

(11) If you are a producer, an exporter, or a trade/business association of producers or exporters of the *Subject Merchandise* in any *Subject Country*, provide the following information on your firm's(s') operations on that product during calendar year 2023 (report quantity data in short tons and value data in U.S. dollars, landed and duty-paid at the U.S. port but not including antidumping or countervailing duties). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total production of *Subject Merchandise* in each *Subject Country* accounted for by your firm's(s') production;

(b) Capacity (quantity) of your firm(s) to produce the *Subject Merchandise* in each *Subject Country* (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix); and

(c) the quantity and value of your firm's(s') exports to the United States of *Subject Merchandise* and, if known, an estimate of the percentage of total exports to the United States of *Subject Merchandise* from each *Subject Country* accounted for by your firm's(s') exports.

Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the *Domestic Like Products* produced in the United States, *Subject Merchandise*

produced in each *Subject Country*, and such merchandise from other countries.

(13) (Optional) A statement of whether you agree with the above definitions of the *Domestic Like Products* and *Domestic Industries*; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

Hearing-impaired persons are advised that information on this matter can be obtained by contacting the

Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: On August 17, 2023, the Commission instituted this investigation under section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337 ("section 337"), based on a complaint filed by Vicor Corporation of Andover, Massachusetts. *See* 88 FR 56050-51 (Aug. 17, 2023). The complaint, as supplemented, alleges a violation of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain power converter modules and computing systems containing the same by reason of the infringement of certain claims of U.S. Patent Nos. 9,166,481; 9,516,761; and 10,199,950. *See id.* The notice of investigation names the following respondents: Delta Electronics, Inc. of Taipei, Taiwan; Delta Electronics (Americas) Ltd. of Fremont, California; Delta Electronics (USA) Inc. of Plano, Texas; Cynotec Co., Ltd. of Hsinchu, Taiwan; Quanta Computer Inc. and Quanta Cloud Technology Inc., both of Taoyuan City, Taiwan; Quanta Cloud Technology USA LLC of San Jose, California; Quanta Computer USA Inc. of Fremont, California; Hon Hai Precision Industry Co. Ltd. (d/b/a, Foxconn Technology Group) of Taipei City, Taiwan; Foxconn Industrial internet Co. Ltd. of Shenzhen, China; FII USA Inc. (a/k/a Foxconn Industrial, internet USA Inc.) of Milwaukee, Wisconsin; Ingrasys Technology Inc. of Taoyuan City, Taiwan; and Ingrasys Technology USA Inc. of Fremont, California. *See id.* The Office of Unfair Import Investigations is also a party to the investigation. *See id.*

On December 21, 2023, Complainant filed an unopposed motion to amend the complaint and notice of investigation to add DET as a respondent. No response to the motion was received.

On January 2, 2024, the ALJ issued the subject ID (Order No. 18) granting the motion. The ID finds that, under Commission Rule 210.14(b), 19 CFR 210.14(b), "good cause exists to allow the proposed amendment" because "Vicor was able to identify DET's role in the supply chain . . . only after having received confidential information from the Delta Respondents during discovery." *See* ID at 2. In addition, the ID finds that "[t]he proposed amendment . . . will not prejudice the public interest or the rights of the parties to this investigation." *See id.*

No petition for review of the subject ID was filed.

The Commission has determined not to review the subject ID. The complaint and notice of investigation are amended to add DET as a respondent.

The Commission vote for this determination took place on January 26, 2024.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Sodium Hexametaphosphate From China; Institution of a Five-Year Review

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted a review pursuant to the Tariff Act of 1930 ("the Act"), as amended, to determine whether revocation of the antidumping duty order on sodium hexametaphosphate from China would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted February 1, 2024. To be assured of consideration, the deadline for responses is March 4, 2024. Comments on the adequacy of responses may be filed with the Commission by April 10, 2024.

FOR FURTHER INFORMATION CONTACT: Kenneth Gatten (202-708-1447), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On March 19, 2008, the Department of Commerce ("Commerce") issued an antidumping duty order on imports of sodium hexametaphosphate from China (73 FR 14772). Commerce issued a continuation of the antidumping duty order on imports of sodium hexametaphosphate from China following Commerce's and the Commission's first five-year reviews, effective July 17, 2013 (78 FR 42754) and second five-year reviews, effective March 1, 2019 (84 FR 7021). The Commission is now conducting a third five-year review pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission's Rules of Practice and Procedure at 19 CFR part 201, subparts A and B, and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full or expedited review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by Commerce.

(2) The *Subject Country* in this review is China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determination and its expedited first and second five-year review determinations, the Commission defined the *Domestic Like Product* consisting of sodium hexametaphosphate, coextensive with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion

of the total domestic production of the product. In its original determination and its expedited first and second five-year review determinations, the Commission defined the *Domestic Industry* consisting of all domestic producers of sodium hexametaphosphate.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission's designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year review is not the same particular matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post-employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 79 FR 3246 (Jan. 17, 2014), 73 FR 24609 (May 5, 2008). Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation or an earlier review of the same underlying investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Charles Smith, Office of the General Counsel, at 202-205-3408.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to
