade-in) of personal property and application of the exchange allowance to the acquisition of similar property, offerors must provide the prices for the new items being acquired both with and without any exchange. Contracting officers use the information to make an informed decision regarding the reasonableness of the prices for both the new and trade-in items.

DFARS 217.7404-3(b)—When awarded an undefinitized contract action, contractors are required to submit a qualifying proposal in accordance with the definitization schedule provided in the contract. Contracting officers use this information to complete a meaningful analysis of a contractor's proposal in a timely manner.

DFARS 217.7505(d)—When responding to sole-source solicitations that include the acquisition of replenishment parts, offerors submit price and quantity data on any Government orders for the replenishment part(s) issued within the most recent 12 months. Contracting officers use this information to evaluate recent price increases for sole-source replenishment parts.

DFARS clause 252.217-7012—Included in master agreements for repair and alteration of vessels, paragraph (d) of the clause requires contractors to show evidence of insurance under the agreement. Contracting officers use this information to ensure that the contractor is adequately insured when performing work under the agreement. Paragraphs (f) and (g) of the clause require contractors to notify the contracting officer of any property loss or damage for which the Government is liable under the agreement and submit a request, with supporting documentation, for reimbursement of the cost of replacement or repair. Contracting officers use this information to stay informed of lost or damaged property for which the Government is liable, and to determine the appropriate course of action for replacement or repair of the property.

DFARS provision 252.217-7026—Included in certain solicitations for supplies that are being acquired under other than full and open competition, the provision requires the apparently successful offeror to identify their

sources of supply so that competition can be enhanced in future acquisitions.

DFARS clause 252.217-7028—When performing under contracts for overhaul, maintenance, and repair, contractors must submit a work request and proposal for “over and above” work that is within the scope of the contract, but not covered by the line item(s) under the contract, and necessary in order to satisfactorily complete the contract. This requirement allows the Government to review the need for pending work before the contractor begins performance.
